Thursday, May 4, 1871.

Castles Barracks is to be entirely discontinued.

The Democratic State Convention will meet at Harrisburg on the 24th of May.

EXPENSIVE.—Ladies fancy garters at fifteen to thirty-five dollars per pair.

Assassination of internal revenue officers continue in Tennessee.

During May Secretary Boutwell will sell eight millions of dollars of gold and purchase ten millions of bonds.

Last week green peas sold in Norfolk, Va., at one dollar per peck, and strawberries at the same price.

The act of Congress repealing the internal revenue special taxes on nearly all kinds of business, except whisky and tobacco, went into effect on Monday.

James M. Mason, ex-United States Senator and Minister to England under the Southern Confederacy died, at his residence near Alexandria, on Friday night.

The Shenandoah railroad, of which Thomas Scott was recently elected President extends from Harper's Ferry to Salem, Virginia (230 miles.)

It appears now that there is to be no immediate resumption of work in the coal mines. The proposed compromise have been rejected, and the end is not apparent.

Mr. Patriken has introduced in the Senate a bill to prevent School Directors or Superintendents from changing books used in the schools oftener than once in three years. The bill should become a law forthwith.

During a thunder storm in New Orleans on Monday, a house was struck by lightning and a woman in it instantly killed.

All the friends of the martyred President will be glad to know that Robert Lincoln is one of the ablest and rising young members of the Illinois Bar.

The popular drink known as "Tom and Jerry" is said to have derived its name from the fact that after a man has drunk it several times in succession, he won't know whether his name is Tom or Jerry.

One of the most gratifying evidences of the strength of our National credit in Europe is the reception on Tuesday of last week at the Treasury Department of the application for an agency at St. Petersburg for the negotiation of a new loan, and the accomplishment of a \$10,000,000 subscription.

Among the appropriation in the Deficiency Bill passed by Congress was one of \$12,000 for the Sisters of mercy in Charleston, S. C. on account of destruction of their property during the war. The money was allowed them on account of the care which they took of wounded officers of the Union army.

The dogma of Papal Infallibility is giving trouble in Europe. Dr. Dollinger, one of the most learned German Catholic theologians, has been excommunicated by the Pope for persisting in his opposition to the dogma. The King of Bavaria, himself a Roman Catholic, has written a letter to Dr. Dollinger, deploring the excommunication pronounced against him by the Pope. A majority of the professors and teachers in the Munich University have signed an address sustaining him, and asking him to become the champion of liberalism in the Roman Catholic Church.

Advices received at Washington from South Carolina represent that the colored people are fleeing by hundreds from the counties in the interior of the State, deserting their homes and partially raised crops. This is owing to the Ku-Klux outrages, which are alleged to be on the increase. In one county alone it is reported that eleven hundred negroes have fled through fear of assassination. The results of this stampede will be that in many sections of the State crops will perish through neglect, and many planters will be entirely ruined. In some sections of the State a perfect reign of terror is reported to exist.

The Border claims bill passed the Senate finally on Thursday Mr. Bucklew incorporated general amendments changing the construction of the bill, appropriating \$150,000 per year for five payments to liquidate the damages amounting in all to seven hundred and fifty thousand dollars, in lieu of certificates of indebtedness at six per cent. interest, the first payment in July next, and the rest in four annual payments. The amendments passed by common consent, as acceptable modifications.

The Pennsylvania Central Railroad Company has leased the United Railroad Companies of New Jersey (Camden and Amboy, New Jersey, and all their branches.) The Pennsylvania Companies agree to pay the New Jersey stockholders an annual dividend of ten per centum per annum. This lease gives its purchasers a complete line from the Atlantic to the Pacific Oceans.

Why is a sword like beet? because its pe are till its draze.

