THE KIDNEYS.
The Kidneys are two in number, situated at the upper part of the loins, surrounded by fat, and consist of three parts, viz: the Anterior, the Interior, and the Exterior.
The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.
The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous, and the Mucous. The upper exerts, the lower retains. Many have a desire to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.
To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.
The reader must also be made aware, that however slight may be the attack, it is sure to effect the bodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMATISM.
Pain obscuring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

THE GRAVEL.
The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

DROPSY
is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.
Helmhold's highly concentrated compound Extract Buchu is decidedly ONE OF THE BEST REMEDIES FOR DISEASES OF THE
BLADDER, KIDNEYS, GRAVEL, DROPSICAL, SWELLINGS, RHEUMATISM,
and gouty affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always

HIGHLY RECOMMENDED
by the late Dr. Physick, in these affections.
This medicine
INCREASES THE POWER OF DIGESTION,
and excites the absorbents into healthy exercise by which the watery or calcareous depositions, and all watery enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women, and children. Directions for use and diet accompany.

PHILADELPHIA, PA., Feb. 25, 1867.
H. T. HELMHOLD, Druggist:
DEAR SIR—I have been a sufferer, for upward of twenty years, with gravel, bladder, and kidney affection, during which time I have used various medicinal preparations, and been under the treatment of the most eminent Physicians; experiencing but little relief.
Having seen your preparation extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.
I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious; in fact I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of their ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubeb, and juniper berries, it occurred to me, and with my physician as an excellent combination, and with his advice again with the druggist, I contacted to try it. I commenced his use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.
I am now able to report that a cure is effected after using the remedy for five months.
I have not used any now for three months and feel as well in all respects as I ever did.
Your Buchu being devoid of any unpleasant taste and odor,
A NICE TONIC AND INVIGORATOR OF THE SYSTEM,
I do not mean to be without it whenever occasion may require its use in such affections.
M. MCCORMICK.
Should any doubt Mr. McCormick's statement be referred to the following gentlemen:
Hon. Wm. HIGGINS, ex-Governor, Pennsylvania.
Hon. Thos. B. FURNESSE, Phila'delphia.

GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR CLEANER, DRESSER AND POWERS

No implement more important to the farmer than a FIRST-CLASS GRAIN THRESHER AND CLEANER—for none pays him so well and speedily.
The above cut shows the ONLY GEISER ACHINE now built under the immediate eye of the inventor himself, with all the additional improvements made during the past 18 years, and now with first class workmen and material this machine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges—at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use—and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To apply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with prices ranging from \$100 to \$300, without power. We also make the latest improved triple-gear Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted. For further information send for Circular and Price List.
