

VILLAGE RECORD.

WAYNESBORO.

Thursday, April 6, 1871.

U. S. Senator Howard, of Michigan, died of apoplexy on the 3d inst.

During the past five years twenty-seven of Brigham Young's mothers in law have died.

Green peas and ripe strawberries have made their appearance in New York city. They were shipped from Charleston, S. C.

The reduction of the public debt for the month of March was eleven millions seven thousand two hundred and sixty dollars.

Seven war vessels have been ordered to fit out for sea immediately at the Brooklyn Navy Yard, and speculation is rife as to the meaning of the movement.

At Annapolis, Frostburg and Townsboro, Md., the Republicans elected their candidates for Corporation officers on Monday.

Subscriptions to the new book on Saturday amounted to \$1,415,650. The total subscriptions to Saturday were \$50,015,650. There was redeemed on Saturday \$1,050,000 three per cent. certificates.

A Boston shoe dealer has been delighted by the receipt of an order for shoes for the family of a Mormon Bishop at Salt Lake, twenty wives and about fifty children.

A party of disguised men visited Dr. Wiegman, at Old Springs Sparta, South Carolina, on Thursday night of last week and shot him six times, mortally wounding him. The Doctor was 70 years old, a republican, but held no office.

Forty years ago Simon Cameron purchased for \$100 a spar of the Broad Mountain in Pennsylvania. It is now worth \$1,000,000. Coal has been mined out of it for thirty five years and he has realized, in the shape of royalty, about one hundred dollars a day.

Thomas Hart Clay, the second son of Henry Clay, died last week at the Ashland homestead, near Lexington, Kentucky, aged sixty eight. He had served under Mr. Lincoln's Administration as American Minister to Nicaragua and Honduras.

Ladies of woman's rights calibre have according to the opinion expressed by a crusty old bachelor, no chance to the Presidency. He says no female will confess that she has passed her thirty fifth year, and it is necessary to be somewhat older than this to inhabit the White House.

The election in Connecticut on Monday resulted in the election of a Republican Governor and the re election of the three Republican congressmen. The Democrats last year carried the State by 1,000 majority. In Michigan the Republicans elected their entire State ticket and a member of Congress.

It must have been with very mingled feelings that Napoleon, late of France, that Victoria, Queen of England, at Windsor Castle, the other day. His last visit to the same spot was made nearly twenty years ago, when England on bent knee received a him the victorious master of France. Then his entire stay on British soil was made the reason of one grand series of honors and ostentatious; and when he returned to his fair home the memories of that triumph were revived from time to time in scenes of similar display, that greeted first the return visit of Her Majesty, and then the 'callings in' of nearly all the European monarchs. Now, the poor broken down Emperor goes more in the light of an exile than aught else. Repudiated by his people, almost entirely abandoned by his friends, and whipped beyond a peradventure by his enemies, he presents a truly sorry spectacle of bankrupt royalty.

Details of the repulse of the Paris insurgents by the loyal troops at Courbevoie, on the Versailles road on Sunday, show it to have thoroughly demonstrated the superiority of the Government forces over the rebels. The latter were driven in confusion inside the city, followed by a heavy cannonade from Fort Mont Valerien. Twenty-five of the Communists were killed and five taken prisoners, and immediately shot. Battalions of artillery were hurried up and the ramparts manned, the rattle sounded and the insurgents called to arms throughout the city. The Commune issued a number of proclamations, summoning Thiers, Favre, Picard and other members of the Government to appear before it which of course, are worth nothing more than waste paper. Other decrees of the Commune order the separation of Church and State, and the suppression of religious bodies. A dispatch from Versailles states that Marshal MacMahon has been appointed Commander-in-Chief of the French army.

The Income Tax. Commissioner Pleasanton has written a letter, which concludes as follows:

You are further advised that persons whose gross income during the year 1870 estimated in the United States currency, did not exceed two thousand dollars, are not required to make any income return, nor need they make any affidavits showing that their gross income did not exceed the sum above named.

The man with the "white hat" was in town the other day. He was last seen, as usual, near the Brew House.

Remember that Brackbill of the Diamond Gallery has made a reduction in the price of photographs.

DEATH.—Capt. Shaw, of Baltimore, well known as a stock dealer, is reported to have died since leaving this place, a few weeks since.

