

The reputation this concilent medicine enjoys, is derived from its corresponding to the arc truly many of which are truly many of the country, that the public acarcely need to be informed of its virtues or uses.

Scottleus polesn is one of the most destructive enemies of our race. Often, this unseen and untell tenant of the organism undermines the constitution, and invites the attack of enfectling or factal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its bideous forms, either on the surface or among the vitals. In the latter, tubercles may be auddenly disposited in the lings of heart, or tumors formed in the liver, or it shows its presence by enuptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afficied with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla is advisable, even when no active symptoms of disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epitepsy, Keuralgie, and the various Ulcerous affections of the muscular and netwous systems.

Synthits or Veneraal and Mercurial Disease, are circed by it, though a long time is required for subduing these obstinate maladies by any medicine, will cure the complaint. Leucerrhosa or Whites, Ulcertations, and Fomale Diseases, are commonly soon releved and ultimately cured by its purifying and invigorating effect
