B. AMBERSON, M. D.,

GRAIN SEPARATOR

FIRST-CLASS GRAIN THRESHER AND CLEANER-for none pays him so well and speedi-

The above cut shows the ONLY GEISER MA-CHINE now built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past IR years, and nowwith first class workmen and material this mechine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the tact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competiit is more simple—more easily understood and op-erated by those unskilled in machinery—more durable, - threshing as much and yet cleaning betterwith less power and more comfort to hands than any other machine in use-and besides all that is sold for less money ascording to capacity. These facts are further attented by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with pieces ranging from \$199 to \$360, without power. We also make the latest improved triple-geared Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted. For further information send for Circular and Price List. Responsible Agents wanted in territory not intro

🖁 Dr. P. FAHRNEY'S 🗒 Celebrated

As a medicine for children, the Panacea is, in every way, calculated to take the place of the endiess variety of drugs which are annually sold for that purpose, and which are often ever injurious. A medicine which possesses the qualities of a exthartic as well as a mild after sairy, and which is capable of arcesting diacase without the least injury to the child, is of incafculation waits to every mother. As a cathartic, it is very elective, yet it does not, if given in proper quantities, cause manca or distress to the stomach or bewels. It is very pleasant to the taste, which is a very important feature as a medicine for children. As appressible of these it is improceedented, as it acts directly upon the discussive organs and the blood. In all secretains decrease, it is the most effective medicine over ofered to the public; and, fgiven regularly and person cripit, tho e-empire discusses of common to children may be controlly cradented.

F. Fourthman, J. B. Amberson, M. D., and Dr. A. S. Bonebrake, Wayneshore'; E. B. Winger, Quincy: Rouzer & Frantz, Pikesville. December 8-1v.
