GEISER'S PATENT SELF-REGULATING GRAIN SEPARATOR CLEANER, BAGGER AND POWERS.

No implement more important to the farmer than a FIRST-CLASS GRAIN THRESHER AND CLEANER—for none pays him so well and speedily.
 The above cut shows the ONLY GEISER MACHINE now built under the immediate eye of the old inventor himself, with all the additional improvements made during the past 18 years, and now stands high up above all of its class. As a Thresher it is equal to the best, as a Cleaner it is superior to any existing machine. This is admitted by all honest competitors. Indeed it is the only machine that really can, by one operation, thoroughly thresh and clean grain fit for market. But the fact that grain direct from the machine commands from 2 to 3 cents a bushel more than grain direct from any other machine, settles the question of its superiority, as a cleaner over all others. Impartial judges at all the State and County Fairs where it was thoroughly and practically tested, in competition with other leading machines, always agree that it is more simple—more easily understood and operated by those unskilled in machinery—more durable—threshing as much and yet cleaning better—with less power and more comfort to handle than any other machine in use—and besides all that is sold for less money according to capacity. These facts are further attested by the thousands of purchasers, some of whom have had them in use for the last 18 years. To supply the wants of all, we now make 4 sizes, viz: From a 2 Horse Railway or 3 Horse Lever Power, to a ten Horse Lever Power, with prices ranging from \$190 to \$360, without power. We also make the latest improved triple-gear Horse Powers suitable for each size machine ranging from \$90 to \$135, and all fully and fairly warranted. For further information send for Circular and Price List.

THE MORNING GLORY FOR '71.

For sale at W. A. TRIBLE'S new Stove and Tin Store. He has on hand a large stock of the above stoves, all of the late improved kinds.
 There is added to the Morning of this year an oven, which is neat in appearance. It is a good Baker. You can heat Irons Bask, Boll, Roast, stew, and it does not interfere with the operations as a Parlor Stove.
 In regard to the blast of some Stove Dealers, who say that their particular stove takes less coal and gives more heat than the Morning Glory, you can put that kind of talk down as a *Blow-out*, as the Morning Glory has been sold (in this part of the country) for four years, and in that time I have put out over three hundred of them, and never had the one back because it would not do its work or it was not what I sold it for. Now that cannot be said of any other stove ever offered in this market. That is the proof which is the stove.
 I have other styles or heating stoves for coal or wood. Heating Furnaces put up and warranted. My Cook Stoves are of the best in market for coal or wood, all warranted good Bakers. Also a new Parlor Coal Stove, something that can't be excelled.
 Call and see me. You will find my stock of Tin Sheet-iron and other wares of the best kinds, and at low rates.
 On hand, the best Clothes Wringer in market—Also a good and cheap Washing Machine.
 Roofing and Spouting done of the best stock and at short notice. Job work of all kinds in my line done at low rates. The only place in town where you can get your copper work done, being the only Copper Smith in the place.

PATENTED SEPT. 21 1869
RYLANDS PAT. CUTTER
 FOR CUTTING HAIR, STRAW, FODDER, &c.

The merits of this Machine consist, in part, in the attachment of curved knives to the arms of the cutting-wheel, the shearing cut across the mouth-piece, the great power and directness of the blow, by which the volume of material is cut, with less power than is required by any other Machine; those combined with its durability and simplicity of construction, command public attention. Nothing like it gets out of order, but what a boy could remedy with a pocket wrench.
 Persons in want of machines of this description will do well by calling upon or addressing the undersigned. Good and responsible agents wanted to sell machinery and territory.
 The above Machine is now on exhibition at the office of the Waynesboro' Manufacturing Company. Persons interested should call and examine it, for it is what every farmer should have.

ROASTED ALIVE
 The following record of one day's accidents, all from the same cause, viz: the use of inferior Coal Oil, is taken from the Philadelphia Ledger of a recent date.
 "The alarm of fire, last evening, at 7 o'clock, was caused by the burning of the dwelling, corner of 16th and Poplar, resulting from the explosion of a coil of lamp. Mrs. Hersh, occupying the second story of the dwelling had retired to her apartment, a few moments before the discovery of the fire. On entering her room, she was found lying on the floor, wrapped in flames. She was in a state of insensibility at 7 o'clock yesterday morning, a coal oil lamp in the hands of Sarah Alexander, who lives on Cass St. near 16th. She was severely burned.
 "Margaret Colligan, residing in the rear of 618 South St. was burned by the explosion of a coal oil lamp. Her husband, while attempting to extinguish the flames, was also severely burned. Two of the above named victims have since died of their injuries.
 "All such fearful accidents, resulting in death and the destruction of valuable property, may be avoided by using "CARSON'S STELLER OIL," which is known to be a perfectly safe and reliable illuminator. It is for sale by Amberson, Benedict & Co., Waynesboro', E. I. Winger, Quincy. [Feb 12-71]
