

Slavery and its Evils.

The discussion of this question has hitherto been monopolized by the Abolitionists on the one hand, and on the other, by the so called Democrats who desired to perpetrate Slavery in the South...

Now however is the time for action. The people of West Chester, alive to their duty as good citizens, have taken the initiative in the great work and are now preparing to petition Congress at its first sitting to devise the ways and means by which the people shall in their united majesty and might, but with due regard to the vested interests of all our loyal fellow citizens, uproot the deadly Upas tree...

The poultry yard of Mr. Eagle, adjoining this Borough, was visited a few nights since and relieved of sixteen chickens. This is the second time Mr. E. has suffered in like manner during the present fall...

E. D. Roath, Esq., of this Borough, is getting up an Infantry company, to be attached to Col. Gray's 61st Regiment. The captain and his 2nd Lieutenant (S. L. Dellinger) took a squad to Camp Curtin on Wednesday last...

The Lancaster Union says: "We learn from the newspapers that the Court of Inquiry in the case of Commander Poor, of this city, charged with negligence concerning the escape of the pirate Sumter, has adjourned, and on their report the Navy Department has ordered a Court Martial to convene, composed of Captain Brees, President, and Chancery; Lieutenant William G. Temple, Judge-Advocate. The Court will meet on the 18th inst. Com. Poor is now on a visit to his family in this city."

On Friday morning at an early hour, Mr. Henry Sultzbach, Sr., hearing some thieves amongst his turkeys, got up to detect them, and on going down the yard steps fell and broke one of his ribs and cut his face. The scamps escaped.

HORRIBLE ACCIDENT.—"On Thursday night the 7th instant," says the Columbia Spy, "a fatal accident happened on the Pennsylvania railroad, on Front street. On Friday morning about 5 o'clock, Mr. Martin Erwin, when proceeding to his train standing on the south track found lying on the main track, opposite the Washington House, the body of a man most horribly mutilated by the passing trains. Assistance was called and the body removed. An examination of the track showed that the accident had happened opposite the Bellevue House, the body having been dragged to where it was found lodged between two of the cross ties. It was only on the finding of a knife with the name "J. H. Arms" on the handle, which had evidently fallen from the pocket of the unfortunate man that the body was identified as that of John Henry Arms, a well-known Columbian. Although the face was but partially bruised, there was no likeness remaining. The body was horribly mangled being almost cut to pieces. It was taken to the warehouse of D. F. Griffith, and there wrapped up preparatory to removal.

Mr. Arms was last seen, as well as we can ascertain, on Front street, near the scene of the disaster, between ten and eleven o'clock. It was supposed that he was killed by the first freight eastward, before eleven o'clock, and may have been mangled by each succeeding train passing over the same track in each direction during the night. Nothing positive is known, however; but there must be some traces of the accident on the wheels of the cars striking him, which will probably settle the question as to the time of the accident.

Mr. Arms was an old railroad, and had met with more than one accident in running the Pennsylvania Railroad. He had not been in the employ of the company for some time. He enlisted with Capt. Herr, in Harlan's Cavalry, and accompanied him to Washington, but was never sworn into the service and returned some weeks ago to Columbia. He was a young man of some thirty-five or six years, and leaves a wife, but no family.

TEMPERANCE.—We were very much pleased with a lecture delivered here last Tuesday evening by Wm. Nicholson, Esq., on the subject of Temperance. We congratulate the Good Templars in having so efficient an agent in the field as this old veteran. His lectures must do good. A hypocritical member of our Marietta Lodge took exception to some of Mr. Nicholson's remarks that told somewhat severely on the fashions of the fair, but we suspected that the thing was a ruse to curry favor with the ladies, a goodly number of whom were present, and if our friend succeeded in his efforts we wish him luck of his bargain.

