SATURDAY, OCTOBER 19, 1861.

Messrs. MATHER & ABBOTT, No. 335 Broadway, New-York, are duly authorized to act for us in soliciting advertisements, &c.

AN INCIDENT IN BALTIMORE: A letter from Baltimore says: "An officer who came up from Annapolis was walking in the street, when he met a lady who gathered up her skirts close to her and said, 'Don't touch me, you vile wretch,' and passed on. The gentleman made no reply, but, turning round, followed her to a handsome house on a fashionable street, and, as soon as she entered he ascended the step and rang the bell. A servant answered the summons, and the officer asked the name of the gentleman residing there, and said that he wished to see him. When he appeared the officer said to him: 'Sir, a woman has just entered this house who grossly insulted me on the street a few moments since, and I wish to know if you are responsible for her behavior? The gentleman turned to the lady who was standing behind him, and said: 'Anne, come here and apologize to this gentleman. I will not be drawn into scraps by your insolence. I have told you all along that you would get yourself into trouble by your unbridled tongue, and you wouldn't listen to me; now you may take the consequences.' The lady then came forward and made a full apology, and the officer left the house."

ANOTHER FEMINE VOLUNTEER.—A feminine recruit, named Mary Smith, lately enlisted in the McClellan Zouaves, was discovered at Camp Wood, Cleveland, Ohio. Mary is said to be intelligent, good looking, full of patriotism, pluck, and aged about twenty-two years. Suspicion as to her sex was first excited by the peculiar wring of the dish cloth, which she gave when assisting in cooking the company's rations, but all doubts vanished in the distribution of "nameless" a pair was handed to the recruit with the feminine voice to fit on. He sat down, pinned the garment to his knee, and began to sew with the expertness of a professional seamstress. On being questioned, Mary plaid guilty, and said she wished to go to war to avenge the death of an only brother, who fell at the battle of Bull Run. Miss Smith was sent to Dayton.

DEATH OF A GODSON OF WASHINGTON.—Walter Washington Buchanan, a godson of General Washington, died at Greenock, Scotland, on the 11th ultimo, at the age of 83 years. Mr. Buchanan was baptized in New Washington's arms at Hanover, (now Morrisstown) N. J., on the 4th of January, 1777, and Kosciusko and Lafayette were present at the ceremony. Mr. Buchanan subsequently became a surgeon in the United States Navy, and in 1808 was chosen Secretary of the County Medical Society, of New York.

Dr. Hayes' Popular Expedition, which sailed from Boston on the 7th of July, 1860, has returned. The party are all well. Two have died, including August Sontag, the astronomer, and Gibson Caraltes. Dr. Hayes reached Smith's Straits on the 26th of August of last year, but could not penetrate the straits with his vessel, either last season or this. He wintered at Port Foulke, near Cape Alexander, and with a dog sledge reached lat. 81 deg. 35 min. on May 18th of this year, about the same latitude reached by Kane.

The National Intelligencer says the National Army is well supplied with bread. A person who lately visited the army baking establishment, says the troops are well supplied daily with about one hundred and fifty thousand loaves of soft, sweet bread, and all of beautiful quality, besides crackers or hard bread in considerable amount. The entire consumption of flour each day, in bread and crackers, is about nine hundred barrels.

A vicious practice has grown up of giving the officers of the army their pay at the expiration of the month, if they choose to ask for it, while the soldiers were obliged to wait till two months had elapsed. The Paymaster General has decided that colonel and private shall be treated alike. No arrangement by which officers are paid more frequently than soldiers will henceforth be ratified by him.

The Grand Jury of Philadelphia "after a careful examination of all the testimony," finds no evidence of fraud on the part of the officers of the Commonwealth in supplies furnished the troops.

Thomas H. Clay, a son of the immortal Henry, and unlike his renegade brother, is ardently at work in Kentucky, battling for the cause of the Union.

THE ARMY FRAUDS: Forney's Press in speaking of the Army Fraud Committee Report, says: "We have carefully read and regret that its great length will prevent us from publishing it in our columns, the report of Messrs. Fry, Rodgers, Abbott, Heywood, and Cope, the Commissioners appointed by Gov. Curtin to inquire into the alleged frauds committed in furnishing supplies to our volunteers; and it is a gratifying fact that, after a laborious investigation by these gentlemen, who are men of the highest character, no single evidence of fraud attaches to the proper State authorities. That errors were committed and speculations attempted in some instances is doubtless true; but considering the immense pressure upon the State authorities—the necessity of organizing an army out of entirely raw material in a few days—the entire want of equipments, arms, provisions, &c., it is remarkable indeed that the arduous duties so suddenly imposed upon Gov. Curtin have been discharged with so little loss to the State. Our volunteers were not properly clothed, it is true; but the evidence shows that the material for proper uniforms was scarcely to be had; and that inferior goods were often necessarily purchased, and at the lowest cash prices, to equip our men.

