

VILLAGE RECORD. WAYNESBORO. Thursday, April 20, 1871.

The 30th of May is the day permanently set apart for the decoration of soldiers' graves.

The McKaig-Black case is still progressing at Frederick, Md., the testimony for the defence being continued at last accounts.

It is thought Congress will adjourn this week. There is nothing to detain it except the conference committees on the Ku Klux and deficiency appropriation bills.

A German now living in Reading Pa., is the father of 40 children, and has been married three times. Only four of the children are living.

The difficulty in the coal region was not so serious as at first reported, and every thing has quieted down so that the militia has been allowed to go home.

Dolly Williams, a colored woman, died in Baltimore last Wednesday at the advanced age of 106 years. The deceased was formerly the slave of Geo. Stonebraker.

The International Typographical Convention, composed of delegates representing all the Typographical Unions in the United States and Canada, assembled in the City of Baltimore on the 6th of June.

The General Assembly of the Presbyterian Church in the United States of America, will meet in the First Presbyterian Church in the city of Chicago, Illinois, on Thursday, the 18th day of May next.

Allen, the Philadelphia juror who objected to serving with a colored man, on Friday paid his fine and was released from jail. It just took him four days to become tired of the experiment of "rotting in prison."

It was added to injury in his case by Judge Stonebraker refusing a writ of habeas corpus to release him from the jail where he had been confined by Judge Ludlow.

The fighting outside the walls of the city of Paris under bombardment has been continued with great earnestness and vigor on both sides. All night on Saturday the bombardment of the forts which the insurgents occupy was incessant, the infantry firing was the heaviest yet heard, and the crash of mitrailleuses was continual. It is positively affirmed that the national army was completely repulsed, although Thiers' circulars and Versailles despatches still say that the battles have been of an unimportant character.

McMahon's positions are so close to the city that shells fall into the streets, and that portions of Paris under bombardment has been deserted. The gates at Port Maillot have been battered down by the canonade, and the streets leading up from it are in ruins. Notwithstanding the character of the contest so far, it is stated that the great attack in force has not yet been made, and that the assaults of the past week have been only preparatory to the final effort to force a way into the insurgent city. The revolutionists have planted batteries on the hill of Provedero, from which they have opened fire on Port Valerine, and are vigorously replied to by its guns. Reports of the loss of life are varied and contradictory; the Parisians are asserting that the besiegers have suffered very heavily and the Government denying that Communists are doing anything but wasting ammunition.

The Ku Klux Bill.—The Senate on Friday passed the House bill, commonly designated the Ku Klux Bill, providing for the suppression of outrages in the South, by the decisive vote of 45 to 19. It gives the President the power to use the army and navy of the United States, when necessary, to suppress Ku Kluxism, and for the same purpose, when necessary, to suspend the writ of habeas corpus, &c. The New York Standard says, in reference to the bill: "When President Lincoln, in 1861, called for an army to put down resistance to the civil power of the Union he was denounced by certain newspapers and politicians but the nation emphatically decided the question in his favor. So, too, in the young days of our national life Washington sent an army of fifteen thousand men into Western Pennsylvania to enforce obedience to law at the point of the bayonet. After order had been restored and our first rebellion quelled the Father of our Country reported the facts to Congress, and his action was approved. The bill as it passed the Senate was amended in several particulars, and will, therefore have to go back to the House, which will no doubt take immediate and effective measures to crush the lawless bands of organized ruffians whose outrages in the South have become alarming and intolerable.—Har. Tele. Graph.

The following is said to be an infallible remedy for chicken cholera. Take two ounces each of Alum, Lac Sulphur, Cayenne Pepper, Cloves, and Rosin. For about twelve chickens, mix 3 table spoons full of the above in a quart of corn meal, made wet, and in the same proportion for a larger or less number of chickens.

A very violent snow storm commenced at Sioux City, Iowa, on Sunday night and raged furiously until Monday night.—Leads quite blocked.

LOCAL MATTERS.

See notice of Turnpike Election.

See advertisement of Mrs. C. L. Hollinger.

Some of our farmers are planting corn and others are about to commence.

Certain young ladies talk too loudly on the streets after night.

Behind the age.—Business men who don't advertise their goods and push trade.

Our neighbor Reid is now opening a nice stock of goods at his Family Grocery Store.

A new Brass Band has been organized at Fairfield, Adams county, with an entirely new set of instruments.