Military operations progressed actively around Paris during Saturday and Sunday, and were uniformly favorable to the Government. The Versailles troops stormed the environs of Fort D'Issy successfully, driving out the insurgents, capturing a number of prisoners and guns, and advancing within two hundred yards of the fort. Early on Sunday morning the garrison became panic-stricken and retreated into Paris. The severity of the attack is shown by the report that the fort was battered into a wreck by McMahon's artillery. It is admitted from Paris that the other Southern forts, now held by the Communists, are untenable on account of the bombardment of them and must very soon be surrendered. A delegation of Paris Masons visited Versailles on Saturday to ascertain the prospects of reconciliation, but Thiers reiterated his purpose to make no terms with the commune. A long procession of Masons advanced to the ramparts the same day and planted their banners there under a heavy fire. Cluseret sent out fresh troops from Paris, and a fierce fight was in progress all day in the vicinity of D'Issy.—The Communists threatened to seize the Northern Railway unless the running of trains and the transportation of provisions is resumed. It is reported that in compliance with Bismarck's threat the Commune has released the Archbishop of Paris.

That the privilege of the ballot should be accorded only to those who can read and write, is approved by the Columbia (S. C.) Union, a Republican paper, and this paper says that it thinks there are as many white men, in proportion to their numbers, in South Carolina, who can neither read nor write as there are colored.

LOCAL MATTERS.

ABOUT TOWN.—Plenty of rats.

Now is the time to put every dollar into circulation. Don't look up the money.

Money continues scarce with the—Printer.

Now is the time to examine fruit trees and destroy caterpillars.

A warm Summer is predicted. Ice cream vendors, make a note.

A physician claims that 10,000 women have been equeued to death by corsets during the last five years.

The juveniles are about in their bare feet. Look out for stubbed toes and stone bruises.

April closed the oyster season and our town restaurants have introduced in their stead clam and turtle soup.

SALES.—We call attention to the sales of property by P. Rouzer and Dr. A. J. Hughes, in this issue.

A desirable Merchant mill and farm in Harford county, Md. is offered for sale in to-day's paper.

Equal parts of the best oil of juniper and spirits of turpentine, applied to the parts affected, is said to be a sovereign remedy for rheumatism.

Persons on rising in the morning should always throw the bed covering back in order to allow the bedding to be properly aired before the bed is again made.

Officer Rouzer of Gettysburg last week arrested a man at Freeburg, Snyder county, who is supposed to be the Nathan murderer. He is confined in the Adams county jail awaiting identification.

The Emmitsburg Branch Railroad was "let" on Monday. The line is seven miles long and is to be constructed at a cost of \$85,000. We have good authority for the statement that about five and a half miles will suffice to connect Waynesboro' with the W. M. R. R.

TURPKIE ELECTION.—On Monday last the following persons were elected Managers of the Waynesboro' and Maryland State Line Turpkie Company for the ensuing year: President, Geo. J. Bailey; Treasurer, L. S. Forney; Managers, Wm. P. Weaglay, David Gilbert, John Harbaugh, Jr., H. M. Sibbett, John Gehr, Abram. Frantz.

DEAD.—Mr. A. J. R. Magruder, died at his residence in Hagerstown on Tuesday a week. Mr Magruder at the time of his death was proprietor of the well-known Monterey Springs property on the summit of South Mountain.

FIRE.—On Thursday night a week the barn of Mr. D. Stouffer, near Smoketown, was consumed with its entire contents, including three valuable horses. Supposed to have been the work of an incendiary.

FROST.—A frost on Monday night a week blasted the fruit prospects in Bedford county. So states the *Lequirer*. Our section so far, we are glad to say, has proved more fortunate. Bright prospects for an abundant crop loom up on all sides.

A meeting of the River Brethern was held at Michael Wingerd's near Moon's Mill, in Green township, on Sunday last, where thirty-two persons were immersed.—So says the *Repository*.

The tax on matches in the United States will be the government two millions of dollars per annum.

GAPER.—How to cure the gapes, a fatal disease of chickens.

Gapes is a fatal disease of chickens, and which we believe infectious. It is, at all events epidemic. *Gapes never occurs* (communicated) *except there has been exposure to wet, foul water, and want of nourishing food.* Actual symptoms of it are, a number of small worms infest the windpipe, and cause the poor chicken to gasp for breath. If taken early, it will be sufficient to give every day a morsel of camphor the size of a grain of wheat, and put camphor in the drinking water; or a little turpentine may be given daily in meal; taking care, of course, that the deficiencies in diet and shelter be amended. In fully developed cases, the worms must be removed by introducing a loop of horse-hair into the trachea, and turning it round during withdrawal; repeat the operation until worms are all destroyed. The frequent occurrence of gapes is a disgrace to any poultry yard.

