Dr. P. FAHRNEY'S Blood Cleanser or Panacea.

As a medicine for children, the Panacea is, in every way, calculated to take the place of the cudicas variety of drugs which are annually sold for that purpose, and which are often very injurious. A medicine which possesses the qualities of a catharite as well as a mild alterative, and which is capable of arresting disease without the least injury to the child, is of incalculable value to evry mother. As a catharite, it is very effective, yet it does not, if given in proper quantities, cause nauses or distress to the stomach or bowles. It is very pleasant to the taste, which is a very important feature as a medicine for children. As a presentive of disease it is imprecedented, as it acts directly inporting of disease it is imprecedented, as it acts directly inporting the disease, it is the most effective medicine over oftered to the public; and, if given regularly and perseveringly, those of updated the asses so common to children may be entirely enticleated.
