

VILLAGE RECORD.

WAYNESBORO.  
Thursday September 15, 1870.

The population of the borough of York Pa., is 11,018.

Lancaster county has nominated G. J. Dickey for Congress.

The State election in Vermont, as usual, has gone strongly Republican, the Senate being unanimously so, and the House standing 200 Republicans to 80 Democrats.

The election in Maine on Monday resulted in the election of all the Republican candidates for Congress and the entire ticket for State officers.

The census returns for New York show the population of the city to be less than 950,000. Chicago, according to the census, has 297,000.

The military career of King William of Prussia extends over a period of fifty-five years. His Majesty, who was born in 1797, was present at the battle of Waterloo, and was then but eighteen years of age.

The German "Ulans," so frequently mentioned in the war despatches, are lancers - a part of the regular cavalry force - lightly armed, well mounted, and appear to be used in "raiding" in the extreme Prussian advance.

The New York correspondent of the Philadelphia Ledger says that in a private letter received there from General Sheridan, he expresses the belief that the Prussians will not bombard or assault Paris, but will attempt to surround the city and wait until starvation shall force the garrison into capitulation.

Despatches from London announce the loss at sea, off Cape Finisterre, in the English Channel, of the English iron-clad steamer Captain, the finest war vessel of the English navy, and said to be the most complete iron-clad vessel ever constructed. All on board, some five hundred persons, perished, among whom were Cowper Coles, the designer of the vessel.

The probabilities of an effort by neutral nations to establish peace between France and Prussia, or at least to procure an armistice to allow time for negotiations, are increased by the latest news from Europe. There were rumors in Paris on Monday that Russia is insisting on a cessation of hostilities, and that the United States Government has sent three decided despatches to Berlin on the subject. One despatch was sent to Minister Bancroft expressing a hope that, as the detronement of Napoleon was accomplished, the war would be ended, created a great sensation, and was sent immediately to King William in the field. Despatches from Washington deny that any such despatches were transmitted, and say that "our Government will scrupulously refrain from interfering in the affairs of foreign nations." Many of the English journals urge intervention as a duty, the neglect of which will involve dishonor. The Prussian armies advanced on Paris until they reached Meaux and Crecy, twenty-five miles east and north-east of the city. The nearest point at which the advance of the army are reported is Noisy le Grand, which is but nine miles east of Paris. The main army appears to have been distant about twenty-five miles, and, according to a London despatch, it was halted by the request of Bismarck in order to consider the joint proposition of Russia and Austria for an armistice. A Paris despatch says that on Saturday the Prussians attacked Toul, and after a battle raging from five o'clock in the morning until nine o'clock in the afternoon, the town was captured.

At Montmedy last Thursday the garrison repulsed a Prussian attack, and Verdun still continues to hold out. King William's headquarters are to be at Rheims, where the Prussian army is concentrating. Bismarck says that he will have such a tremendous force in France as must crush resistance, and especially prevent everywhere the organization of new forces. Bazaine refuses to surrender at Metz. When informed that Napoleon and McMahon were prisoners, and that the Emperor advised the capitulation of Metz, Bazaine declared that he would not respect Napoleon's wishes, and would shoot any French officer advising a surrender.

It is reported that the ex-Emperor Louis Napoleon, recently purchased through his agents, an estate in Kent, England, and that he has invested in British and other solid securities about thirty millions of dollars, and has an annual income of about half a million from his investments in the English funds alone, with as much more from investments in other countries, the United States included. With the sweet reflection that in his misfortune penury is not included, and that the wants of his stomach are to be appeased with the necessities and delicacies of life prepared by the hands of the Queen of Prussia's own cook, Napoleon is in a tolerably good position after all. In his old age he retires from public life with a handsome competency to counteract the great cares which rested upon him when the "Empire was Peace; and besides has a wife and child left to console him in his declining days. Not one-tenth of the human race of his age have been thus comfortably situated.

The land is the best quality of limestone and is in a high state of cultivation, whilst the mill has the advantages of a fine water-power. For a profitable investment such opportunities are rarely offered to purchasers.

**SENSATION ACCIDENT.**-Mr. Jacob Middour of Quincy township, met with a serious accident on Tuesday evening. In his buggy, in company with a young man who has been in his employ, he started for his home. On reaching that part of the Quincy road just outside the Borough line and nearly opposite the residence of Mr. Charles Shrader, the buggy struck a breaker on a sidling place in the road throwing them both out. Mr. M. in the fall received a frightful cut on the forehead, the other escaping with but slight injuries. He was taken into the house of Mr. Shrader and the wound dressed by Dr. E. A. Herriog. On Wednesday morning he had recovered sufficiently to be removed to his home, and we understand nothing serious from his bruises are apprehended.

**ANOTHER.**-About 9 o'clock the same evening James Smith and Thomas Hollingsworth, returning from the Mountain, came in collision with the horse and buggy of Jacob Good, Jr., opposite the Post Office. One wheel was knocked off the former's buggy and both thrown out, but fortunately no injuries were sustained by either of the parties.

