

VILLAGE RECORD.

WAYNESBORO.

Thursday, June 1, 1871.

A boat containing three young men went over Niagara Falls on the 17th ult.

A terrible famine exists in Persia.—Thousands of the inhabitants are dying.

At Stanton, Va., last Sunday night, Miss Mary Davidson was burned to death by the explosion of a kerosene lamp.

In Russia all the remaining landed property belonging to the Catholic Church has been declared the property of the Crown.

From Monday to Thursday evening of last week the dog-killers of Baltimore city slaughtered nine hundred dogs in that city.

The Republican State Convention, at Harrisburg adopted a resolution endorsing Grant's Administration and indicating him as the proper standard bearer of the party in 1872.

James Gordon Bennett has formally made over the N. Y. Herald newspaper to his son, valuing the entire property and good will at three millions of dollars.

Gen. Allen E. Burnside, Governor of Rhode Island, has been elected Grand Commander of the Grand Army of the republic.

Major Davis, of Cincinnati, has issued an order prohibiting music in the various beer gardens of that city on Sundays, which has created a rare excitement among the large German element of the population.

The Democratic State Convention, which met at Harrisburg last week placed in nomination for Auditor-General Gen. Wm. Me Candless of Philadelphia, and for Surveyor-General Capt. John H. Cooper of Lawrence county.

It is estimated that there are 9,000,000 cows in the country, the dairy products of which annually is 800,000,000 pounds of cheese and 575,000,000 pounds of butter.

On Monday a week eleven car loads of Germans passed through Cumberland, Md. via the Balt. and O. R. R. on their way to the Far West. They were a respectable looking body of people. So says the News.

In the United States Circuit Court at Richmond James M. Simms, a colored member of the Georgia Legislature, obtained a verdict for \$1,800 damages against the Richmond, Fredericksburg and Potomac Railroad Company for ejecting him from the cabin of a steamboat on the Potomac river.

The Senate of the United States on Wednesday, 11th ult., by a vote of 50 against 12 ratified the Treaty of Washington for the settlement of all claims growing out of the late war, and the depredations of the Alabama, between the United States and Great Britain.

The Methodist Book Concern committee on Saturday decided to suspend Rev. Dr. Lanahan from the Assistant Agency, and appointed June 8th for an investigation. Dr. Lanahan reiterates his charges of fraud in the management of the Book Concern, and offers to produce new evidence.

On Saturday afternoon a shaft in one of the coal mines at Pittston, Pa., took fire and the flames out of the escape of thirty seven workmen, who were three hundred feet under ground. On Saturday the ruins of the wood-work were cleared away and access gained to the men, all of whom were brought to the surface during the afternoon. Eighteen were dead, and there are others who will probably not recover from the terrible effects of their 24 hours' imprisonment amidst the noxious gases which caused the death of half those who were subjected to them. Except in the origin of the fire the calamity was a repetition of the Avondale disaster, and like it illustrates the necessity of having at least two openings to every mine.

At last the long and horrible struggle is over, and the authority of the French Government is established in every part of Paris. The final contests in the streets on Saturday night was the last stand of the Communists, and they fought more desperately than ever before. It was of no avail, however, the troops steadily drove them back and on Sunday planted the tri-color on the heights of Belleville and La Villette. All accounts concur in saying that the slaughter among the insurgents was immense, while the soldiers suffered comparatively little.—Minister Waaibarac, in his telegrams to the State Department, confirms the report of the murder of Archbishop Darboy. Sixty nine other priests were shot at the same time.

P. S. The French Government having finally conquered Paris, is getting rid of the Communists by executing them as fast as they are caught. The streets are so filled with dead bodies that it is proposed to burn them as a sanitary measure. Among the hostages murdered by the Communists were the noted Imperialist banker Jecker, Abbas Suia and Duguayere and ten others.—The loss of the army is placed at less than three thousand, and that of the Communists at from forty to forty-five thousand. The people of Paris are enthusiastic over their deliverance from the mob, and quiet had been restored by the enforcement of military rule.

BORDER DAMAGE BILL.—Advised will be found the Border Damage Bill as it finally passed both houses. It provides for a re-adjudication of the claims, the issue of certificates, and a demand on the General Government for payment.

