THE

The Ridneys are two in number, situated at the upper port of the loin, surrounded by fat, and consisting of three parts, viz: the Anterior, the In-

The anterior absorbs. Interior consists of tissues or voins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the blad-

der.
The bladder is composed of various coverings of tissues, divided into parts, viz: the Upper, the Low-er, the Nervous, and the Mucous. I he upper ex-pels, the lower retains. Many have a desire to uri-nate without the ability; others urirate without the ability to retain. This frequently occurs in chil-

dren To cure these affections, we must bring into ac tion the muscles, which are engaged in their va ious functions. If they are neglected, Gravel or Dropsy

The reader must also be made aware, that however slight may be the attack, it is sure to effect the hodily health and mental powers, as our flesh and blood are supported from these sources.

GOUT, OR RHEUMA-TISM.

Pain obscuring in the loins is indictive of the above diseases. They occur in persons disposed to acid atomach and chalky concretions.

THE GRAVEL.

The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, he water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment formed, and gravel ensues.

DROPSY

is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it; is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

TREATMENT.

KIDNEYS. WAYNES BORO' MUTUAL GEISER'S PATENT SELF-REGULATING MEXICAN ROW! GRAIN SEPARATOR

Jement more important to the farmer than FIRST-CLASS GRAIN THRESHER AND CLEANER—for none pays him so we land speedi-

The above cut shows the ONLY GEISER A-CHINE now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with first class workmen and material this machine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel-more-than grain-direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competi-tion withother leading machines. tion withother leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable,—threshing as much and yet oleaning better with less power and more comfort to hands than any other machine in use—and besides all that is sold for less money according to capacity. These sold for less money according to capacity. These facts are further attested by the thomsands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with piece ranging from \$190 to \$360, without power. We also make the latest improved triple-geared Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted. For further inforall fully and fairly warranted. For further information send for Circular and Price List.