GONE.—Maj. D. H. Bortherton, 5th U. S. Infantry, who was on a visit to his friends here, left yesterday morning to join his regiment at Ft. Harker, Kansas.

NEW GOODS.—That very clever gentleman, Mr. W. H. Brown, of the Mt. Hope Store, has a brand new stock of goods on hand. Look his advt. up in another column.

A Petition, signed by several thousand citizens of Cumberland county, has been presented to Gov. Geary, asking for the pardon of Dr. Paul Schoeppe.

An old maid, with more bones than flesh, is writing letters through the papers advising young girls not to marry. Poor thing! she don't know how it is herself.

The hens are now doing their level best to supply the demand, and the price of their fruit is not eggs, as high as it was some time ago.

It is a well established fact—that a person who is guilty of squinting tobacco juice in the house of worship, don't expect to rate as a gentleman.

REMOVED.—Dr. A. K. Branisholtz has removed his Dental office to the rooms above the store of Messrs Coon & Stonehouse. ap 6-31

L. C. Brackbill, of the Diamond Gallery, is agent for the Wheeler & Wilson Sewing Machine. Call and examine the Machine before purchasing elsewhere.

In our next issue we will publish an interesting communication from Mr. J. S. Gitt, Civil Engineer, in reference to the contemplated Gettysburg Railroad extension, which was received too late for this issue.

Now is the time to have your cellars cleaned of everything that is calculated to generate foul gasses. They should be thoroughly ventilated and the walls white-washed. A little attention to these precautions may spare your household the infliction of disease and possibly death.

A Bill is before the Legislature requiring every person, before getting married, to procure a license from the Prothonotary, which must be shown to the officer or minister officiating, before he can marry such persons; and all marriages performed without the license first procured, is invalid.

HYDROPHOBIA.—By request of a gentleman in this place, we publish on first page of today's paper an interesting article on "hydrophobia" from the pen of Prof. Smith, of Baltimore, Md. It would be well for persons to preserve it for future reference in cases of emergency.

PAST.—The first of April passed, we return thanks to those of our patrons who complied with the notice we gave, by calling and squaring up arrears. We trust those who failed to call will find it convenient to do so soon. Sometime since we promised an improvement on our paper at the expiration of the present volume, and purpose, with sufficient encouragement from the latter class of patrons, a fulfillment of said promise. In consequence of the non-appearance so many subscribers and advertisers before the first and since, we have been compelled to disappoint several indulgent creditors.—We desire a full discharge of each indebtedness before further involving ourselves for material. Hence we ask a general settling up at the earliest period possible. For those "spongers" at a distance who have treated our notices and notes sent them through the P. O. with silent contempt, there is a day reckoning.

The Martins are about. Next will come the Wrens. Get your boxes ready, for those little favorites of the feathered tribes delight to build their nest near the habitation of man, and they will repay your kindness a thousand fold, by their cheerful notes through all the bright summer hours.

On Wednesday the bill from the Senate restoring spring elections passed the House finally, excepting Allegheny City, Harrisburg, and Williamsburg from its provisions.

BORDER MEMORIAL.—The Public Opinion says it is a source of great pleasure for us to announce to our readers the favorable indications which seem to attend their application before the Legislature for payment of losses sustained during the rebellion. The question of the liquidation of these claims is now being considered by a special committee of the Senate which committee will report some time during the present week.—The arguments before the committee on last Tuesday evening by Judge Black and Col. A. K. McClure, were heard by a large number of members.

It seems to be the general conviction of the ablest and best men of the Legislature says a correspondent of the Philadelphia Evening Telegraph of Friday, that the General Government is unquestionably liable for these claims. Mr. Buckalew declared in the Senate, in discussing the motion to refer the memorial, that the facts made out a clear and incontestable case against the national authorities for payment; and General White intimated very strongly that such was his opinion. It is reasonably certain that the special committee will be unanimous in testifying to the integrity of whatever measure the majority may propose, and also unanimous in fixing the legal and moral responsibilities for these losses upon the General Government. The report, or reports, will therefore, place this question on a basis that will command the respect and careful deliberation of all fair-minded men.

