

VILLAGE RECORD.

WAYNESBORO.

Thursday, January 12, 1871.

A mammoth London circus is now on its way to this country.

The total product of corn last year is estimated at over eleven hundred millions of bushels.

Southern exchanges say that Surratt can not obtain an audience to listen to his lecture, and that he has retired from the exhibition business.

Both branches of the Legislature organized on the 3d inst. W. A. Wallace, Democrat, was elected Speaker of the Senate, and James H. Webb, of Bradford county, is the Speaker of the House.

It is now reported, says the Washington Star, that in thirty days from this time, unless heavy snows prevent active operations, the last rail will be laid on the Pittsburg and Connelleville road, which will then be formally opened.

RETRIBUTION.—An Iowa paper tells of a subscriber who stopped his paper, and in less than a week he was kicked by a mule and his life despaired of. Perhaps the mule thought a man who wouldn't take a paper wasn't fit to live, or else was fit to die.

The Women Suffragists were to argue before the Judiciary Committee of the House of Representatives yesterday the question whether under the Fourteenth and Fifteenth Amendments to the Constitution they are not already entitled to the ballot. They urge that they are now legal voters, and they are said to have some influential friends in Congress who are of the same opinion.

WAR NEWS.—The war news indicate that on Friday the French army of the Loire, in advancing northward, met the Germans between Orleans and Vendome, and also east of Orleans, and that one or perhaps two severe battles took place. The Bordeaux despatches give accounts of engagements in the vicinity of towns from ten to fifteen miles north and north east of Orleans, in which the Germans were at first successful, but were finally repulsed. The Versailles despatches place the locality of the battle on the west side of Orleans, and between there and Vendome, and state that the Germans were entirely victorious. King William telegraphs on Saturday night that the result was entirely satisfactory. The French say that Gen. Chanzy has 150,000 men, and is being heavily reinforced. The same obscurity and contradiction exists in the despatches regarding the armies near the mouth of the Seine, the Germans claiming to have defeated the French twice, and the latter reporting that in the battle on Saturday they were successful, and recaptured the town of Bougachard, twenty miles from Honfleur, previously held by the enemy. The Germans continue vigorously the bombardment of Paris, and are extending their line of fire entirely around the city. The case-mates of Fort Rosny, on the eastern side, have been destroyed, and Fort D'Issy, on the south, silenced. Forts Vanvres and Montrouge, adjacent to D'Issy and the plateau of Villejuif, also sustain a heavy attack and reply actively to the German guns. From Versailles it is reported that the results so far are favorable to the besiegers. As yet the French have lost but twenty killed and two hundred wounded, and the Germans correspondingly lightly. The average mortality in their regiments, however, is reported to be two per cent. In northeastern France the Germans have occupied Roory, and captured there a large amount of arms and ammunition. The advance of Von Werder's army in the southeast has taken two hundred prisoners in the valley of the Saone.

P. S. According to later accounts the Germans continue to bombard the defenses of Paris, and have captured an advanced redoubt at Clamart, on the southwest side of the city, and have turned its guns on the French. A telegram from Versailles to the London Times says that the Germans could easily shell the city, and that the American Council has left Paris and arrived at the King's headquarters. There was no appearance of a sortie being made by the garrison. On the authority of the same correspondent it is stated that after the fighting near Vendome on the Loire, on Friday, the French retreated westward, and that the Germans are pursuing them, but with little resistance. King William telegraphs Queen Augusta, from Versailles, that Prince Frederick Charles continues his victorious march on Le Mans, and that the bombardment from Versailles is progressing favorably.

Gen. Prim died at Madrid on Saturday night a week from the effects of wounds inflicted on him by assassins. His death removes from the troubled field of Spanish politics the man who has most largely figured in the stormy events which have distracted Spain since the expulsion of Queen Isabella, more than two years ago.

A large building is in process of erection at St. Joseph's Academy near Emmitsburg designed for an Exhibition Hall. It will be 142 by 136 feet, three stories, the Exhibition Hall to be 26 feet from floor to ceiling. The building will be brick, and will cost about \$50,000.

CORNS, BRONCHITIS, &c.—Use Briggs' Throat and Lung Healer. Sold by F. Forthman.

