

VILLAGE RECORD.

WAYNESBORO.

Thursday, December 22, 1870.

The Centre Market at Washington was buried in snow on Sunday morning. Two men were suffocated and their bodies buried.

The Pennsylvania Central has leased the Camden and Amboy Railroad—a very important movement.

The Department of Agriculture at Washington estimates the cotton crop of the past year at 3,800,000 commercial bales.

Minister Washburne writes from Paris that, according to his information, the French have been beaten at all points and the end is apparently near at hand.

Two prize fighters, James Elliott and John Wilson, were on Saturday sentenced to the Philadelphia Penitentiary and fined \$2,000 each for attempting to shoot Policeman Murphy.

Hon. Wm. B. Mann, of Philadelphia gave his daughter a house and furniture worth \$25,000, \$10,000 worth of diamonds, and a country seat on the Delaware as a marriage portion. She was married on the 18th ult.

The instructions with which General Schenck will go to England as Minister of the United States are said to embrace a demand for the payment of the losses of American shipowners by the Alabama, with interest added; reimbursement to our Government for expenses incurred in consequence of the depredations of English-Confederate cruisers; and public recognition of the principles of neutrality hitherto insisted on by the American Government.

WAR NEWS.—The delay in the bombardment of Paris is said to be caused by the insufficiency of ammunition in the German camps, and by the siege guns not yet being in position. A large number of horses are to be sent immediately from Germany to place the guns in the trenches ready for use. An engagement is reported to have taken place on Thursday at Briele, on the railway half way between Orleans and Tours, in which the Germans were repulsed. On the succeeding day the French were driven out of Vendome, forty miles west of Orleans. Despatches from Bordeaux say that the Germans are retreating all along the line of the Loire, and that the French have been reinforced and are preparing for a simultaneous attack. The Germans are concentrating at Yost, twelve miles from Havre, to attack that city. A despatch from Lille reports a rumor of a successful sortie from Paris, and the surrounding of the Germans at Versailles by Trochu's forces. This is uncorroborated, but the general spirit of the despatches from about Paris represents the city as being able to hold out three months longer, and that meanwhile an offensive movement in strong force will be made against the besiegers.

According to the latest news from the seat of war King William insists upon the unconditional submission of the French nation; otherwise Paris will be at once attacked. These demands, the Berlin Post says, will be submitted to the Conference of the Powers on the Eastern question which is now to meet at London. Despatches from Bordeaux say that the journals of that city assert that there has been considerable trouble among the representatives of the Provisional Government in Paris, on a fiction arresting and imprisoning the representatives of the other. The excitement, it is said, was caused by the publication of false news over the forged signature of Gambetta. On Sunday the Germans, after a battle of five hours, captured and occupied the town of White, on the railway between Paris and Lyons.

Pirate Semmes, of the Alabama, must look to his laurels as a lecturer, for a new and formidable rival has appeared in the Southern Lyceums How tame and uninteresting the exploits of Semmes in burning defenseless ships will appear compared to the thrilling tales of John H. Suratt's adventures as spy, conspirator, and assassin. This Suratt has had the effrontery to detail before Southern audiences his connection with the conspirator who assassinated Mr. Lincoln. He denies, of course, that he agreed to the assassination, for that confession would hang him, but he admits that he was a paid spy of the Confederates, and was fully committed to the conspiracy to kidnap Mr. Lincoln. The story is absurd; the strangest part of all is that he should ever have found listeners in any respectable community.

The recent proclamation of Gov. Geary shows that the reduction of the State debt during the year commencing with the first day of December, 1869, and ending November 30, 1870, inclusive, amounts to the large sum of \$1,602,321 81, consisting of five and six per cent. bonds redeemed and Relief notes cancelled. This exhibition of good management and faithful application of the finances of the State is highly creditable to the administration.

Within the past couple of weeks fourteen firms of manufacturers, commission houses and jobbers in the shoe trade, in Philadelphia, have suspended.

Experience warrants us in recommending Hall's Vegetable Sicilian Hair Renewer as a sure remedy for gray hair.

The Artesian Well, sunk by Kurtz & Werz at their new brewery in Chambersburg, is doing finely. The greatest depth bored down, was 150 feet, and the water obtained is all that could be desired in quantity and purity. So says the Public Opinion.

Church of this place, on Tuesday evening, January 10, 1871, for the benefit of the Sewing Society. This lecture should, and doubtless will, attract a large audience.

