**THE KIDNEYS.**

The Kidneys are two in number, situated at the  
upper part of the loins, surrounded by fat, and con-  
sisting of three parts, viz: the Anterior, the In-  
terior, and the Exterior.

The anterior absorbs. Inter consists of tissues  
or veins, which serve as a deposit for the urine and  
convey it to the exterior. The exterior is a conduc-  
tor also, terminating in a single tube, and called the  
Ureter. The ureters are connected with the blad-  
der.

The bladder is composed of various coverings or  
tissues, divided into parts, viz: the Upper, the Lower,  
the Nervous, and the Mucous. The upper ex-  
pels, the lower retains. Many have a desire to urinate  
without the ability; others urinate without the  
ability to retain. This frequently occurs in child-  
hood.

To cure these affections, we must bring into ac-  
tion the muscles, which are engaged in their various  
functions. If they are neglected, Gravel or Dropsy  
may ensue.

The reader must also be made aware, that how-  
ever slight may be the attack, it is sure to affect the  
bodily health and mental powers, as our flesh and  
blood are supported from these sources.

**GOUT, OR RHEUMA-  
TISM.**

Pain obscuring in the loins is indicative of the above  
diseases. They occur in persons disposed to acid  
stomach and chalky concretions.

**THE GRAVEL.**

The gravel ensues from neglect or improper treat-  
ment of the kidneys. These organs being weak, the  
water is not expelled from the bladder, but al-  
lowed to remain; it becomes feverish, and sediment  
forms. It is from this deposit that the stone is  
formed, and gravel ensues.

**DROPSY**

is a collection of water in some parts of the body,  
and bears different names, according to the parts af-  
fected, viz: when generally diffused over the body,  
it is called Anasarca; when of the abdomen, Ascites;  
when of the chest, Hydrothorax.

**GEISER'S PATENT SELF-REGULATING  
GRAIN SEPARATOR  
CLEANER, BAGGER AND POWERS.**

No implement more important to the farmer than a  
**FIRST-CLASS GRAIN THRESHER AND  
CLEANER**—for none pays him so well and speedily.

The above cut shows the **ONLY GEISER A-  
CHINE** now built under the immediate eye of the  
old inventors themselves, with all the additional im-  
provements made during the past 18 years, and now  
with **first class workmen and material** in this machine  
justly stands high up above all of its class. As a  
thresher it is equal to the best, as a Cleaner it is su-  
perior to any existing machine. This is admitted  
by all honest competitors. Indeed it is the **only**  
machine that really can, by one operation, thorough-  
ly thresh and clean grain fit for market. But the  
fact that grain direct from this machine commands  
from 2 to 3 cents a bushel more than grain direct  
from any other machine, settles the question of its  
superiority, as a cleaner over all others. Impartial  
judges at all the State and County Fairs where it  
was thoroughly and practically tested, in competi-  
tion with other leading machines, always agree that  
it is more simple—more easily understood and op-  
erated by those unskilled in machinery—more dur-  
able—thrashing as much and yet cleaning better—  
with less power and more comfort to hands than  
any other machine in use—and besides all that is  
sold for less money according to capacity. These  
facts are further attested by the thousands of pur-  
chasers, some of whom have had them in use for  
the last 18 years. To supply the wants of all, we  
now make 4 sizes, viz: From a 2 Horse Railway or  
3 Horse Horse Power, to a ten Horse Lever  
power, with prices ranging from \$100 to \$360,  
without power. We also make the latest im-  
proved triple-gear Horse Powers suitable for  
each size machine ranging from \$90 to \$135, and  
all fully and fairly warranted. For further infor-  
mation send for Circular and Price List.

MANUFACTURE  
**PORTABLE AND STATIONARY  
STEAM ENGINES.**

HAVING increased facilities for manufacturing  
portable and stationary steam engines at  
short notice, of sizes from two to one hundred and  
fifty horse-power, I would call the attention of  
persons wanting portable engines for threshing  
grain, &c., as I am now prepared to furnish them  
at short notice. I am also prepared to furnish shaft-  
drives, pulleys, &c., and all work in my line of busi-  
ness. Persons in want of anything in my line will  
please call and examine my work before buying  
elsewhere.

For further particulars send for circular.