LOCAL MATTERS.

FRESH OYSTERS.—Choice Baltimore Oysters received at Reid's on Wednesday evening, and also on Friday evening.

When you want hats, shoes or notions, go to C. N. Beaver's, No. E. corner of the Diamond.

ROASTED COFFEE.—Everybody trying the Roasted Coffee received last week by W. A. Reid will be convinced of its superior quality.

Over two hundred and fifty witnesses were examined at Ursina in the Cessna-Meyers contested election case.

DENTISTRY.—Dr. Branisholtz gives special attention to the care of children's teeth.—Also inserts teeth as cheap as the cheapest.

Our Legislature being now in session, would it not be well for some of the Waynesboro' and Quincy folks to interest themselves to secure a charter for a turnpike between these points?

The 'Ryder Nursery Farm' near Loudon, was recently sold by the assignees of B. L. Ryder, for the sum of \$51 per acre.—Purchaser, Daniel Stouffer.

GENERAL INTEREST.—Good eating apples, and good baking apples; white soup beans; and Cove buckwheat flour, a prime article, just received and for sale by W. A. Reid.

DECEASED.—The Valley Spirit announces the death of his Hon. Alex. King, President Judge of this Judicial District, which took place at his home in Bedford, on Tuesday last at 12 o'clock.

LECTURE.—The Lutheran Christian Association of this place have engaged Rev. Dr. Swartz, of Carlisle, Pa., to deliver a Lecture in the Lutheran Church, on Thursday evening, 26th inst. Subject: "No Man Owns Deeper than he Plows." Family tickets \$1.00; Single tickets 25 cents; Children under 12 years 15 cents.

Every person in want of a good reliable family Sewing Machine that is simple and easy to operate, should purchase the Wilson Improved or the improved Buckeye.—Prices, \$20, \$30, \$35, \$40, and upwards.—A child ten years old can use them. Every machine warranted for 3 years. A. E. Waynant, Agent.

THE LECTURE.—The previously announced and much talked of lecture by Rev. R. S. Dashiell, D. D., Subject—"Wanted—A Situation for a Gentleman's Son"—was delivered in the M. E. Church on Tuesday evening.—The attendance was much larger than is usual on such occasions, the spacious pews, with a few exceptions, being well filled. The lecture fully met the expectations of the audience, being highly instructive as well as amusing, and was delivered in a style of oratory that could not have failed to captivate and interest the most indifferent.

SUDDEN DEATH.—Miss Barbara Russell was found dead at the residence of her brother-in-law, Mr. Lewis Detrich, in this place, on Monday morning last. She had been spending a couple of weeks with her sister, Mrs. Sarbaugh, in the country, and returned on Saturday evening. Her death was sudden but not unexpected, as she had been suffering seriously from heart disease for several years, of which it is understood, she died. She was not in the habit of rising early in the morning, and it was not until about half nine o'clock a member of the family repaired to the room to find her sitting on the lounge, a corpse. It is supposed she got up to attend to the fire and was suddenly taken with the disease and expired. She was aged 51 years.

THE HOWE.—The Howe is a standard Sewing Machine, and so regarded by all competent judges. The agent does not trumpet abroad that it is the best, but among the best machines in use. That it performs well its work and is not liable to get out of order, he could, if necessary, furnish a column of certificates, something the agents of low priced machines cannot do. JACOB REININGER, Tailor, Agent, Waynesboro'.

SCHOOL JOURNAL.—The Pennsylvania School Journal founded by Dr. F. H. Burrows—to whom this State and other States are indebted for a good system of education—passed into the hands of J. P. Wickersham & Co. on the first day of October last. The January number is before us in a new dress. It is just the magazine that Parents, Directors, Teachers and others should read. Every live teacher needs it just as much as the physician needs his book for an instructor in materia medica. It is edited by Hon. J. P. Wickersham, Lancaster, Pa. Price \$1.50 per annum.

Persons desiring a good Sewing Machine will find it to their advantage to examine the Wheeler & Wilson at Brackbill's Gallery. Thos. H. B. Elliott, agent. I can certify that the above machine is an accomplished piece of mechanism and will do its work perfectly. It is without exception a first-class machine. DANIEL HOOVER.

