The semi-annual celebration of the State Normal School at Millersville, on Friday of last week, is said to have far exceeded those of former years. The number of persons in attendanca was unusually large, many of them being from the adjoining counties of York, Lebanon and Chester. The essays and orations of the pupils were of a high order of merit, and were received with unbounded applaus by the audience. We are glad to learn that the next session of the school opens under the most favorable auspices. Professor Wickersham and his corps of excellent assistants have abundant reason to feel proud of the success which has attended their efforts to make the Millersville School

Holloway's Pills .- Much truth in a small compass .- Derangement of the stomach and bowels .- Few people are conversant with the manner in which the blood is created, or that the stomach with the gastric juices, the secretions of the liver and the action of the lungs are the cheif agents for converting the food we eat into blood, hence the great necessity for preserving the stomache in a sound and healthy condition. Nothing has yet been discovered more effectual for this than Holloway's famou Pills, which act directly on the stomach, liver, bowels and circulation. In bilious disorder indigestion, costiveness and all the consequen complaints, headache, piles, and dibility there is no medicine in use which insures such cer tain and beneficient results.

RECOMMENDATIONS.

We invite attention to some of the recommendations: From Rev. C. W. Thompson, Rector of St. John's Protestant Episcopal Church, York, Pa.

Messrs. Austin & Wehrly:—The engraving of the "Lord's Prayer," which is now offered for safe by, Messrs. Austin & Wehrly, of this Borougn, is "got up" with much taste and beauty, and ought to recomend itself to public attention—anything that will keep that noble composition before the mind and memory is likely to do good. The work seems to me likely to do good. The work seems to me only to require examination morder to be ad-mired, and I cannot but hope that the gentlemen who have in hand its distribution at so men who have in main its distribution of an moderate a rate, will be abundantly successful in their undertaking.
