

None shall with impunity soil these sacred symbols of our Country's life, liberty and power.

SATURDAY, DECEMBER 14, 1861.

Messrs. MATHER & ABBOTT, No. 335 Broadway, New-York, are duly authorized to act for us in soliciting advertisements, &c.

CONTRABAND LIQUOR.—Liquor will sometimes come in the most curious disguise. Here is a loaf of bread very heavy, which, on being cut open, displays a bottle of gin; then comes a neat preserve tin box, marked "A little homemade currant jelly from your loving mother;" but the incredulous Provost Marshal handled the box with suspicion, and on inserting his knife, the smell of "old cognac" assures him that deception, has taken place; so down the box goes after the bottles among the fishes, who then have a chance to drink literally like fishes. Next comes half a dozen innocent-looking medicine bottles, labeled "invigorating syrup, to be taken regular morning and evening," but, on inspection, the syrup turns out to be genuine schnapps, and go the bottles share the same fate of their predecessors. In this way there is an endless variety, productive of a small share of ill-feeling, but a very large share of real fun.

A COOL YOUNG LADY.—A young lady in Hartford, on going to her room to retire with a lady friend on Friday night, saw a hand hold of the blind of her window, and a couple of eyes peeping into the room. With a great deal of presence of mind, she remarked that she "guessed she did not lock the door down stairs," and taking the light she started down to rouse her father. The scamp took the alarm, however, and the other lady was considerably frightened to hear a man retreat along the roof which projected from under the chamber window and jumped off. There are but few young ladies who would have managed the thing so coolly.

AN OLD SOLDIER.—Samuel Downing, an old revolutionary soldier, residing at Edinburg, Saratoga county, N. Y., filled his one hundredth year on the last day of November. The anniversary of his birth was to be celebrated by appropriate rejoicings, and extensive preparations were being made to that end. As part of the "exercises" of the day, the veteran, who is hale and hearty, and walks frequently ten miles a day, is to fell a fair sized tree with his own hands, and with a new axe.

PITTSBURGH.—The Pennsylvania Thirtieth, the organ of Colonel Rawley's regiment, says in its last issue:—"We won't go home 'till the safety of the Union is assured. If we have wives, they can get husbands easier than they can get a country. If we have gals, they can select boys among the Home Guards if they can't wait for us; so we are content to await any other issue that may turn up in the future."

A man named Thomas A. McGill, residing at No. 292 First avenue, New York, on Sunday, in a fit of insanity or intemperance, threw his own mother out of a fifth story window, killing her instantly. The police immediately arrested the perpetrator of the deed, an Irishman by birth, aged about 31 years. The deceased and her son had lived together peaceably about a year in the house, and bore the reputation of being sober, industrious people. The landlord states that when McGill paid his rent on Friday last, he appeared to be either insane or drunk, and that he had warned the mother to beware of him.

Among other things constituting the cargo of the Atlantic, which sailed from New-York for Port Royal on Tuesday, was a printing press, cases, type, &c., sent down with the view of starting a newspaper at Port Royal, to be conducted under the supervision of General Sherman. A proper person will be selected as editor; and it is contemplated to issue a weekly sheet, which shall express the sentiments of the government, and at the same time aid in suppressing the rebellion on the soil of the Palmetto State.

As one of the incidental connections of the present war, it is stated that an office has been opened in Washington for embalming the dead. The system is that of the celebrated Spangier, of Paris—by an injection of a powerful antiseptic fluid, which soon hardens the tissues to a marble-like substance and perfectly preserves the color and features, and keeps the body free from all offensive odor.

A strong minded young lady was heard complaining the other day, that Lincoln does not call out any female regiments. She declares that she'd like nothing better than being in arms.

WHAT THE "LOUISVILLE JOURNAL" SAYS:—"We do not believe that even in this age of cheap publications any work can be more reasonable than the terms of the Scientific American at \$2 per annum, with 25 per cent discount for clubs of ten. It forms a yearly volume of 332 Pages quarto, with an immense number of original engravings of patented machines, valuable inventions, and objects of scientific interest. There is not an industrial pursuit which does not receive a share of its attention. It contains official lists of patent claims, important statistics, practical recipes for useful domestic purposes, and has long stood, both in this country and Europe, as the highest authority in the mechanic arts and sciences. There is no publication more valuable to the farmer, the miller, the engineer, the iron founder, the mechanic, or the manufacturer. We have never opened a number without learning something we never knew before, and obtaining valuable information for the benefit of our readers. The Publishers, Messrs. MUNN & Co., of 37 Park Row, New-York, have deserved the success which they have achieved. No one should visit that city without calling at their palatial establishment, which is a museum of inventive genius, collected from the entire world. If any of our friends away off in the country do not know this work, and will take our advice, they will mail \$2 and become subscribers immediately, or by applying, to the Publishers they can obtain a specimen copy gratis, which will be sure to confirm the truth of our recommendation."