The Marietta Lodge of Good Templars meets regularly every Wednesday evening at 7 o'clock, and is, we understand, doing good business. The following are the officers of the Lodge for the present quarter, viz: W. C. T. Barr Spangler; P. W. C. T., Amelia Ramler; W. V. T., Selinda Child; W. S. J. P. Walter; A. S., Kate Walter; F. S., Dr. John Cameron; W. T., Harriet Kline; W. C., Sarah Walter; W. M., Charles Walter; A. M., Hester Odell; I. G., John Peck; O. G., Washington Hughes; E. H. S., S. Thuma; L. H. S., Amanda Rollin. We wish them every success.

THE GRIFFIN CANNON: The Government Inspectors have tested forty of the three hundred now being made at Phoenixville, for the Government. They were finished in a superb style, and stood the test well, clearly proving the superiority of this gun. Each cannon was loaded four times, and discharged in rapid succession. These wrought iron cannon of Mr. Griffin's are far superior to any steel gun that has as yet been made, and cost but half the price, and will stand in a fair test double the quantity of firing.

MAN'S FOOT FOUND.—The Philadelphia Bulletin of last Saturday says, that on last Friday the foot of a man was found in front of the engine house of the Pennsylvania Railroad at West Philadelphia, and supposed it to have belonged to the Irishman Flannigan, who was run over by the cars below this city last Thursday.—Harrisburg Telegraph.

We learn through Edward R. Black, engineer on the Mail train, that the foot in question belonged to Harry Arms, who was so frightfully cut-up at Columbia a few days since.

The new Confederate postage stamps are green, with a lithographic likeness of President Davis, within double oval border, surmounted with the inscription, "Confederate States of America." Outside of the circle, and at the head of the stamp, is the word "postage," and at the lower edge its denomination, "five cents."

The Lancaster County Return Judges met on Tuesday last and counted the Army vote. The result does not change the result heretofore announced. Both the republican candidates for Prison Inspectors and Directors of the Poor are elected. These are all there was any doubt about.

The State will pay 27 cents a pair for all good knit woolen socks delivered in Harrisburg. The best color is grey, and the yarn should not be too fine or closely knit. The socks should have double heels.

JOHN'S & CROSLY'S IMPROVED GUTTA PERCHA CEMENT ROOFING, IS IT FIRE AND WATER PROOF. It can be applied to new and old Roofs of all kinds, steep or flat, and to Shingle Roofs without removing the Shingles. The Cost is only about One-Third that of Tin, and it is TWICE as durable. This article has been thoroughly tested in New York City and all parts of the United States, Canada, West Indies, and Central and South America, on buildings of all kinds, such as Factories, Foundries, Churches, Rail Road Depots, Cars, and on Public Buildings generally, Government Buildings, &c., by the principal Builders, Architects and others during the past four years, and has proved to be the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect a Fire, Water, Weather and Time Proof covering for roofs of all kinds. This is the only material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTTA PERCHA and INDIA RUBBER. No heat is required in making application. The expense of applying it is trifling, as an ordinary Roof, can be covered and finished the same day. It can be applied by any one, and when finished forms a perfectly Fire Proof surface, with an elastic body, which cannot be injured by Heat, Cold or Storms, Shrinking of Roof Boards, nor any external action whatever.

LIQUID GUTTA PERCHA CEMENT. For Coating Metals of all kinds when exposed to the Action of the Weather, and for Preserving and Repairing Metal Roofs of all Kinds. This is the only Composition known which will successfully resist extreme changes of all climates, for any length of time, when applied to metal, to which it adheres firmly, forming a body equal to three coats of ordinary paint, costs much less, and will last three times as long; and from its elasticity, and its contraction and expansion of fit and other metal roofs, consequent upon sudden changes of the weather. It will not CRACK in cold or RUN in warm weather, and will NOT WASH OFF. Leaky tin and other metal Roofs can be readily repaired with Gutta Percha Cement, and prevented from further corrosion and leaking, thereby ensuring a perfectly water tight roof for many years. This Cement is peculiarly adapted for the preservation of Iron Railings, Stoves, Ranges, Saws, Agricultural Implements, &c., also for general manufacturing use.