SEC. 1.—Be it enacted, &c. That the claims of the citizens of the county of York, Cumberland, Adams, Franklin, Fulton, Bedford and Perry, for extraordinary losses sustained during the rebellion, as adjudicated under the several acts of Assembly, approved 16th April, A. D. 1863, 15th February, A. D. 1866, and 9th April, A. D. 1868, be subjected to a careful revision by two commissioners in the county of York, two in the county of Adams, two in the counties of Cumberland and Perry, and two in the counties of Fulton and Bedford, to be appointed by the president judges of the courts of common pleas of said several counties, and the Governor shall appoint competent council to represent the State Government in the revision of said claims before the several commissions shall re-examine and re-adjudicate all of said claims, and may reject or diminish any now on file, as equity may require, but not increase the amount of any excepting the claim of the German Reformed church represented by S. R. Fisher and company, which shall be equitably adjusted; and any claims which may have been assigned or transferred by the original claimant, the assignee or present owner of the same shall be required to make satisfactory proof of the amount actually paid for the claim, and the amount so paid shall be awarded no more; and if any owner of an assigned claim shall fail to make such proof satisfactorily the claim shall be rejected; and they shall endorse their approval thereon for the amount allowed and return the claims to the Auditor General.

SEC. 2. The State shall issue to each claimant or to his, her or their proper representative, a certificate or certificates to the amount allowed on such claim, in the following form:

COMMONWEALTH OF PENNSYLVANIA
Certificate of Adjudicated Claim for War Damages.

This is to certify that _____ has on file in the office of the Auditor General a duly approved and registered claim for the sum of _____ dollars, as adjudicated under the act entitled an act to authorize the liquidation of damages sustained by the citizens, and payable only when said claims shall be paid by the United States Government.

In testimony we hereunto set our hands and the seal of the State this _____ day of _____ A. D. 1871.

Which certificates shall be signed by the Governor and State Treasurer, and be registered and countersigned by the Auditor General.

SEC. 3. It shall be the duty of the Governor of the State to demand the payment of said claims by the General Government, and also the payment of the amount heretofore paid by the State on said claims, and to appoint such agents for the purpose as may be deemed necessary, and any appropriation made by Congress to said claims shall be wholly applied to the certificates authorized by the second section of this act, as Congress may direct, until the same shall be paid in full. Provided, That this act shall not be construed to make the State in any wise responsible for or on account of said certificates.

SEC. 4. That the commissions and counsel authorized to be appointed by the first section of this act shall be paid eight dollars for each day, not exceeding sixty days actually employed in pursuance of their appointment, and their compensation, together with the necessary expenses of the said certificates, shall be paid on the warrant of the Governor out of any money in the Treasury not otherwise appropriated.

The latest advices from Paris report that the London fire brigade had arrived in the city for the purpose of aiding in extinguishing the terrible fire which the Communists have kindled in the unfortunate capital. Other foreign fire companies were expected, and it was hoped that the united exertions of all would prove successful in saving the yet unburned quarters. Already one fourth of Paris has been laid in ashes, and the insurgents continue their incendiary work by means of petroleum bombs—the most destructive, diabolical invention of modern days.

THE GRAIN PROSPECTS.—Favorable accounts of the grain crops are coming in from all parts of the country, and there need be little fear of a scarcity at harvest time.

The west coast, California and Oregon, have all been blessed with a good season.—From the grain belt of the West and north west the reports are equally cheering. The present appearance of the wheat crop indicates an abundant yield. Of course there will be, during the season, the usual number of unfavorable reports from interested quarters, but the indications now are that all such will have to be manufactured out of the whole cloth.

Beware of counterfeits in purchasing Hall's Vegetable Sicilian Hair Restorer.—The genuine has a private revenue stamp three inches long, with a likeness of Dr. Hall upon it over the cork.

The gross receipts of the Hanover Branch Railroad during the past year were \$77,847.85, and the total expenditures \$52,054.99, leaving a balance as net profits of \$25,792.85.

A Dutchman, who was in Washington the other day, noticing a number of Indians passing along the street, exclaimed in tones of amazement: "Mein Gott! Mein Gott! die tobacoed signs has all let loose!"

An exchange says "ventilated garters for sale." We don't think the subject a proper one for ventilation.

Most young ladies have a common pupil in their eye, but we have heard of one who has a college student in her eye.

—St. Louis has a baby show. At the last account about eighty babies were yelling in the stable.

LOCAL MATTERS.

PASSE FOR SALE.—The Presse upon which the Record is printed—Washington—old style—had 86c28—is for sale. Does good work. Price \$100 cash.

Net fishing commences to day.

The month of July is to have two full moons.

The consumption of lager was very great in our town on Saturday.

It is a mistake to suppose that printers can live bodily, by faith.

The woman question—how shall I trim my spring hat?

The Legislature adjourned on Saturday last.

A PUBLIC WANT.—A Bath House in Waynesboro.

DEATH.—Mr. H. P. L. Vandersloot, Auctioneer, died in Chambersburg a couple weeks ago.

LIME.—Persons at this season should lime their pig stys, etc. Damp sellars would also be the better of a slight sprinkling.

A correspondent of the Germantown Telegraph says that fresh water, daily, with a lump of brimstone in it, is a sure cure of gapes in young chickens.