We fully indorse the above, and would recommend our readers to take Prentice's advice, and subscribe for the paper. A new volume commences on the first of January, and it being a valuable work of reference, containing, as it does, the only official list of patent claims published in the country, every number should be preserved. The paper is published every Saturday, by the well known patent agents, Messrs. MUNN & Co., who have conducted the paper during the past sixteen years. In addition to furnishing specimen copies of the paper gratis, the publishers will send a pamphlet of advice to inventors, free of charge.

Address, MUNN & Co., 37 PARK ROW, N. Y.

Senator Trumbull, of Illinois, as will be seen by the first day's proceedings of Congress, has made an early start by giving notice of a bill to be introduced by him to confiscate the property of Rebels and give freedom to their slaves. Mr. Trumbull is known as a "conservative," and when elected to the Senate, was a Democrat of the Douglas stripe. He also hails from the President's own State.

Mr. Saulsbury of Delaware caused some amusement in the Senate by offering a resolution to appoint Messrs. Fillmore, Everett, Dallas, Taney, and some others, a Commission on the part of the North to meet a similarly constituted Commission from the South, and bring the war at once to a satisfactory termination. After the Senate had laughed at the resolution it was brushed aside.

Major-General John C. Fremont, with his family, arrived at New York on Friday morning, in excellent health. During the day he received the friendly visits of great numbers of distinguished citizens, and also gave an informal reception to the crowds who desired at least to give him a passing greeting. He declined all public receptions on his way, or at New York.

On searching the trunks of Mason and Slidell, at Fort Warren, no despatches were found. They were either previously destroyed, or handed over to the ladies of the party. This, however, is of little importance, since Davis' message establishes the fact that they were commissioned to foreign Powers, clothed with authority from the rebel Government.

The prominent Freemasons propose to send a valuable "gavel" to Garibaldi, who has been elected Grand Master of the Grand Lodge of Italian masons. It will be a fac-simile of the "gavel" with which George Washington laid the corner-stone of the Capitol, now carefully preserved in Potomac Lodge.

Timothy Dowling of Minot was held to bail in the sum of \$400, at Auburn, on Tuesday, for threatening to burn the buildings of his neighbor, E. H. Ayer. There had been a quarrel existing between the parties for eight or nine years, and grew out of the zeal of Mr. Ayer in suppression of the liquor traffic.

Through examination of Beverly Tucker's records, and the correspondence upon it, shows that Buchanan's Administration was cognizant of his defalcations at the time they commenced in 1858. The extent of his plunder was mentioned a few weeks ago. It amounts to over a quarter of a million.

The largest shipment of bread-stuffs for Europe ever made at New York in one day was on Tuesday of last week, when 404,283 bushels of grain and 28,598 barrels of flour were cleared at the custom-house.

CLIPPINGS FROM OUR EXCHANGES.

Thirteen rifled cannon for the Government arrived at New York. One is a one hundred-pounder, and is capable of throwing a ball five miles, and designed for Fortress Monroe.

Mr. Russell, of the London Times, dined, after the review on Saturday, at the camp of the Garibaldians, with Col. D'Ussay and his officers. Dr. Russell complimented the Garibaldians in a neat speech, for their soldierlike movements in the review, and the officers for the harmony manifested in a regiment made up from so many different nations.

Senator Wilson having got up a bill to abolish the office of sutler in the army, some law firm in Washington city has hatched a scheme to make money out of the sutlers by raising a large fund to defeat the bill. A circular soliciting money has been sent to each sutler. Will this be permitted?

It is stated that between the 1st of July and the 1st of November, four months, ten millions of cartridges for muskets and small arms, were issued by the Ordnance Department to the army on the Potomac. This enormous expenditure of cartridges is due mainly to target practice among the troops.

In the case of Catharine N. Forrest against Edwin Forrest, a full bench of the Supreme Court has decided against the motion of defendant for a new trial, and confirmed the award of \$4,000 a year alimony.

Cyrus W. Field is in Washington, endeavoring to get the government to adopt a plan for the building of a telegraphic line from Fortress Monroe to Baltimore, or some other point on the northern coast.

There is no truth in the report that General Fremont will be arrested by military authority on his arrival at Washington. He has rented a house, and intends to remain there during the winter.

Two thousand suits of comfortable clothing, and other necessities, were sent to our prisoners at Richmond last week by the Quartermaster General. Besides this, Massachusetts sent three hundred and fifty suits to the prisoners from that State.