THE COW-BELL DODGE.—The rebels have resorted to an ingenious way of luring our men into their snares. It is known as the "cow-bell dodge," and it was very successful for a time, especially with newly arrived regiments and companies which were placed on picket for the first time. Approaching within thirty or forty rods of our outposts and concealing themselves in the woods, they commence the irregular tinkle of a cow-bell. The uninitiated picket not suspecting the ruse, and not yet reconciled to drink his coffee without milk, goes out to obtain a supply from the supposed cow of some Virginia rebel, flattering himself that he has got a "big thing on Secesh." Not until he finds himself surrounded by a half-dozen or so armed rebels does he learn his mistake. In Richmond are nearly a dozen of our soldiers who are probably now regretting their ready credulity and appetite for milk.

A GOOD ARRANGEMENT.—The War Department has completed its arrangements for facilitating the appropriation of our volunteers of a portion of their pay for the support of their families. Rolls of assignment are to be kept in each command, which are to be forwarded to the Paymaster General's office, where the deduction will be made, and where, also, arrangements will be completed by which the persons for whose benefit these deductions are to be made, will receive their specified amounts.—We anticipate great good from this system, as well for the soldier as for his family. It will also scatter large sums of money in the loyal States, as a means of supplying many needy wants.

THE ROADS IN VIRGINIA: The soil beyond the Potomac is light, loose, and porous, and the roads since the recent rains have been so thoroughly cut up by the heavy army wagons, that they have already become nearly impassable. As the season advances this impediment to transportation will increase. Already the cavalry wade through mud knee deep to the horses, in some places, and wagons sink to the hubs. How either can make time, or even pass through the country at all, at a later period is a question of difficult solution.

A special convention of the diocese of Pennsylvania has been called by the Right Rev. Bishop Potter, to meet at St. Andrew's Church, Philadelphia, on Wednesday, the 23d day of October, at 10 o'clock, a. m. The object is to elect an Assistant Bishop, in the place of the late lamented Bishop Bowman.

Both branches of the Legislature of Kentucky have adopted, by an overwhelming majority, a resolution requesting Senators Breckinridge and Powell to resign the seats in which they have shamefully misrepresented their loyal constituents.

It is said the next Pennsylvania legislature as far as heard from stands thus: Senate, 22 Peoples; 9 Democrats; 1 Union and 1 not heard from. The House, 23 Peoples; 39 Democrats; 18 Union and 14 not heard from.

One hundred and fifty fat cattle are slaughtered every day in Washington, to supply the army with fresh beef. The parties who do the killing for the hogs, hides, and tallow, are making a "big thing."

Col. Max Eistein, of Philadelphia, has been broken of his command and expelled from the service without the formality of a Court of Inquiry.—His regiment has dwindled down to half its original number.

Gen. Anderson has requested to be relieved from the command in Kentucky, on account of his failing health.

NEWS IN A NUT-SHELL.

The Cheapest and most durable Roofing in use. IT IS FIRE AND WATER PROOF. It can be applied to new and old Roofs of all kinds, steep or flat, and to Shingle Roofs without removing the Shingles.

The Cost is only about One-Third that of Tin, and it is TWICE as durable.

This is the only material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTTA PERCHA and INDIA RUBBER.

No heat is required in making application. The expense of applying it is trifling, as an ordinary roof can be covered and finished the same day.

It can be applied by any one, and when finished forms a perfectly FIRE PROOF surface, with an elastic body, which cannot be injured by Heat, Cold or Storms, Shrinking of Roof Boards, nor any external action whatever.

LIQUID GUTTA PERCHA CEMENT. For Coating Metals of all kinds when exposed to the Action of the Weather, and for Preserving and Repairing Metal Roofs of all kinds.

This is the only Composition known which will successfully resist extreme changes of climates, for any length of time, when applied to metal, to which it adheres firmly, forming a body equal to three coats of ordinary paint, costs much less, and will last three times as long; and from its elasticity is not injured by the contraction and expansion of iron and other metal roofs, consequent upon sudden changes of the weather.

It will not CRACK in cold or RUN in warm weather, and will NOT WASH OFF. Lead pipes and other metal Roofs can be readily repaired with Gutta Percha Cement, and prevented from further corrosion and leaking, thereby ensuring a perfectly water tight roof for many years.

This Cement is peculiarly adapted for the preservation of Iron Railings, Stoves, Ranges, Safes, Agricultural Implements, &c., also for general manufacturing use.