Wiping the mouth when coming out of a saloon, does not always indicate that a person has been "wetting his whistle".

Melchor Spielman has leased of Rev. D. F. Good his hot beds near this place.—See notice.

Frost.—Since our last issue we have had several sharp frosts, owing to the dryness weather the fruit so far has not been damaged in the least thereby.

An exchange says "everybody commenced paying their debts on the 1st of April." We beg leave to differ, most respectfully.

It is easier for a man to take hold of the seat of his pants and throw himself over the moon, than to get to heaven after swindling the printer.

A Treaty.—Mr. Heeneberger of the downtown Bakery and Confectionary, will accept our thanks for a family treat of very superior ice cream, the first of the season. Him knows how to get things up.

Sold.—Mr. E. B. Winger, of Quincy, last week sold his store house and dwelling to Mr. Henry Good for the sum \$4,500, and his stock of goods to Mr. Christian Good, who will continue the business in that place.

We are under obligations to Messrs. Weagley & Kurtz, of Central Market, for a fine Surloin Roast. Prime beef, veal, etc. can be had as usual at their cellar on Friday and Saturday evenings.

Officer Horner on Monday evening arrested an Irishman for disorderly conduct and lodged him in the "lock up" until Tuesday morning. The man was evidently under the influence of mania potu, or something akin to it.

Presbytery.—The Presbytery of Carlisle will meet in the Presbyterian Church in this place, on Tuesday next, the 25th inst., at 7 o'clock, P. M. The Rev. W. N. Geddes will be ordained and installed as Pastor of the congregation on Wednesday morning the 26th. Sermon by Rev. Dr. Erskine.

DENTAL ROOMS.—The most tastily and cosily fitted up Dental Rooms, perhaps in the county, are those of Dr. A. K. Branisholtz, next door to the dry goods store of Messrs Coon & Stonehouse, (up stairs) S. E. corner of the Diamond. Socially, the Dr. is an agreeable gentleman, and as an operator, is excelled by few dentists.

MIRAMAR RAILROAD.—Wm McLellan, Esq. of Chambersburg, has been elected President of the Miramar Railroad, vice Samuel Bailey, Esq. of Dillsburg, resigned. The Company has resolved to put the road under contract immediately from Chambersburg to Mechanicsburg, via, Milltown, Paperstown and Boiling Springs. Sealed proposals will be received until the 29th inst., at Newville.

NEW STREETS.—Mr. A. B. Stolor, our efficient Surveyor is this week engaged in laying off two new Streets at the West end of the Borough, running North and South and parallel with Leitersburg Street. We understand North Street is to be extended to intersect the new streets. A fine site will thus be opened up for the new School Building, commanding a beautiful view of rural and mountain scenery. Our Board of Directors should examine their surroundings.

CURIOSITY.—Nothing is so much nobler than the desire for knowledge.—Nothing much shabbier than vulgar curiosity.—What does it signify to us what others do or have; and why can not we leave them and theirs alone? No one in the world likes to be watched and pried after; and it does not seem very difficult to do to our neighbor in this matter as we would that he should do to us. This curiosity is generally the greatest sin of small societies. For want of a more healthy outlet for the amative instincts with which we are all born, the dwellers in confined localities turn upon each other, like so many spiders in a tumbler, and try to mask the real starvation of this insidious by the false nourishment of gossip.

In cases of kerosene fires, don't try to extinguish the flame with water; that will spread the fire. Instead, use blankets or wadded cloth, quilts, shawls, or whatever may be at hand that can be used to smother the flames. Don't use water, the oil floats upon it and burns as rapidly as ever. Remember that smothering is the only successful way of stopping the fire.

The baddie boys around town make too much noise at night.

FIRE IN SHIPPENSBURG.—The Shippensburg Sentinel says that "at about ten o'clock on Tuesday night, the 11th inst., flames were discovered issuing from the stable of Geo. B. Cole, situated on an alley in the rear of the Sentinel office, which communicating to the stable of R. J. Lawton, immediately adjoining, soon enveloped both in a sheet of flame, and in a short time both were a smouldering heap of ruins. At the time of the fire a strong West wind prevailed, which scattered the burning embers to all parts of the town, making a general conflagration imminent. Indeed, it was only through the greatest exertions that the flames were prevented from communicating to the stable of Dr. Stewart—the only protection to the Sentinel building, the Cumberland Valley Depot, the office of the News and the residence of Judge Ruby. The contents of both stables, including a new carriage belonging to Mr. Cole, were burned. The demons of the Shippensburg "Fire Ring" are again at their fiendish work, and unless prompt measures are taken to ferret out the guilty parties, much valuable property may be destroyed, many families made homeless, and the lives of innocent women and children placed in jeopardy.

