B Dr. P. FAHRNEY'S Colobrated Blood Cleanser or Panacea.

As a medicine for children, the Panacca is, in every way, calculated to take the place of the endle-s variety of drugs which are annually sold for that purpose, and which are often very ingrious. A medicine which posesses the qualities of a calitarite as well as a mild alterative, and which is capable of arresting disease without the least injury to the child, is of incalculable value to every mother. As a calitarile, it is very effective, yet it does not, if given in proper quantities, cause nausea or distress to the stomach or bowels. It is very pleasant to the taste, which is a very important feature as a medicine for children. As a presentite of these it is the imprecedented, as it acts directly upon the diges ive organs and the blood. In all scrothious diseases, it is the most effective medicine ever oficred to the public; and, if given regularly and perseveringly, those eruptive diaces so common to children may be entirely eradicated.

There is added to the Morning of this year an oven, which is neat in appearance. It is a good Baker. You can heat Irons Bake, Boil, Roast, Stew, and it does not interfere with the operations as a Parlor Stove. In regard to the blast of some Stove Dealers,

who say that their particular stove takes less coal and gives more heat than the Morning Glory, you can put that kind of talk down as a Blow-well, as the Morning Glary has been sold (in this part of the country) for four years, and in that time I have put out over three hundred of them, and never had to take one back because it would not do its work or it was not what I sold it for. Now that cannot be said of any other stove ever offered in this mar
