No implement more amportant to the farmer than FIRST-CLASS GRAIN THRESHER AND LEANER-for none pays him so well and speedi-

GEISER'S PATENT SELF-REGULATING

GRAIN SEPARATOR

The above cut shows the ONLY GEISER MA-CHINE now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with first class working and material this machine justly stands high up above all of its class. As a I'hresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thorough ly thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Pairs where it was thoroughly and practically tested, in competi-tion withother leading machines, always agree that it is more simple-more easily understood and operated by those unskilled in machinery-more durable,-threshing as much and yet cleaning betterwith less power and more comfort to hands than any other machine in use-and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Herse Lever Power, to a ten Horse Lever power, with prices ranging from \$190 to \$360, without power. We also make the intest inproved triple-geared Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly Warranted. For further information and for Circular and Price List. Responsible Agents wanted in territory not intro-

[‡] Dr. P. FAHRNEY'S Celebrated

As a medicine for children, the Panacoa is, in every way, caiculated to take the place of the endless variety of drugs which are annually sold for that purpose, and which are often very injurions. A medicine which possesses the qualities of a exthatric as well as a mild alterative, and which is capable of arresting disacs without the least injury to the child, is of incalculable value to every mother. As a calaritie, it is very effective, yet it does not, if given in proper quantities, cause mausea or districts to the stomether before the very pleasant interests. which are often very injurious. A medicine which possesses fre qualities of a catharite as well as smill afterative, and which is capable of arresting disease without
the least injury to the child, is or incalculable value to
overy mother. As a catharite, it is very effective, yet it
does not, figiven in proper quantities, cause nausea or
distress to the stomach or bowels. It is very pleasant
to the taste, which is a very impostant feature as a
medicine for children. As a presentine of disease, it is
tupprecedented, as it acts directly upon the digestive organs and the blood. In all scrothious disease, it is the
most effective medicine ever olerwid to the public; and,
if given regularly and perseverlingly, those cruptive discases so common to children may be entirely eradicated.