**FINISHED.**-The fine building of Mr. A. P. Gordon just completed is an ornament to our town. Our neighbor spared no pains to secure first-class mechanics, and for the energy and taste thus displayed, much credit is due him. The architecture and arrangements throughout are complete. The interior painting, which is an imitation of walnut and oak, and which is equal to the natural wood, was done by Mr. John C. Smith, of this place. Competent judges say this part of the work has been unusually well executed, so much so as perhaps not to be excelled in the county. Mr. S. is a young man and bids fair to excel as an artist.

**DECEASED.**-Mr. John Harbaugh of C. father of Mr. Henry Harbaugh, of this place, expired at his residence in Sabillasville, Md., on the 27th ult., after three years' affliction from paralysis, having attained the age of 83 years, 1 month and 6 days. The Frederick Republican says: "The ancestors of the Harbaugh family came from Switzerland, and located in York county. They settled on a tract of land which lay in the valley of Kreutz creek, about the year 1743. A love for the mountains still clung to them, so that about the year 1761 the Harbaugh family moved into this section of country, now known by the name of Harbaugh's Valley."

The deceased was eighteen months the senior of his brother, Mr. Elias Harbaugh, who has been a resident of this place since 1821. The latter, notwithstanding his advanced age, enjoys apparent good health, and continues to perform his usual shop labors, being a wagon-maker by profession.

Pursuant to appointment a meeting was held in the Town Hall on the 10th inst., by the Republicans of Washington township, at which the following ticket was nominated: Judge, Jacob S. Good; Inspector, James McIlvane; Auditor, Samuel Welly; Assessor, Matthew A. Gordon; Assistant Assessors, Chas. West, Daniel Potter; Supervisors, Jos. McCaulley, Geo. V. Mong, Jacob Potter, John Rodgers; School Directors, Benj. F. Funk, David Gilbert, Peter Rouzer; Constable, Henry Henuelle.

No, let me persuade you, don't have it done; you I address, who have had a troublesome tooth for a long time. It all arises from a little inflammation of that delicate membrane which surrounds the roots of all your teeth, aggravated by every slight cold, and although your tooth (the troublesome one) presents an unsightly appearance, possesses an unpleasant odor and shows a yawning cavity, don't sacrifice it.

Dr. Peidicord stands ready to treat that tooth, and restoring it to a healthy normal state, so fill the cavity that it will be a blessing to retain it. So think once again ere you rashly resolve to have it extracted.

**THIEVES ABOUT.**-Mr. Levi Fox of the vicinity of Leitersburg, had a fine sorrel mare stolen on Saturday night last. The same night a one-horse wagon was stolen from a Mr. Crosby near Riggold. One of the shafts was broken and wrapped with zinc. Running part painted yellow and striped red. Bed red. Rewards are offered for both horse and wagon.

It would certainly be well for farmers and others to avail themselves of the advantages afforded by Stock Insurance Companies - Apply to Lew. W. Detrich, of this place.

**HOG CHOLERA.**-This disease is prevailing in portions of Washington and Frederick counties, Md., and has carried a number of hogs. One farmer, says twice a week, named Keifor, residing about three miles from Clearspring, lost seventy within the past few weeks, another twenty-five, and others from one to ten. In the Southern part of Frederick county the malady is represented as very fatal, some farmers having lost their entire stock.

**Two Detectives of the Penna. Mutual Horse Thief, Detective and Insurance Company,** of York, Pa., were through town on Saturday on the hunt of a horse stolen in Mechanicsburg Pa., last week. Lew. W. Detrich is agent of this company for Washington and Quincy townships.

**CENSUS.**-Emmitsburg has 707 inhabitants, 145 dwellings and 329 families; Mechanicsburg has 563 inhabitants, 119 dwellings and 125 families.

**THE APPROACHING FAIR.**-The Third Annual Fair of the Franklin County Agricultural Society promises to be one of the finest exhibitions of the kind ever held in the Cumberland Valley. In saying this we but echo the sentiments of every one familiar with the wealth and development of Franklin County.

It will be distinctly understood that the trial of speed this year, announced as "open to all," is no feature of the Society's but the premium offered for the same has been raised by the citizens, and called a citizens' purse. The other trials that will occur, what are of them, and they have all been greatly reduced in premium and number, are intended exclusively for county competitors, that is horses that will be tested must have been owned in the county one year. The premiums offered for stock of all kinds, upon comparison with the lists of other and larger counties, are found to be more liberal in every respect. Some mistakes were made in the appointment of committees, which of course will be rectified before they serve. For instance, committees have been appointed who have since notified the Society that they would be competitors, and hence their places will be filled by others.

We have also been authorized to state that premiums will be awarded for meritorious articles, stock, poultry, &c., not named on the list.

Not the least attractive points of interest on the grounds this year will be the floral and vegetable departments, and every convenience will be introduced for the accommodation of those who have articles for exhibition in this department. The main building this year will be one of the finest attractions on the grounds. A large number of stalls are provided for stock. Although it is nearly three weeks until the exhibition takes place, hundreds have signified their intention of being on hand with articles for exhibition, and have provided places to be assigned them.
