

Perhapsno one medicine is so universally required by every-body as a catharito, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pin. The obvious reason is, that it is a more reliable and far more eff

fectual remedy than any other. Those who have tried it, know that it cures their neighbors and friends; and all know that it cures their neighbors and friends; and all know that what it does once it does always—that it never fails through any fault or negglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomet nor any deleterious drug, they may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purily the blood and stimulate it into healthy action—remove the obstructions of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which thess Piles public with the stomach, and restore its healthy tone and action.

An occasional dose stimulates the stomach and hewels into healthy action, restores the appetite, and tavigorates the system. Hence it is often advantageous where no serious derangement exists.