What measure the committee will report is of course not known, but it is certain that neither increased taxation, debt, or payment will be proposed. The claimants ask that their own taxes shall be applied to their losses, which would about pay interest on them, and the State thus become the owner of the claims to make demand, in her own name and power, upon the General Government for payment, as did Massachusetts, Maryland and other States, after the war of 1812. It is conceded generally that, while thousands of individual claimants cannot press their claims successfully before Congress the State could do so, and thus secure to the border people restitution for their extraordinary losses, without any sacrifice by the Commonwealth. In addition to securing the payment of the claims, the State would be justly entitled to be repaid by Congress the \$500,000 already voted to Chambersburg, as that appropriation is credited on the claims.

ONE OF BEN'S JOKE.—The Democracy are now just putting in their best looks for nominations for the county officers. Here is a bid for the Sheriffalty. We copy the following advertisement from the Spirit of last week:

For Sheriff.—The undersigned offers himself as a candidate for the office of Sheriff of Franklin County, subject to the decision of the Democratic Nominating Convention. He pledges himself, if nominated, to use every effort in his power, to insure the success of the whole ticket, and if elected, to pay to the Treasurer of the Franklin Co. Monumental Association one thousand dollars towards the erection of a monument to the memory of the dead soldiers of said county.

Benjamin C. Ross.

If Ben don't get the nomination on the strength of this bid, the Convention will have brought down upon it the indication of every "loyal" democrat in the county. Delegates will take notice. Here is a man offers a thousand dollars, if nominated and elected, to a worthy object. If you don't nominate him, the Monumental Association will lose an important gift, and you will exhibit a lack of patriotism and zeal in the cause which the Republicans will hurl at you in every inch of the canvass. Ben is far-seeing, if he don't get the nomination; if he does and is elected he'll be a trump. If neither, it will only be one of his jokes.—Opinion.

Collecting money just now is an uphill business. An exchange has the following on the subject: "Last week a man stepped up to us and said he would pay every cent he owed us if he lived until Saturday night. We presume the man died. Another said he would pay us in a day or two, as sure as shooting. We are led to the conclusion that shooting is uncertain. Another said he hoped to go to the devil if he did not pay us in three days. Haven't seen him since, suppose he's gone; but we trust he has not hoped in vain. Many said they would see us to-morrow. These men have been stricken blind, or else to-morrow has not come. One man told us six months ago that he would pay us as soon as he got some money. The man would not lie, and, of course, he has not got a cent since."

RABBITS.—The State Senate has passed a bill to prolong the lives of 'cotton tails,' the first section of which provides that hereafter it shall not be lawful for any person in this Commonwealth to kill or have in his possession, or expose for sale any rabbit, between the first day of January and the fifteenth day of October, in each year under a penalty of five dollars for each and every rabbit so killed or unlawfully had in possession or exposed for sale.

EMMITTSBURG RAILROAD.—The necessary money having been raised to warrant the commencement of the work on the Emmittsburg railroad, from the Western Maryland railroad to Emmittsburg, it was decided, at a meeting held in Emmittsburg, to break ground on Monday.

SUICIDE.—Benjamin Dancour, the man who was arrested some time ago for the robbery of Messrs. Pilkington & Schlotterbeck, at Hagerstown, Md., and having had his trial removed to Frederick county, was released on bail and returned to his home; Haver's district, where he committed suicide by shooting himself on Wednesday, 22d ult.

PLANTS.—Vegetable plants of different kinds are now ready for delivery at the gardens of John Morgal.

A NEW USE FOR CRANBERRIES.—A correspondent of the California Farmer makes the following excellent suggestion: "I do not see how any one who has ever noticed the delicate foliage and flower of the cranberry even when wild and uncultivated, could fail to be struck with its beauty. But my object is to call the attention of your readers to its value when cultivated in pots, in the house, or still better in hanging baskets.—When thus grown, the long, slender stems, drooping from the basket together with the ripe fruit, form a most beautiful object. Let those who mourn that they cannot afford to purchase foreign novelties to make a rustic basket, put a few cranberries in it, and hang it in the window, and they will say they never saw anything more beautiful."