The McLean & Hooper Sewing Machine (for which I am agent) is without a Hobbin or Shuttle, has the Elastic Lock-Stitch, uses two spools. Prices range from \$40 to \$75—to be seen at Alex. Leeds' Jewelry Store and Brackbill's Gallery. Alex. Leeds and Thos. H. B. Elliott, agents.

REMARKABLE COINCIDENT.—Mrs. Magdalene Eitor and Mrs. Christina Horn, daughters of the late Lewis Rinehart, dec'd, and sisters of Mr. Samuel Rinehart of this vicinity, died on the 6th inst., the former near New Guilford and the latter at Fayetteville, aged respectively 69 years, 5 months and 9 days, and 68 years, 2 months and 10 days.—Their residences were about two miles apart, and they departed this life as near as could be ascertained at the same hour and moment of time. Truly two more christians have passed over home, "beyond the tide." Both connected themselves with the Christian Church in early life and to the end devoted their hearts to the service of their blessed Redeemer. "Blessed are they that do His commandments that they may have right to the tree of life and may enter in through the gates into the City."

The sister first taken sick was visited by the other, when the former requested the latter to accompany her into the spirit world. She returned to her home, soon took ill and expired as above stated. They were buried in one grave. For this statement of facts we are indebted to Rev. J. F. Oiler.

RUN OFF.—On Monday last a frightful run off occurred between this place and Snow Hill. The driver who had in charge the six-horse team belonging to Mr. Heary Good, of the vicinity of Quincy, was in the act of drawing the rubbers, when the horses started to run. He made repeated efforts to check them but failed. The horses continued their flight until the wagon struck a white oak tree near Snow Hill Mill, a distance of about one mile from where they started. The wagon must have struck the tree with great force as all the horses were thus released, leaving the wagon behind. The tongue was broken and the wagon otherwise but slightly damaged. It was certainly a fortunate circumstance that other wagons or vehicles were not on the road at the time.

CURE FOR WHOOPING COUGH.—An exchange says: Man, through his persistent violations of nature's laws, has to pay many fines. But mother earth is benignant and generous. She has kindly provided a remedy for nearly every affliction—in fact, we think, for every one, if man's inquiring mind, will only discover it. In some instances it is so very simple that we cannot credit our own senses. Only think of chestnut leaves being a certain and immediate cure of that abomination to the little ones—whopping cough, yet such is the fact. The infusion is prepared in this manner.

Pour one quart of boiling water on one ounce of the chestnut leaves and keep covered. When cold, an ordinary teaspoonful may be given three or four times daily, the last at the time of the patient retiring to rest for the night.—Sugar and milk may be added to deceive the patient.

NEW SCHOOL HOUSE.—We have not heard of the much needed School House for some time. We had expected it several years ago. The town of Waynesboro' should certainly have a first class school house. Other places in the State are alive in this noble work.—The house in which the minds of our youths are moulded, should at least be comfortable, convenient and beautiful. No one can claim this for the buildings now in use here. The building should be enclosed with an iron fence and the grounds surrounding it beautified with shrubbery and flowers. Wake up, citizens.

MCLEAN & HOOPER.—The McLean & Hooper Sewing Machine is truly a wonder of mechanical simplicity. No bobbin, no shuttle—warranted to do all kinds of work perfectly. Sews directly from two spools, makes the elastic lock stitch loose liable to break or rip than any other stitch, easy to rip if necessary. It is a wonderful improvement over the old fashioned high priced machines.—Prices from \$40 to \$75. ALEX. LEEDS, Watchmaker and Jeweler, Agent.

SOUTHERN PENNA. RAILROAD.—The grading on this road between Marion and Mercersburg is completed, except a cut near Hawbecker's Mill, which will take about three weeks to open. The track is laid to the Conococheague and the bridges will go up next week. Mr. M'Tague, one of the contractors, we understand, has assured the people of Mercersburg that the road will be ready for the "iron horse" through that place by the first of next month.—Echo.

Some of the qualities which recommend the Wheeler & Wilson are that it uses no Shuttle and makes the Lock-stitch, speed and ease of operation, will also hem, fell, sew, gather and sew on without any change, cord, braid, &c, and from Swiss muslin to Beaver cloth—come to the Diamond Gallery and see for yourself. Thos. H. B. Elliott, agent.