Last week the torch of the heartless incendiary was applied in the town of Newburg, in the same county, and several stables destroyed.

SORE THROAT.—Everybody has a cure for this trouble, but simple remedies appear to be most effectual. Salt and water is used by many as a gargle, but a little alum and honey dissolved in sage tea, is better. Others use a few drops of camphor on leaf sugar, which often affords immediate relief. Application of cloths wrung out of hot water applied to the neck, changed as often as it begins to cool, has the most potency for removing inflammation of anything.—Lx

LOOK TO YOUR INTERESTS.—Save Time and Money. If you have any thing to sell, If you have lost anything, If you have found anything, If you have a house to rent, If you want to rent a house, If you want boarding, If you want anything, Tell a Thousand People at once, by advertising in the Record.

NEW GOODS.—Messrs. J. W. Miller & Co., has opened out a stock of new spring and summer goods. Call and examine styles and prices. Advt. next week.

Hall's Vegetable Sicilian Hair Renewer prevents the hair from falling off. Use it.

COUGHS, COLDS BRONCHITIS, ASTHMA, &c.—The above complaints seem to be increasing in prevalence, and if not taken in time, either one may lead to that dreadful and fatal disease—consumption. What originally neglect them when the result may be so terrible! Briggs' Throat and Lung Healer is a positive remedy for all diseases of the throat, lungs and chest—never failing when used in the morning of affliction.—Sold by druggists.

PILES.—Internal, External, Bleeding or Itching. This distressing and harrowing disease is alarmingly on the increase. More so, perhaps, from the fact that those who are afflicted from a false notion of delicacy, are afraid to ask for a remedy, thereby making their condition known. How wrong and fatal is this neglect. At the first intimation of the appearance of this complaint they should procure Briggs' Unrivalled Pile Remedy, and, using it according to directions, immediately check it and permanently cure it. It is easy of application, and thorough in its effects. Sold by F. Kourthman.

CORNS, BUNIONS, INGROWING NAILS, &c.—The enormously increasing sales of Briggs' Allevator and Curative for the prevention and cure of the many painful diseases of the feet, bear witness to their wonderful superiority over all other like preparations. For years they have been steadily growing in favor, until now the great majority who are troubled with bad feet will use no other remedies. The Curative, for sore, tender and feasted corns and bunions, bials, &c., is soothing and healing, permanent.

HALL'S VEGETABLE SICILIAN HAIR RENEWER. has proved itself to be the most perfect preparation for the Hair ever offered to the public to Restore Gray Hair to its Original Color, and create a new growth where it has fallen off from disease or natural decay. It will preserve the Hair from falling out. All who use it are unanimous in awarding it the prize of being the best Hair Dressing extant. Our Treatise on the Hair sent free by mail. MANUFACTURED ONLY BY R. P. HALL & CO., Nassau, N. Y., Proprietors. For sale by all druggists.

THE TOMB. On the 3d inst., in Leitersburg, Mr. ARCHIBALD ZIGLER, aged about 65 years, long a resident of that town.

On the 26th inst., near Greencastle HARRY MILLTON, son of John and Christina Meredith, aged 1 year, 8 months and 12 days.

At Emmittsburg, Frederick county, Md. on the 17th inst., Mr. FREDERICK RIBBERT in the 47th year of his age.

MARKETS. PHILADELPHIA, April 17. FLOUR.—The flour market is quiet at previously quoted rates. The demand is confined to the wants of the home consumers whose purchases foot up 500 barrels, including superfine at \$5 50 @ 5.75, extra at \$5.00 @ 5.25 Wisconsin and Minnesota extra family at \$7 @ 7.50, Pennsylvania do. at \$6.50 @ 7.00, and Louisiana and Ohio do. at \$7.25 @ 7.75, and fancy brands at \$8 @ 9.50 in quality. Rye flour sells at \$5 50 @ 5.75.

