Marietta, La.

SATURDAY, JANUARY. 4, 1862.

Messrs. MATHER & ABBOTT, No. 335 Broadway, New-York, are duly authorized to act for us in soliciting advertisments, &c.

We are under many obligations to Gen. JOHN PATTON, M. C., from the Clearfield district, for a copy of Major Mordecai's Report of the Military Commission to Europe."

ONE OF CAMERON'S AGENTS:- Mr. Alexander Commings, who has been associated with the World since its commencement, resigns his connection with it in consequence of impaired health, growing out of the severe labor which has been incident to the establishment of a new journal. Mr. Cummings contemplates a visit to Europe. His many friends in this city and elsewhere confidently hope that entire relaxation and a brief sojourn abroad will restore him to his wonted health and vigor.

The above announcement is taken from the New York World. In view of certain awkward facts developed by the Van Wyck Investigating Committee, it strikes us that the Government should prevail upon Mr. Cummings not | continually. They have to provide their to take his departure for Europe, before explaining what became of the \$300,000 he drew from the fund placed at his disposal in New York; and also how it happened that he purchased provisions from a hardware firm; chartered a vessel that he never examined, and shipped to some unknown port a miscellaneous cargo of of Scotch ale, London porter, Philadelphia by invitation. "They tell straw hats, linen pantaloons, codfish and red herring.

OUR STATE AHRAD. In examining the list of troops raised by each State, as published in Secretary Cameron's Report, we observe, with pleasure, that, including the three months' service, Pennsylvania has raised the largest number of men, her whole quoto being about 114,000, while the next force is New York, with 110,000. Next to these come Ohio? 91,000; Thinois, 84,000, and Indiana, 62,000.

It is stated, that, when Slidell and Mason were seized on the Trent by Lieut. Fairfax, Slidell's pretty daughter slapped the Lieutenant in the face and then "bared her bosom in deflance of his sword." We apprehend that the motive of her last singular action has been misunderstood. We guess, that, having struck the handsome officer, she "bared her bosom" to his enraptured eyes to make him rich amends for the blow and charm away his resentment.

Gen. Wm. H. Keim, Surveyor Général of Pennsylvania, has been appointed and confirmed a Brigadier General in the Army. General Keim was in the three months service as Major General of Pennsylvania Volunteers, and was attached to Gen. Patterson's command. The position of Surveyor General vacated by Gen. Keim has been filled by Gov. Curtin, by the appointment of Henry Souther, Esq., late Senafor from Elk county.

Surgeon James C. Herndon, who arrived at New York with Gwin and Benham; after gaining all the information he could at Washington and elsewhere, made his way to Virginia by way of Port Tobacco. Much rejoicing was manifested on his arrival at Frederickssaid he took down a large correspondence and papers in abundance.

A telegraphic dispatch from New York, states that the Mexican government is issuing letters of marque, and that several are now held by parties in that city..... These letters grant the privilege of preying upon the commerce of England, France and Spain, which governments are about inaugurating a war upon the Mexicana.

Henry D. Souther, of Elk county, formerly a Senator from that district, has been appointed Surveyor General of the State for the newpired term of William H. Keim, who has accepted the appointment of Brigadier General in the United States Army.

It has now been officially ascertained that 224 horses were burnt in the recent fire at Washington city; out of the 1,500 horses let loose on the occasion they have all been recovered. except one hundred and fifty.

It is rumored that, since the corestopidence between Mr. Seward and Logichyons, several very harmoneous dinners have taken place. There is nothing like a good dinner to adjust that he exhibits alarming consumptive great differences between public men,

GIRARD COLLEGE.-The income from rents, etc., devoted to the maintenance of this institution has been diminished during the year by \$70,000, it having been found impossible in many instances to reut the properties, or collect the indeptedness of tenants. A more rigid economy in the administration of the institution has therefore been rendered necessary. A retrenchment of \$10,000 during the year has already been effected by the Committee on Girard Trusts, but this is still insufficient to preclude the posibility of embarrassment in the

SENATOR POLK .- The attention of the provest marshal has been called to the reported escape of Senator Trusten Polk from Washington city without a proper passport. A telegraphic dispatch has been sent to Washington to ascertain whether Polk has been there since the first of last month, and the answer will probably be in the affirmative. The most intimate friends of the family make no concealment now of the report that he left the city clandestinely in a buggy, and is at present safe in the southern confederacy.