COURT.—The following is a list of Jurors from Washington and Quincy townships for January Court, which commences on Monday the 16th: Grand Jurors.—Wm. H. Brown, Jacob S. Breneman, Jacob Middour, W. A. Reid, Traverser Jurors.—Harry Barr, Geo. Barnhart, John Dacy, D. R. Miller, Ephraim Snyder, Peter Whitmore, D. M. Detrich, D. F. Gordon, Henry Leeron, John C. Martie, Henry Row, E. B. Winger, Michael Honstine, E. J. Small.

Snow birds have made their appearance.

SCARLET FEVER.—This scourge of children and dread of parents yearly carries off large numbers of children. We notice in our exchanges what seems to be a judicious treatment in the earlier stages of the disease, which usually begins with languor, loss of appetite, followed by fever and sore throat, and then "red patches" on the cheeks appear. When the symptoms are first observed place the child in a bed in a room which is warm, but well ventilated. Administer warm, weak lemonade, with a little gum arabic dissolved in it. Cover the stomach with dry flannel, then take a neatly folded bed sheet and place it in boiling hot water, wring it out by means of dry towels, and place it over the flannel on the child's abdomen. This must be repeated until perspiration is observed, which will not result for some minutes, when the patient will drop into a quiet slumber, and with careful nursing is saved. All this may be done before a physician is summoned and will prove a great auxiliary to his course of treatment—in many cases it will enable him to save the life of a dear child and prevent the disorders which almost follow this dreadful complaint when it is not promptly assailed by this preliminary home treatment.

SEVENTEENTH CAVALRY.—A circular headed us announces that J. A. Clark, late Adjutant of the 17th Penna. Cavalry, is writing and will publish during 1871 a History, entitled "The Battles and Campaigns of the 17th Penna. Cavalry, of the Cavalry Corps of the Army of the Potomac and of General Sheridan's Cavalry in the Shenandoah Valley," giving an authentic history of the Regiment. The volume will be handsomely illustrated and contain 514 pages 16 Mo.—Price \$4.50. Co. "G" of the 17th was organized by Capt. L. B. Kurtz in this place. Address J. A. Clark, Scranton, Pa.

BACK.—Our friend, Mr. Geo. Fourthman, who had been looking after his interests in Indiana for a couple of months, returned last week looking well and expressing himself much pleased with his recent purchase of real estate in that part of the "far west." Wm. Hammett, Esq., also returned a few days since, having made an extended tour of several months through the Western States, in good health and spirits, and much pleased with his trip.

A pack of villains in New York have for sometime been forwarding circulars to people in the country, proposing to sell them counterfeit money, and not a few dishonest dupes have been caught in their traps, sending on money and receiving in return sealed packages of miniature photographs of greenbacks, sawdust, &c. The police in overhauling some of the swindlers, brought to light the fact that one party had received thirty thousand dollars in forty seven days from country "verdiants."

These are taken to where the party is to be held and placed in a bag. FULFILLMENT OF PROPHECY.—A London correspondent of a Chicago paper writes: "Noticing a reference to a prediction by an ancient French prophet, said to be found in a work by Chevalier de Chatelet, published some years ago, I have taken the trouble to consult it to-day. The particular prediction referred to is in these words: 'When the Second Empire shall have been established at Paris, it will last for eighteen years, less one quarter, not a single day longer.' Mark the singular fulfillment. Louis Napoleon claimed supreme power, though not yet the title of Emperor, on the second day of December, 1852; and on the 2nd day of September, 1870, exactly eighteen years less one quarter, not a day longer, he was a prisoner of war and his dynasty at an end. This is one of the most remarkable coincidences on record, for the prophecy has not been cooked up for the occasion, but was printed in black and white years ago.

THE MOON DEAD.—The German astronomers and physicians have, after prolonged observation, arrived at the conclusion that the moon is a dead planet, that is, it has "boiled off" and now is without heat, water or atmosphere, and consequently without life of any kind. The earth is undergoing the same process, according to these learned philosophers and will eventually be without life or heat. But who now live may take no fears to heart on that account, as the earth can cool off, say the geologists, only at the rate of fifteen degrees in 9,000,000 years.

HEADACHE, NEURALGIA AND NERVOUS DISEASES!—The wonderful effects of Dr. J. Briggs' Alleviator, for the speedy cure of the above very prevalent and painful affections, is known to many thousands who have used it with the most unqualified success. CORNS, BUNIONS, BAD NAILS, CALLOSITIES, &c.—It is an astonishing fact that nine out of every ten persons we meet are sorely troubled with their feet. Very few are exempt. Dr. J. Briggs' popular remedies—Curative and Alleviator—are reliable and certain in their effects. The curative for sore and tender corns, bunions, bad nails, &c., is a soothing balm for wounded feet, and rapidly cures the worst cases. Alleviator, for the cure of common corns and bunions, and the prevention of all corns is a puzzle to scientific minds. Sold by F. Fortmann.