Commander Poor, tried for allowing the sumpter to escape from New Orleans, when he was in command of the Brooklyn, blockading that port, was acquitted by the Court, and the sentence has been approved by Secretary Welles.

Commodore Levy, the owner of the Monticello estate in Virginia, who remains loyal, it is said, has prepared his will, in which he leaves the Jefferson homestead, and \$100,000 to keep it in repair, legacy to the United States Government.

The Government has appointed a regular superintendent to work the cotton gins at Port Royal and region round, and have the cotton shipped as fast as got ready. One of our Quartermasters there had set 50 gins to work with a will, the negroes getting three cents per lb. for all the cotton ginned.

General McClellan is determined to strictly enforce the President's order in relation to the arrest of contrabands in the District of Columbia. He has also determined to abolish all brothels and gambling houses in Washington.

The traitor J. C. Breckinridge, has been expelled from the United States Senate by 36 yeas, no man having the face to vote against the resolution, but several, Powell, Bayard, Pearce, Kennedy, &c., shirked the vote, showing their sympathy with the enemies of their country.

Lieutenant Bristow, of General Dix's staff, has found the sword stolen from one of the Japan Embassy while passing through Baltimore. It was found while searching a Rebel house for arms. It will be sent on by the President to Japan.

The Union caucus of the Kentucky Legislature has nominated Garrett Davis to fill the seat in the United States vacated by the expulsion of Breckinridge. Mr. Guthrie was defeated in the nomination by a single vote. Mr. Davis was subsequently elected, receiving 84 out of 96 votes.

Prince Napoleon has selected at the Imperial manufactory an elegant service of Sevres China, which is now on its way to this country, as a present to the Secretary of State, in acknowledgment of the attentions which the Prince received here.

Sullivan Fay, a wealthy citizen of Southborough, Mass., has employed the year about fifteen hundred days' labor of men, in improvements on his farm, for the purpose of giving employment to those who needed it to support their families.

Mrs. Gordon Forrest, whose husband, a sergeant in the First Massachusetts regiment, was killed at the battle of Bull Run, has been pensioned at \$8 50 per month for five years, from July 18th, 1861.

Among the importations into Boston during last week were forty-two live Angora goats, valued at \$2,000.

MR. SEWARD SET RIGHT.—A prominent citizen of New York had an interview with Mr. Seward a day or two since, when Mr. Seward remarked: "With many persons I have the reputation of a compromiser. Nothing could be more unjust to me. I was the last man in the Cabinet to consent to the removal of Gen. Fremont, and I would be the last man to consent to a compromise with rebels." "Why, then," asked a New Yorker, "do you not take pains to let your opinions be known?" "Because I am willing to trust my reputation with the future," was the reply. "I would like to make this conversation public for the sake of some of my friends, as well as yours," said the citizen, and the Secretary replied that he "had no concealments." This conversation accords with other statements respecting Gen. Fremont's removal. Mr. Seward was one of the fast friends of Fremont in the Cabinet.

STRANGE FATALITY.—There seems to be a fatality about the office of Vice President of the United States. Aaron Burr, the third Vice President, was a rank traitor and conspirator; John C. Calhoun, the sixth Vice President, was another virulent conspirator against our national life; John Tyler, ninth Vice President, and by an accident President, is now a zealous rebel; and John C. Breckinridge, thirteenth Vice President, dares not show himself in Washington, for fear of the halter he so richly deserves as the most sneaking traitor of them all. Will not some ingenious speculator devote a little consideration to the cause of this singular circumstance, and explain why so many Presidents of the United States Senate should be found in the black list of conspirators against the nation which has honored and trusted them?

WHAT SICK SOLDIERS WANT: It is, do doubt, a very difficult matter for those who are collecting hospital supplies to obtain those articles which are really necessary, and at the same time refuse those things which are not needed.—Some persons have strange ideas in regard to the wants of the sick, furnishing jellies, preserves, etc., which are of little or no benefit to healthy stomachs, much less to those that are sick. Let our ladies, as far as possible, devote their energies to obtaining articles of comfort rather than diet—blankets, shirts, drawers, slippers, socks and mitts; for all that is essential to the diet of the sick can be usually obtained on the surgeon's order from the regimental commissary. Magazines, newspapers, and books, especially those to form a "hospital library," would be highly appreciated by the soldier when convalescent, and when confinement to bed or to the ward is irksome.

THE WILL OF JOHN QUINCY ADAMS.—In the Circuit Court at Boston, on Wednesday, in equity, before Judge Sprague, arguments were made in the case of Charles Francis Adams, executor, and W. C. Johnson, et al., upon the construction of the will of the late John Q. Adams. The question arose upon the death of Mrs. Johnson, the wife of the first respondent, who was one of the heirs of Mr. Adams. About \$40,000 is involved, which Johnson claims as tenant in courtesy, his wife having received an annuity during her life out of a fund held in trust by Charles Francis Adams, and having died, leaving issue.