RETIRING LIST.—On thursday the 12th bill was introduced into the Senate to promote the efficiency of the Navy, It provides for the retirement of officers who have been on the register forty-five years, and authorizes the President to select an officer from the grade of captain or commander, and assign him to the command of a squadron, with the rank of flag-officer.

THE UNION PRISONERS.—A letter from Col. Lee, dated at Richmond, says the cell in which he and the other hostages are confined is a small and damp appartment with cold air drawing through own beds, the rebels allowing only two coverlets to each bed. They are forbidden visitors and all communication with other prisoners.

A BULL TAKEN BY THE HORNS .- "Ab! I am very sorry for this rebellion; it prevents my going South," said an Englishman the other day dining at a club in me," he continued, "that the American gentlemen is only to be found at the South. How is that pray. Can you explain it?" "I cant't," replied his host; it is no more to be explained than the statement so often made that there are gentlemen in England, but that none of them ever come to this country.

A Horse Acrobat .- At Stephens, Maine, recently, a fine horse belonging to W. B. King, ran away and jumped from a wharf 22 feet into the St. Croix river. He had a sleigh attached to him. The tide was partly up, and after swimming about in the most approved style for a few minutes, the animal came round to the slip and was assisted on terra firma. Neither horse, sleigh, nor harness were injured.

SOMETHING FOR OUR FARMERS.—The Illinois Central Railroad Company are building eleven miles of corn-cribs along the line of the road twelve miles South of Chicago, This is a very large game cribbage. The capacity of this modern granary is 3,000,000, bushels! A good idea of the extent of Western farming may be gathered from this one fact.

The Government will be in receipt of at least 160,000 of the best quality of arms in the next 30 days, and by the 1st of January all the manufactories in the North will begin to deliver to the Government, and afterwards will be able to supply the wants of the army of the United States, if it was double its present number. This will close up business with the agents of foreign speculators who have been for months fattening on the Government, by the sale of inferior muskets.

The Post Office Department will rigidly enforce the law against counterfeiting the handwriting or frank of any person entitled to the franking privilege. burg, where his father resides. It is or causing the same to be done, in order to avoid the payment of the postage.-The penalty is a fine of \$500. Franks are being fraudulently used and sometimes forged and sold to soldiers and other persons.

in Bavaria, Clermont county, O., the boys who are too young to go to war have formed a company which they call "Sawbuck Rangers," the design being to saw the wood of those women whose husbands are in the war.

We understand that the President has been assured that the Legislature of Kentucky will soon emancipate all glaves in that State, reimbursing loyal men for losses sustained thereby.

Three hundred poisoned pies were given to the New-York Fifth Regbut the boys were warned by negroes mision as brigadier general. and foreswore pie.

During the last four years about seven hundred and fifty confirmed drunkards taken in at the Washington Home. in Boston, have been reformed and raised to respectable positions in society.

According to the Trieste Gazette. M. Koseuth is seriously ill; it is said CLIPPINGS FROM OUR EXCHANGES.

The Petroleum Oil business in Allegheny City is said to be immense. The wharves are crowded with it, and flatboats are constantly taking it away.-Numbers of refineries have been erected, but they cannot supply the oil equal to the demand. Crude oil is sold there at 15 cents per gallon, the refined oil 42 cents for the best qualities, prices which pay liberally. The oil production of Pennevivania, like its coal, is giving a source of wealth which will continually increase in extent.

In Sennet, about five miles from Auburn, N. Y., Mr. Reuben Weeks, on his return home, was charged by his wife with being intoxicated. The discussion became animated, when Mrs. Weeks went into the pantry after a cheeseknife, saying that they would settle their difficulties by a deadly fight. Weeks took a shot gun, and, as she returned with the knife in her hand, fired, wounding her fatally.

Vallandigham introduced a bill into the House of Representatives on Monday to enforce the writ of habeas corpus, and secure the liberty of citizens. His object is clearly to embarrass the Government in its efforts to restore the Union, and to play into the hands of the rebels, by having released the traitors now in custody. His turn to be expelled may come next.

The New York daily World, says "Mr. Alexander Cummings, who has been associated with The World since its commencement, resigns his connechealth, growing out of the severe labor | way to go." which has been incident to the establisment of a new journal. Mr. Cummings contemplates a visit to Europe.