President Grant has accepted an invitation to the Washington County Agricultural Fair, Hagerstown, Md., in October next.

FILTHY.—Persons who make our alleys places of deposit for waste water and all manner of filth show that they have very little regard for their own or the health and comfort of others.

STRAWBERRIES.—Mr. Joseph Martin who has been supplying our town for several seasons with choice strawberries will accept our thanks for a treat of very fine ones last week.

An Ohio paper tells of a woman who washed her children's heads with modern whiskey to kill nits. Her boy's are well now but their heads are as smooth as billiard balls.

BANK DIVIDEND.—The First National Bank of this place declared a Semi annual Dividend of six per cent, for the past six months, which was payable on and after the 29th of May.

IMPROVEMENT.—Our Lutheran friends in this place have recently improved the ground around their new Church by grading, leveling, etc., which contributes much to the appearance of things in that quarter. We understand it is their intention to surround the enclosure with iron fencing.

HERRING.—Three Herring were caught one morning last week on out-lines in a muddy branch of the Antietam, near Frautz's Mill. Upon examination the "setter" who exclaimed as he raised the first line, "a bass," discovered he was the victim of some wag.—The fish were salted.

The Balt. American says the "Western Md. Extension Company" will organize in a few days, and that there are strong evidences that the road will be put under contract to Cumberland at no distant day by New York capitalists, a consolidated coal company. On opening the books they promptly subscribed to \$1,800,000 of the stock.

THE WEATHER.—The weather continues dry and excessively warm for so early in the season. The oats, grass, and potatoes are said to be suffering to some extent from the drought, but the wheat is filling nicely. Experienced farmers say continued dry weather will give us such a crop as has not been gathered since 1845. The prospects are certainly cheering for an early harvest and an extra yield.

MEAN.—On Tuesday night last our town had a "Calithumpian" turn out. During the progress of the rowdy performance, which continued until after mid-night, the Town Clock Bell was rung, which certainly does not reflect any credit upon those having the Hall in charge. Our authorities sometimes arrest "tipsy" Irishmen, fast horse men, etc., but the quiet of town is thus disturbed with impunity. If there is no law for the suppression of such disgraceful proceedings, it is high time, we think, one was enacted.

ROBBERIES.—We last week neglected noticing the fact that our Post Office had been robbed on the Wednesday night previous, the 17th. The thief or thieves entered by unlocking the front door. In the morning the letters were found torn open and about \$4.50 in stamps and \$1.50 in coppers missing. The store of D. S. Smith was entered in the same way the same night and goods to the amount of seven or eight dollars taken. The same morning the front door of W. A. Reid's grocery store was found unlocked, but nothing missing that he could discover.

The Gettysburg Compiler of Friday last says: "Mr. David Heagy, who was so severely injured in the band by a circular saw, at a shingle mill, in the South Mountain, a few weeks ago, died of lockjaw on Tuesday evening last. Mr. Heagy was a citizen of this place for many years, and the intelligence of his death caused a general feeling of sorrow. His remains were interred in the cemetery here yesterday."

\$300,000 MORE.—Chambersburg it seems is to receive another appropriation. This time \$300,000, which will make a total of \$600,000 since the burning of the town by Rebel vandals in 1864. The session in the general appropriation bill making provision for payment of this sum, finally passed the Senate on Friday by a vote of 18 to 13 and the House by a vote of 55 to 42. Whilst the citizens of our county seat, who suffered so terribly—many of them losing their all—are to be congratulated upon their good fortune, a just recompense for losses sustained—it is shameful that the claims of other Border sufferers should so long have been kept in the back ground by our State authorities. Although these, perhaps, sustained no losses at the hands of Rebel incendiaries, in many instances they were losers, pecuniarily, fully as much so as were many in the great conflagration at Chambersburg. These pillaged Districts were required to fill their quotas of men to the close of the war, and since to bare their share of the burden of taxation, but have the first cent to receive as a recompense for their losses. Worse—they have on two occasions—"if our memory serves us right"—been required to go through prescribed routines of getting up and proving claims, feeing agents, etc., involving both loss of time and money, to no purpose. According to the Border Damage Bill, to be found in another column, recently passed by the Legislature, they are to be put through a third process, with perhaps a like result. For the first time we advert to this wrong.—We say wrong, for if it is right to compensate one class of citizens for losses thus sustained—and it certainly is right—is it not unfair to entirely ignore the claims of others similarly damaged? But the fall election is approaching, and politicians, as usual, will be flush with promises for the future. However stale these have become there will be plenty sally enough to credit them and expect something to turn up by which they will receive at least partial pay for their stolen property. If nothing more, we trust such may find consolation in hope deferred.