BIG HOUS.—We are indebted to Mr. Harbaugh, "Buss Driver", for another item on big Greenocaste "porkers": On the 3d, Mr. Jacob Hostetter, the live groceryman of that thriving village, slaughtered a hog fourteen months old, which cleaned five hundred and twelve pounds; and Mr. Wm. Brown two, sixteen months old, which weighed ten hundred and sixty-three pounds.

Snow.—During Saturday night and Sunday last snow continued to fall here, giving Mother Earth a light covering, and affording tolerable sleighing for a few days, where the roads were smooth. The indications at this time, Wednesday noon, favor another fall.

IMPORTANT TO SOLDIERS.—Some time during the latter part of December a resolution was presented in the House of Representatives at Washington, and referred to the Committee on Public Lands authorizing that committee to take into consideration and report upon the expediency of granting to each soldier who served 90 days or more in the army during the war—160 acres of land without occupancy. Heretofore, as is well understood, any soldier or citizen might take up under the "Homestead Act" 160 acres and obtain a clear title in it after occupancy five years. And a soldier, by a late act of congress, has the right to locate his land on alternate sections along railroads where there is public land undisposed of. This privilege will extend only until the first of July next. Should the resolution become a law, every soldier may have 160 acres of land located and obtain a title in fee in the land without the inconvenience of settling and remaining upon it for five years.

Every organization of soldiers should at once pass resolutions, and send copies of such resolutions to their representative in Congress, the Senators from their State, and their champion, John A. Logan, requesting their support of the measure.—Har. Tel.

RAILROAD EXTENSION.—We are told that the prospect for the building of a Railroad from New Oxford to York, thus putting Gettysburg in direct communication with the latter place, and all the world and the rest of mankind beside, is very flattering. Indeed, those who ought to know speak of the matter with great confidence.—The extension of the Gettysburg Railroad, over the old "Tapeworm", is also looked upon as probable in the not distant future. No more desirable route between the eastern cities and the southwest can be shown. It is the nearest, such of the work is already done, and the balance will involve comparatively small cost, the length of the line considered. Moulded men abroad are beginning to see the advantages of the Gettysburg route to the Potomac and beyond.

Mr. Gitt, the Engineer, is now engaged in the survey and location of a line to York.—Compiler

SECOND REPORT.—A second Geological Report of Copper Land owned by D. B. Russell, Esq. of this place, by A. F. Bechdel, Prof. of Natural Science in Mercersburg College, has been received at this office.—The Prof. recently made another and more extended visit to Mr. R.'s land on the South Mountain, known as the "Watson Farm."—From a thorough examination of the developments made, the prospects, according to the report, are most encouraging for continued operations. The Prof. says the indications are such as to warrant a full development of the deposit. On account of the weather work upon the trial shaft has ceased for the present, but will be recommenced in the spring.

Who that has seen a dangerous disease arrested by an able physician or a good medicine but values both? Be it your family physician to whom you owe so many escapes from aches and ails, or Dr. Ayer's invaluable remedies—his Sarasparilla that renewed your vitality or Cherry Pectoral that cured a painful cough, or his Ague Cure that expelled the freezing ague and burning fever from your blood. Who that has been relieved by any of these agencies but feels grateful for them all? (Bangor Times.)

UNCOMMON FATALITY.—The Newville Star of the Valley says: On the 14th of last month Miss Nancy Dunlap, an elderly lady, died at her residence, in West Pennsboro' township, with some disease akin to pneumonia. Since then a strange fatality has visited her connections, and four more have gone to their long homes, similarly attacked, and with premonitory symptoms of short duration. Mrs. Bell, sister to the above; Mrs. Phillips, of the connection, and from the West; Mrs. William Dunlap, and on Monday of this week Mr. John H. M'Clay, a relative, from Lurgan township, Franklin county, who was present to attend the funeral of Mrs. Wm. Dunlap, and who took sick while the funeral was en route for the grave-yard, and was unable to proceed the whole distance.—We are sorry to say we hear further that Mr. Wm. Dunlap has been, and is yet very ill, with the strange malady. Mr. Christian Trit, of the neighborhood, who attended the funerals, is also dangerously ill. What is likely to be the termination of a disease so fatal in the outset is hard to tell. Our country, since the cold weather set in, seems to be suffering with diseases which baffle the best medical skill.

