PENNSYLVANIA MOLASSES : The Chester County Phoeny says that the Chiness Sugar Cane has been successfully cultivated this year by many farmers in the western part of Chester county. The crop is quite abundant and Mr. Cloud, near Cochranville, has a mill that is running day and night in the manufacture of molasses by steam power. The apprehension that sugar would be dear induced the farmers to go extensively into the cultivation of the Sorghum. The same paper is also informed in Upper Oxford township, Chester county a mill has been erected for the manufacture of of Sorghum molosses, which is grinding sufficient cane to make from seventy five to one hundred gallons per day. The charges for gfinding the cane and making molasses are, under fifty gallons, fifteen cents per gallon ; for fifty gallons or over, twelve and a half cents per gallon. Thus it appears that molasses may in time become one of the staple products of the Keystone State.

Col. John Cochrane, delivered an address to his regiment last week, in the presence of Secretary Cameron and other distinguished gentlemen. The most important point in his argument was in relation to the treatment of slaves, during the present contest. He said we should use every means in our power to subdue rebellion; that we should take their cotton, and sell or burn it, as might be best, seize their arms and munitions of war, confiscate their property, and, when necessary, take their lives; and as their slaves at Springfield was formerly an officer were used as an element of strength under General Garibaldi. While in his against us, we should not hesitate to service he was brevetted Captain of Artake them, and, if necessary, to place | tillery by the Piedmontese Government, arms in their hands, that they might and decorations, which he habitually assist in establishing the rights of a common humanity.

The Cincinnati Commercial thus puts a quietus on one of the main charges against Gen. Fremont :

"Thurlow Weed, in rehearsing the greivous sics committed by Gep. Fremont, reasserts the exploded theory that on assuming command at St. Louis, he took a house for his headquarters for which the government is paying \$6000. ment We have rspeatedly stated that the house does not cost the Government a cent; that its use was tendered freely by

a relative of Gen. F., and that it is nobody's basiness, under the circumstances, whether it was a brown-stone front or a log-cabin. Most of the accusations rehearshed by the venerable Thurlow, are of the same ancient character, and have been refuted time and again."

DEATH FROM HYDROPHOBIA.-Mr. John Earnest, an influential citizen of Norristown, died, a few days since, of hydrophobia. He was bitten about a month since by a dog, which had no appearance of being rabid, and which was accidently strangled a short time after. At times. of four or five men to hold him. When not in convulsions he was perfectly sensible, and fully concious of his awful condition. During his lucid intervals he would warn his attendants to be careful so that he would do them no harm .--From the first moment of his attack till his end, he declared that there was no no hope but in death. He was thirtyfive years of age, and had been married during the past year to a lovely wife, the daughter of a physican of Philadelphia, who also died suddenly within the past three months.

FATAL ACCIDENT .-- On Friday mornng the 26th ult., Mr. Emanuel Ziegler met with an accident near Glen Rock, York county, from the effects of which he died on Monday. He was on horseback, when, it is supposed, his horse stumbled and threw him. In the fall his head struck against a stone, indicating a slight bruise near the temple, and injuring the brain. He was taken to his residence, where he lingered in a state of insensibility until his decease.
