

No implement more important to the farmer than a FIRST-CLASS GRAIN THRESHER AND CLEANER-for none pays him so well and speedi

The above cut shows the ONLY GEISER MA-CHINE new built under the immediate eye of the old inventors themselves, with all the additional improvements made during the past 18 years, and now with first class tookien and material this machine justly stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thorough by thresh and clean grain fit for market. But the fact that grain direct from this machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its A full line of G superiority, no a citaner over all others. Impartial style and quality; judges at all the State and County Pairs where it was thoroughly and practically tested, in competi-tion withouter leading machines, always agree that it is more simple—more easily understood and op-erated by those unskilled in machinery—more durable,—threshing as much and yet cleaning better—with less power and more comfort to hands than any other machine in use—and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of pur-chasers, some of whom have had then in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever power, with prices ranging from \$190 to \$360, without power. We also make the latest improved triple-geared Horse Powers suitable for proved triple-geared Horse Powers suitable for car petings, and car petings, all fully and fairly warranted. There is added to the Morning of this year an even, which is neat in appearance. It is a good

Baker. You can heat Irons, Bake, Boil, Roust, Stow, and it does not interfere with the operatrens as a Parlor Stove.

In regard to the blast of some Stove Dealers, who say that their particular stove takes less coal and gives more heat than the Morning Glory, you can put that kind of talk down as a Blow-wel, as the Morning Glory has been sold (in this part of the country) for four years, and in that time I have put out over three hundred of them, and never had to take one back because it would not do its work or it was not what I sold it for. Now that cannot be said of any other stove ever offered in this mas het. That is the proof which is the stove.

I have other styles or heating stoves for easi or wood. Heating Furnaces put up and warranted.
My Cook Stoves are of the best in market for coal er wood, all warranted good Bakers. Also a new Parlor Cook Stove, something that can't be excli-