President Grant's Administration, says the American opens the third year of its term with a reduction for the month of the National debt of \$11,011,250.65. This is about two millions in excess of the average monthly reduction of last year, and nearly double the amount of reduction effected in March 1870. It brings the total decrease since the advent to power of the present Administration to \$215,765,663.74, and leaves as to the total of interest and principal of our public debt of \$2,434,076,648.05. Taking the basis of our population at thirty-nine millions, this gives us a proportion of \$62.4 per head as the treasure of our national obligations. In England the existing proportion is about \$123 per head, and in 1866 our own was over one hundred dollars. Such figures are more eloquent than the complaints of scores of croakers.

The microscope shows the color of the hair due to a deposition of pigment in its substance. When the hair glands become enfeebled, this pigment fails. One after another the hairs become white, or fall out, producing baldness. Baldness is easy to prevent but hard to cure. AYER'S HAIR VIGOR stops it; even restores the hair sometimes; always softens, freshens, and gives the gloss of youth. This great ornament should be preserved since it can be by AYER'S HAIR VIGOR, which is beautifully clean and free from anything injurious to the hair. (Tribune, Springville, N. Y.)

Gray hair may be made to take on its youthful color and beauty by the use of Hall's Vegetable Sicilian Hair Renewer, the best preparation for the hair known to the science of medicine and chemistry.

In London, every eight minutes, night and day, somebody dies; every five minutes a child is born. This great city contains twice as many as Denmark, three times as many as Greece, and four hundred times as many as Georgetown, D. C. In its vast population of nearly 4,000,000 it has, 140,000 habitual gin drinkers, 100,000 abandoned women, and 10,000 professional gamblers; 50,000 criminals known to the police as thieves and receivers of stolen goods, 500,000 habitual frequenters of public houses, and 60,000 street Arabs. To keep this vast multitude of disorderly characters in something like obedience to the law, 6,000 policemen are necessary. Of the population of the city, only about 500,000 attend public worship, there being a million of adult absentees from church every Sunday.

ROMANTIC SUICIDE.—Miss Mary Jane Lovell, a beautiful young woman, who for some past years has been the mistress of John S. Blackburn, a pork merchant of Greenfield, Ohio, committed suicide on the 23d ult., near that place by taking poison. Blackburn is a man of family, 45 years of age, and his intimacy with the young woman had created such scandal among their respective friends that it is said they both resolved upon suicide. They provided themselves with poison, and having asayed them selves deathly, drove eight miles from Greenfield and went into a wild wood called Cliff run. The young woman swallowed her share of the poison and died. Blackburn's heart misgave him and he returned to the town and told the young woman's friends of the circumstances, and they proceeded to the spot and found the body. Blackburn, it is said, has become hopelessly insane.

The Concord (N. H.) Patriot furnishes the latest hen story—to the effect that a hen covered up by bay on the 27th of December made her way out on the 19th of February, lively as lean.

CORNS, COLDS, BRONCHITIS, ASTHMA, &c.—The above complaints seem to be increasing in prevalence, and if not taken in time, either one may lead to that dreadful and fatal disease—consumption. What criminality to neglect them when the result may be so terrible! CORNS, BUNIONS, INGROWING NAILS, &c.—The enormously increasing sales of Briggs' 'Allevator and Curative' for the prevention and cure of the many painful diseases of the feet, bear witness to their wonderful superiority over all other like preparations.—For years they have been steadily growing in favor, until now the great majority who are troubled with bad feet will use no other remedies. The Curative, for sore, tender and festering corns and bunions, bad nails, &c., is soothing and healing, permanently curing the worst cases when used according to directions. The Allevator, for the cure of all common corns and for the prevention and cure of all corns, bunions, &c., is, 'par excellence,' the only article ever yet discovered that will produce a like result. Sold by F. Fourthman, & Druggists generally.

PILES.—Internal, External, Bleeding or Itching. This distressing and harrowing disease is alarmingly on the increase. More so, perhaps, from the fact that those who are afflicted from a false notion of delicacy, are afraid to ask for a remedy, thereby making their condition known.—Flow wrong and fatal is this neglect. At the first intimation of the appearance of this complaint they should procure Briggs' Unrivalled Pile Remedy, and, using it according to directions, immediately check it and permanently cure it. It is easy of application, and thorough in its effects. Sold by F. Fourthman.

Corn is dull and drooping; 4,000 bushels sold at 80 @ 81 for yellow, and 78 @ 80 for Western mixed Oats are unchanged; sales of Western and Pennsylvania at 67 @ 68c.
