KIDNEYS.

The Kidneys are two in number, situated at the upper part of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or voins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

or.
The bladder is composed of various coverings or tissues, divided into parts. viz: the Upper, the Low-er, the Nervous, and the Mucous. The upper expels, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in chil-

ñay eusue.

GOUT, OR RHEUMA-

Pain obscuring in the loins is indictive of the above liseases. They occur in persons disposed to acid tomach and chalky concretions.

THE GRAVEL.

The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY

TREATMENT.

Helmbold's highly concentrated compound Ex-tract Buchu is decidedly ONE OF THE BEST REMEDIES FOR DISEASES OF THE

INCREASES THE POWER OF DIGESTION,

and excites the absorbents into healthy exercise by which the watery or calcareous depositions, and all unnatural enlargements, as well as pain and inflam-mation, are reduced, and it is taken by men, wo-men, and children. Directions for use and diet ac-

PHILADELPHIA, PA., Feb. 25, 1867.

H. T. HELMEDLE, Druggist:

Dear Sin — I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affection, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians; experiencing but

Having seen your preparation extensively advertised, I consulted with my family physician in re-

tised remedies, and had found them worthless, and some quite injurious; in fact I despaired of ever get-ting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubels, and juniper herries, it occurred to me and my physician as an excellent combination, and, with his advice after an examination of the artic's, and consulting again with the druggist, I concluded to try it. I com-menced its use about eight months ago, at which bottle I was actonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full state-ment of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value

ter using the remedy for five months. I have not used any now for three months and feel as well in all respects as I ever did, Your Buchu being devoid of any unpleasant taste

A NICE TONIC AND INVIGORATOR

I do not mean to be without it whenever occasion may require its use in such aff ctions.

GRAIN SEPARATOR

No Implement more important to the farmer than FIRST-CLASS, GRAIN THRESHER AND G. A. Salt; Fine Salt; LEANER-for none pays him so well and speedi-

The above cut shows the ONLY GEISER MA-CHINE now built under the immediate eye of the o d inventors themselves, with all the additional im-p overments made during the past 18 years, and now with first class workmen and materiat this machine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands them? from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition withother leading machines, always agree that it is more simple—more easily understood and op-erated by those unskilled in machinery—more durable,—threshing as much and yet cleaning better— with less power and more comfort to hands than any other machine in use-and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had then in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with prices ranging from \$190 to \$360, without power. We also make the latest improved triple-geared Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted. For further information send for Circular and Price List. Responsible Agents wanted in territory not intro