GRAIN.—The wheat market is devoid of any spirit, sales of Indiana red at \$1.65 @ 1.85, choice at \$1.70, and white at \$1.75 @ 1.85. Rye is nominal. Corn attracts but little attention; sales of yellow at 68c, and Western mixed at 72 @ 73c. Oats are unheated; sales of Pennsylvania, Western and Southern at 68 @ 69 cents.

NOTICE.—To all whom it may concern.—C. N. Beaver has closed out his business at the N. E. corner of the Diamond, Waynesboro, and removed his goods to Perry Co. Pa. All accounts not settled with him by the 22d inst., will be placed in the hands of M. H. Sibbit, Esq., for collection, upon whom parties interested are requested to call without delay and thus avoid costs.

REMOVED.—Dr. A. K. Branisholtz has removed his Dental office to the rooms above the store of Messrs Coon & Stonehouse, up 6-31.

A MAN LANCED.—Thomas Hedges, a noted horse-thief murderer and desperado, who shot and fatally wounded a man named "White-lock," on Friday night, was taken from the jail in Staunton, Va., about 1 o'clock last Tuesday morning, and hanged about 1 1/2 miles from town. The jailer and ex-sheriff were both in the jail, and refused the mob the keys, when they broke open the door and took Hedges out. Noise of the men who entered the jail were disguised, yet they were not recognized, being strangers to both the jailer and ex-sheriff.—Hedges had shot and killed four men previously in that same locality.

THE FOX SUICIDE.—The body of Mrs. Emma Fox, of Newport, R. I., missing since March eleventh, was found last Friday evening, with her diamond and watch on, and also twenty dollars in money. Her husband W. W. Fox, died of consumption at Everett House, in New York on the 9th of March, and on the night of March 11th, she told her friends she would drown herself, and was watched, but she eluded them.

The New York Sun says, in reference to this shocking affair, that after Mr. Fox and Mrs. Fox left their beautiful villa at Newport, and took a fine suite of rooms at the Everett House, Union Square, N. Y., each had a will made. Although Mr. Fox had squandered his own fortune, he was the heir prospective to an estate valued at over \$700,000, while his wife had property in Westchester county in her own right valued at over \$500,000, besides the country seat at Newport. These wills were drawn each in favor of the other.

It has been estimated, after giving a good deal of attention to the subject, that the whole amount of fortification wall in China, if put together, would build one 20 feet high and 10 feet thick entirely round the globe, and would require 5,000 men to work steadily for 2,000 years to accomplish the work. The walls of Peking are wondrous structures, and there are many others like them, to say nothing of the great wall on the frontier.

Capt. G. W. Alexander, once commandant of Castle Thunder, and afterward of the military prison in Salisbury, N. C. it is stated recently died in poverty in England.

MILLINERY GOODS! TO THE LADIES! MRS. C. L. HOLLINGERBERGER has just received a full supply of new Millinery goods. Ladies are invited to call and examine her stock. apr 20.

PATENTED SEPT. 21, 1869. RYLAND'S PAT. CUTTER. FOR CUTTING RAY, STRAW FODDER, &c.

The merits of this Machine consist, in part, in the attachment of curved knives to the arms of the cutting-wheel, the shearing action of the mouth-piece, the great power and directness of the blow, by which triple the volume of material is cut, with less power than is required by any other machine; those combined with its durability and simplicity of construction, command public attention. Nothing liable to get out of order, but what a boy could remedy with a pocket wrench.

The above Machine is now on exhibition at the office of the Waynesboro' Manufacturing Company. Persons interested should call and examine it, for it is what every farmer should have.

CRACKERS. I get my goods fresh from the factory of James Mason & Co. Have many different kinds. The newest thing out is the "Imperial."

FRESH AND SALTED FISH. The fish department we keep up full, and will play second fiddle to none. All through the proper season we get string fish, iced shad and herring. We sell sound fish and sell them right in the season. is the reason we sell them fast. Customers wanting one shad or 100 waited on with the same alacrity. Having made special arrangements for this season, I can and will have iced fish and salted shad and herring delivered at my store direct from the Alexandria fisheries, where they are selected by a man who has been in the business for many years. I do not intend to be beaten out of the fish line. Housekeepers wanting to lay in a supply for the summer should buy very soon.

MACKEREL. I now have in store and for sale a choice lot of Mackerel in whole fish, halves and quarters, at about one-half the price per pound of Bacon. There is nothing else in the provision line as cheap as Mackerel. Make a note of this.