CORNS, BUNIONS, BAD NAILS, CALLOSITIES, &c.—It is an astonishing fact that nine out of every ten persons we meet are sorely troubled with their feet. Very few are exempt. Dr. J. Briggs' popular remedies—Curative and Alleviator—are reliable and certain in their effects. The curative for sore and tender corns, bunions, bad nails, &c, is a soothing balm for wounded feet, and rapidly cures the worst cases. Alleviator, for the cure of common corns and bunions and the prevention of all corns is a puzzle to scientific minds. Sold by F. Forthman.

HEADACHE, NEURALGIA AND NERVOUS DISEASES!—The wonderful effects of Dr. J. Briggs' Alleviator, for the speedy cure of the above very prevalent and painful affections, is known to many thousands who have used it with the most unqualified success. In every case of the complaints above enumerated it has never failed to give immediate relief. Its effect is magical beyond precedent. One trial will convince the most skeptical.—Sold by all druggists, each bottle making two quarts when diluted for use. Sold by F. Forthman.

JUST RECEIVED.—A full stock of Leather for shoemakers and saddlers, at ROUZER & FRANTZ'S, Pikeville

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

The basis of its remedial properties is a vegetable compound. IT WILL RESTORE GRAY HAIR TO ITS ORIGINAL COLOR. It will keep the hair from falling out. It cleanses the scalp and makes the hair soft, lustrous and silky. It is a splendid hair dressing. R. P. HALL & CO. Nashua, N. H. Proprietors.

THE ALTAR.

On the 5th inst., near Greenocaste, by Rev. H. C. Lesher, at his residence, Mr JOSEPH N. TAYLOR, of Camp Hill, this Co., to Miss SARAH J. HOSE, of Washington Co., Md. On the same day by the same, Mr. MARTIN NISWANDER, to Miss ELIZABETH MYERS, near Claylick Hall, this Co.

THE TOMB.

At the residence of his son, near Clear-spring on Thursday, the 26th ult., Mr. ABRAHAM ROWLAND, in the 90th year of his age.

On the 1st inst., near this place, Mrs SARAH V. SUMMERS, wife of Jacob G. Summers, aged 35 years, 3 months and 23 days, of consumption.

In Chambersburg, on the morning of the New Year, JAMES RIDDLE, third son of Thomas B. Kennedy, Esq., in the 8th year of his age.

In Chambersburg, on 4th inst. of Scarlet Fever JOSEPHINE GATSON, daughter of John W. and Martha J. Shufeldt, aged 3 years, 10 months and 15 days.

In Chambersburg, on the 25th ult., Mr. THOMAS REEB, aged 78 years.

In Pikesville, on the morning of the 8th inst., of Pleura pneumonia, JOHN WESLEY KING, aged 20 years, 10 months and 27 days. He was a young man of much promise, of a gentle, kind and cheerful nature, intelligent, and one who would naturally attract and win all around him. His last hours were peaceful and calm, looking up to his heavenly Father for mercy. May God sustain the bereaved family in their bereavement. S.

MARKETS.

BALTIMORE, January, 9 1871.—FLOUR We have reported to day sales of 1,000 bbls. Mount-Vernon—Extra for Rio at \$7.50, 500 bbls. Howard Street do. for Europe at \$6.25, and 100 bbls. Western Family at \$6.75 per bbls.

WHEAT—Receipts light this morning, only some 2,000 bushels, but the demand active and market firm, especially for prime and choice grades, which are much wanted. We have only to report sales of 1,000 bushels good fair red at 145 cents.

CORN—Firm and prices for yellow I to 2 cents higher. Sales 1,300 bushels yellow at 75 cents, and 7,000 do. at 80 cents, at which figures it closes firm. No sales white, but we quote it firm at 80@82 cents.

RYE.—Sales to-day 1,300 bushels at 90 @95 cents, the latter for prime.

OATS.—Firm Sales 2,000 bushels at 56 @57 cents.

DISSOLUTION.