MARRIAGE OF ELLA ZOYARA.—The long contested points as to the sex of Ella Zoyara has now been definitely settled, says the N. Y. Times, and the question as often promulgated, "What is it?" can now be answered satisfactorily. Mr. Ella Zoyara, otherwise called Yale, was united in the holy bonds of matrimony last week to Miss Sallie Stickney (daughter of the manager of Bowery circus, and thus ends the romantic history of Ella Zoyara, who was deserted when a child, &c. &c.

MOUNT VERNON WITHIN OUR LINES.—In front of the left wing of our army below Alexandria, our picket lines extend from the mouth of the Occotank up to Occotank Ridge ten miles in front of Port Lyon, and four in front of Mount Vernon, which estate is now within our lines. The rebel pickets appear about two or three miles beyond our lines.

ONE YEAR.—On the 8th of Nov., 1860, the Slaveholding nabobs of South Carolina began to tear down and trample on the Stars and Stripes. On the 8th of Nov., 1861, the patriotic freemen "mad-sills" of the Nation began again to raise the National Flag in Beaufort and vicinity, South Carolina.

CHRISTMAS GIFTS FOR THE SOLDIERS.—The ladies of Rhode Island are preparing to send to each volunteer from that State, a Christmas gift of a pair of socks and mittens, the name of each soldier, with that of the company to which he belongs, to be attached to the articles.

LIBEL SUIT.—Mr. Edwin Forrest on Saturday commenced an action for libel against H. G. Parker, of the Boston Courier, basing it upon certain criticism which have appeared in the columns of that journal.

It is rumored that Senator Sumner will, at an early day, propose the repeal or modification of the Fugitive Slave Law.

50 YEARS PRACTICAL EXPERIENCE.

HOLLOWAY'S OINTMENT.—The universal sale of this Ointment and the universal favor with which it is uniformly received, conclusively its powerful efficacy on disease. During a period of fifty years it has stood the trying ordeal of the civilized world, and its popularity attests its marked superiority. The demand for it to day still continues unabated as ever—a fact so significant that further comment is unnecessary.

Skin Diseases. Erysipelas, Ringworm, Measles, Small Pox, Scarcitians, Rash, Itch, Cutaneous Eruptions, Itches, Pimples, Pastules, whether Scaly, Dry, Watery, Crusted or Matted, are quickly healed by the free use of this Balsamic Ointment. Its operation is materially assisted by taking Holloway's Purifying Pills, which exercise a powerful and healthy influence on the blood and secretions.

Diseases of the Throat and Chest. Diphtheria or Putrid Sore throat, Quinsy, Coughs, Colds, Hoarseness, Influenza, Catarrh, Asthma, Bronchitis, Tightness of the Chest, Pleurisy, &c., are the inflamed state of the gland of the throat and coatings of the chest. By rubbing the Ointment on the affected part, it is quickly absorbed and allays the irritation, cleanses the passages of the phlegm which obstructs them, thereby giving immediate freedom to the organs of respiration.

Lung Disease, External Ulcers. The extraordinary efficacy of this Balsamic Ointment on Old Sores, Bad Legs and Cancerous Ulcers, is frankly admitted by eminent medical men. By rubbing it on the back and chest it is quickly imbibed by the absorbents, and conveyed through the aid of the blood to the lungs where its antiseptic properties are equally as active on ulcerated tubercles as on external ulcers. Thousands have been cured of Incipient Consumption by a persevering use of Holloway's Pills and Ointment.

Rheumatism, Neuralgia, Gout. The excruciating agonies of Rheumatism, Lumbago and Sciatica, the crippling diseases of the Nerves and Muscles, the exquisite torture of Cramps, Gout, and contracted or Stiff Joints are quickly assuaged by local applications of the Ointment which soothes the irritability and relaxes the spasms. As these diseases, however originate in the acid state of the blood permanent relief can only be obtained by a liberal use of Holloway's Pills, in conjunction with the Ointment, to renovate the vital fluid of the humors which engender the disorders.

Both the Ointment and Pills should be used in the following cases: Bites of Mosquitoes, Bad Breasts, Burns, and Sand Piles, Bunions, Cancers, Chapped hands, Chiefo-foot, Piles, Glandular Swellings, Chillsains, Scalds, Elephantiasis, Coco-bay, Yaws, Sore nipples, Corns (soft), Tumors, Scabs, Scurvy, Fistulas, Wounds.

IMPORTANT CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK and LONDON," are discernible as a Water-mark in every leaf of the book of directions, around each pot or box.
