Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the rogartist PARTOF A SECOND, and everything, no matter how rapidly it may be moving, is depicted as sharply and distinct-ly as if it had been perfectly at rest. This gives an additional value, for to the beautics of inanimate nature it adds the charm of life and motion. The process is a discovery of our own, and being unknown in Europe, we it caived from London and Paris large orders for Anthony's Instantaneous Views of Ameri-can life and scenery.