The act passed by the Legislature prohibiting the sale of liquor on election days has been approved by the Governor, and is therefore a law of the State. The first section reads as follows:

That from and after the passage of this act it shall not be lawful for any person in this Commonwealth to sell liquors or give a way, to be used as a drink, any spirituous or malt liquors, wine or cider, or any other substance containing alcohol, on any part of any day set apart or to be set apart for any general or special election by the citizens in or within any of the precincts, wards, townships, counties or other election divisions or districts in the Commonwealth: *Provided*, That the provisions of this bill shall not be enforced after the election polls are closed in the evening or the sale of liquor is prohibited after that time.

A violation of the law subjects the party to imprisonment in the county jail for a term of not less than ten nor more than one hundred days, and a fine of not less than \$20 and not more than \$500, in the discretion of the court.

A TASTY TURNOUT.—Last week we received a business visit from Mr. D. B. Menzer, Secretary and Treasurer of the firm of Dr. P. Fahrney's Bros & Co., of Waynesboro', Pa., the manufacturers of the celebrated "Panacea or Panacea." Mr. Menzer came to our town in one of the handsome wagons gotten up especially for the extensive traveling business of this firm, it being under the superintendence of, and driven by Mr. D. M. Stoner. Five other fancy wagons are constantly moving about in different sections of the country to supply the increasing demand for the already famous medical compound gotten up in our neighboring village.

The agent informs us that since March they have sold over four hundred dozen of the "Panacea," and are increasing their manufacturing facilities rapidly. The Messrs. F. & C. are liberal patrons of the Printer and deserve the immense success that is attending their efforts.—*Hagerstown Twice a Week.*

The *Bedford County Press*, published at Bloody Run, Pa., is for sale, at a bargain. The paper is in its fourth Volume, circulates extensively in a rapidly growing coal and iron ore region, has an excellent Job and Advertising patronage, is the only newspaper in the town and one of the three published in the county. Politics Republican.—Material in abundance and all nearly new.—An enterprising printer, with small capital, can undoubtedly do well by investing in this established Journal. The best of reasons given for offering to sell. Address D. B. Elliott, Bloody Run, Pa.

The following notice we clip from the last "Pennsylvania School Journal":

Waynesboro, Franklin County, is about to erect a new school house for a graded school. A committee appointed by the board of directors recently visited Harrisburg, Gettysburg, Lancaster county, and other places to acquaint themselves with the best plans of building school houses. This is a very judicious way of making a beginning; and the directors of Waynesboro merit the thanks of the community they represent.

MR. BLAIR.—As the 20th of May is the day generally celebrated as 'Decoration Day'; or the day on which we spread flowers on the graves of those who for their country gave their lives, I desire through your paper, to urge those who were their comrades under the flag to take some steps toward the proper celebration of the 20th, which is now fast approaching.

Yours, &c.

CHEAP CARPETS of all kinds at the mammoth furniture establishment of I. H. Whitmore, Greencastle.

CORNS, BUNIONS, GROWING NAILS, &c.—The enormously increasing sales of Briggs' Allevator and Curative for the prevention and cure of the many painful diseases of the feet, bear witness to their wonderful superiority over all other like preparations. For years they have been steadily growing in favor, until now the great majority who are troubled with bad feet will use no other remedies. The Curative, for sore, tender and feathered corns and bunions, bad nails, &c., is soothing and healing, permanent.

PLES.—Internal, External, Bleeding or Itching. This distressing and harrowing disease is alarmingly on the increase. More so, perhaps, from the fact that those who are afflicted from a false notion of delicacy, are afraid to ask for a remedy, thereby making their condition known. How wrong and fatal is this neglect. At the first intimation of the appearance of this complaint they should procure Briggs' Unrivaled Pile Remedy, and, using it according to directions, immediately check it and permanently cure it. It is easy of application, and thorough in its effects. Sold by F. Fourthman.

COUGHS, COLDS, BRONCHITIS, ASTHMA, &c.—The above complaints seem to be increasing in prevalence, and if not taken in time, either one may lead to that dreadful and fatal disease—consumption. What criminality to neglect them when the result may be so terrible! Briggs' Throat and Lung Healer is a positive remedy for all diseases of the throat, lungs and chest—never failing when used in the morning of affliction.—Sold by druggists.
