PHU MORNING GLORY FOR '69. GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR CLEARER, BAGGER AND POWERS

CHINE now built under the immediate eye of the o'l fiventors themselves, with all the additional in-provements made during the past 18 years, and now with first class worker and material this michine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thorringhly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, is the the question of its superiority, as a cleaner over all others. Impartial judges at all the Sinte and County Fdirs where it was thoroughly and practically tested, in competi-tion withlotter leading machines, always agree that it is more simple—more early understood and op-erated by those unskilled in machinery—more dura-ble,—threshing as much and yet cleaning better with less power and order comfort to hands than any other machine in tree-and besides all that is sold for tess money according to capacity. These facts are further attested by the the usands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with prices ranging from \$190 to \$360, without power. We also make the latest improved triple-geared Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted For further intormation send for Circular and Price List. corrigions, new Been purified and cured by it. Scrofulous affections and disorders, which were neggravated by the scrofulous of the country, that the public searcely need to be informed of its virtues or uses.

Scrofulous polson is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undernines the constitution, and invites the attack of enfectling or tatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or find ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even-when no active symptoms of disease appear. Persons afficted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla is advisable, even-when no active symptoms of disease. Also in the more concelled forms, as Dyspepsia, Dropsy, Heart Bhoun, Scald Head, Ringuorm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concelled forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralyia, and the various Ulcerons affections of the muscular and nervous systems.

Syphilis or Venercal and Mercurial Diseases are cured by it, though a long time is required for guidaling these obstinate maladies by any medicine. But long-continued use of this medicine will cure the complaint. Leucorrhæa or Whites, Ulcertue Ulcerations, and Fennale Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanae, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yi

The merits of this Machine consist, in part, in the attachment of curved knives to the arms of the cutting-wheel, the shearing cut across the mouth-piece, the great power and directness of the blow, by which treble the volume of material is cut, with less power than is required by any other Machine; those combined with its durability and simplicity of construction, command public attention.