NUNNERY MEETING.—The Snow Hill Society held their annual meeting at the Nunnery on Saturday last. The attendance of spectators was large as usual, the number of persons on the ground at one time being estimated at over four thousand. We are not advised of any misconduct during the day. A collision occurred between a couple parties near the Nunnery by which one person was thrown out and had his face as well as the buggy considerably damaged. The buggy belonged to W. H. Funk, Liveryman of our town. Mr. F.'s horse, the same that was hitched to the broken buggy, afterwards ran off and jumping upon a fence ran a piece rail into his thigh, inflicting a serious and it was at first feared fatal wound.

Our streets were thronged until a late hour in the evening with passing vehicles and horsemen, the hotels and restaurants—the meantime roasting quite a harvest in furnishing meals, horse feed, Balt. lager, ice cream, oysters, etc.

FESTIVAL.—The Festival for the benefit of the Reformed Church will open in the Town Hall this evening and will continue Friday, and Saturday, afternoon and evening. A general invitation is extended. Open to all.

He that getteth riches, and not by right, shall leave them in the midst of his days, and at the end shall be a fool.—Jer 18 11.

Alabama Claims.—We are informed that the most persistent and unyielding of the private citizens who have claims against the British Government are Dr. J. C. Ayer & Co., of Lowell, Mass., the Manufacturers of medicines. They will consent to nothing less than that their demand for medicines destroyed by the British pirates shall be paid in gold and in dollars to the last cent. They are emboldened by the fact that the destruction of their goods by the English in China and elsewhere have hitherto been paid in full, and they now say that they shall be. They however propose this compromise.—give us Canada and we will call it even, because we can then send our remedies there without duty. [Washington News.

CORNS, BUNIONS, INGROWING NAILS, &c.—The enormously increasing sales of Briggs' Elevator and Curative for the prevention and cure of the many painful diseases of the foot, bear witness to their wonderful superiority over all other like preparations. For years they have been steadily growing in favor, until now the great majority who are troubled with bad feet will use no other remedies. The Curative, for sore, tender and festering corns and bunions, bad nails, &c., is soothing and healing, permanent.

PILES.—Internal, External, Bleeding or Itching. This distressing and harrowing disease is alarmingly on the increase. More so, perhaps, from the fact that those who are afflicted from a false notion of delicacy, are afraid to ask for a remedy, thereby making their condition known. How wrong and fatal is this neglect. At the first intimation of the appearance of this complaint they should procure Briggs' Unrivalled Pile Remedy, and using it according to directions, immediately check it and permanently cure it. It is easy of application, and thorough in its effects. Sold by F. Fourthman.

COUGHS, COLDS, BRONCHITIS, ASTHMA, &c.—The above complaints seem to be increasing in prevalence, and if not taken in time, either one may lead to that dreadful and fatal disease—consumption. What originally neglect them when the result may be so terrible! Briggs' Throat and Lung Healer is a positive remedy for all diseases of the throat, lungs and chest—never failing when used in the morning of affliction.—Sold by druggists.

REAPERS AND MOWERS.—Among the great variety of Reapers and Mowers which claim the attention of our farmers, we notice the Dodge. This is a combined machine, a self-raker, with side delivery. The platform can be raised or lowered while in motion.—The machine can be seen in the Waynesboro Hotel Yard. One of the agents, Mr. Wingert, will be in town on Saturday of each week. J. W. WINGERT, JACOB HOCKERSMITH, Agents.

THANKS.—The undersigned having been unfortunate by the burning of his Barn with its contents (of Wheat, Corn, Oats, Hay, Straw, Gears, Wagons, &c. &c.) on the night of the 2nd of November last and not being able to return thanks personally to his donors, avails himself of the columns of the paper to return thanks to all those who contributed towards his losses in any way whatsoever, hoping and trusting that God will bless them more abundantly. SAMUEL ONWAKE.

THE TOMB.

At Mount Hope on the 19th ult., WALTER SCOTT, son of Frederick and Emma E. Speck, aged 1 year, 9 months and 23 days.

Our son so dear, so right to us,
Has left these lower scenes;

He slumbers now beneath the sod,
Ah now, how sad it seems!

Dear Walter, we never shall see you more
While we on earth remain;

But on the resurrection morn
We'll see thy face again.

And when we meet in heaven's tower,
We shall be satisfied;

When joyful through eternity,
We'll not regret he died;

But oh! I dear Walter, our tears must fall,
We must lament thy fate,

And can we, will we, 'tis forget
Write in the present state;

Could we recall the days gone by,
And see thy form once more!

Oh, could we hear thy pleasant voice,
Our anguish would be o'er.

It can not be, and we must mourn,
Thy form we can not see;

Then Walter dear, farewell dear son,
A long adieu to thee.

S. F. C.
At his residence near Falling Springs, May 29th, Mr. GEORGE OVERBAUGH, aged 93 years, 11 months and 24 days.