An important treaty is said to be now before the Senate, to pay Mexico \$11,- piece. 000.000 with which to satisfy English and French creditors, leaving Spain to shift for herself-Mexico in return conceding to the Uniten States certain privileges. It is thought the treaty will be confirmed and sent at once to Vera

\*Antes Snyder, Esq., a civil engineer, who had had long service in Pennsylvania, died lately at Pottstown, and his remains were interred at Pottsville on Saturday last. Mr. Snyder was a son of the late Governor Simon Snyder, of this State. He was an able engineer and a most estimable gentleman.

Gen. Halleck is determined to visit apon persons guilty of bridge burning and railroad destroying in Missonri, the severest penalties. He will compel secessionists and their slaves to rebuild the same; and will put the expense on the town or county where they occur.

Major Slemmer has returned to Chicago from Western Virginia, where he had been for some time seriously ill.

The Pennsylvania Legislature will convene at Harrisburg on Tuesday, the symptons, and all seconds and the second of January.

THE DEBATING SOCIETY OF THE POTO-MAC.—It is reported that several regiments on the Potomac are putting up commodious cabins for holding meetings for intellectual improvement and discussion during the winter evenings .-We don't remember that history records any spectacle exactly like that-a huge army coolly resolving itself into a debating society in front of the enemy .-Nothing, however, could be more characteristic of the versatile Yankee nature; and we don't know but that, if the army be really going into winter quarters, it is the best thing our boys could do with their evenings.

Appointment of Judge of the Supreme COURT.—The Chicago Journal states up on what it considers good authority that President Lincoln has determined to appoint Hon. O. H. Browning now U. S. Senator from Illinois, to the National Supreme Court, in place of Judge McLean, deceased.

FRENCH'S CONICAL WASHING MACHINES The most simple durable convenient and eco nomical article ever invented for the purpose.
Will do the washing of an ordinary family before breakfast, not only saving time

but clothes.

By strictly following the printed directions, which are simple and easy, it will wash, at one time, six shirts, or two dozen small articles, in about six or seven minutes, or their equivalent. By all the ordinary methods of cleaning fine fabrics, such as laces, &c., the greatest care is required, while with this machine the most delicate articles can be washed without

the possibility of damage.

These results are produced by the constant reaction of the suds while the machine is in action. Families, laundries, botels, boarding houses,

hospitals, asylums, boarding schools, on ships and on steamers, and in the army, who have machines in use, have sent in their testimonials voluntarily, and the enconiums of the press are very numerous, some of which I have pub-lished in a neat pamphet form.

All I ask of the public is a careful examination of this machine before purchasing of others. General Depot, 419 Broadway, corner of

The Great National Banner of Intellect for American Hearts and Homes!

NEW YORK MERCURY.

A New Year with and old Friend.

N New Year's day of 1862, that worldrenowned and unrivaled gem of American journalism, the peerless New York Mercury, will enter upon the twenty-fourth year of the most brilliant career ever achieved by a paper. During the past year it has been the teacher, story-teller, mentor, and oracle of two hundred thousand American homes, from ocean to ocean—and from Quebeck, in Canada, to Penocean—and from Quebeck, in Canada, to Pen-socola, on the Gulf of Mexico. Young and old, rich and poor, have revealed in its en-chanting stores of wisdom, romance, art poe-try, and genial humor; and its praise is "Familiar in their mouths as household words."

The noble patriot-soldier in his tent, too, has wiled away the tedium of camp life in the absorbing review of its Forty Brilliant Columns. finding in them a fascinating mental discipline known only to those who rally to the Banner-

and Genius! In commencing a Yew Year, the proprietors of the New York Mercury can only say, that it shall be their aim to make their great family journal of American literature, for 1862, more journal of American literature, for 1862, more brilliant and enchanting than ever; in its concentration of all the world's grandest and most beautiful specialities in healthful Romance, graceful Poetry, elegant and quaint Gossip, refining Knowledge, sparkling Humor, and entertaining News—un'il, like love, it "——rules the court, the camp, the bower," as it already rules the happy domestic fireside. The editorial tone and National departments of The New York Mercury will continue true to that lofty spirit of patriotism which has made it a necessity of the people since the

to that lofty spirit of patriotism which has made it a necessity of the people since the War began, and kept it in enthusiastic demand when other sheets were dying all around it for want of popular support.

Already the largest Literary Journal in the world, and famous as the focus of a thousand brilliant literary reputations, its programme for 1862 will be magnificent beyond all precedent. The most celebrated pens of this country and Europe have been secured in its service, at an outley equal to the expense of service, at an outlay equal to the expense of more than one national government in the Old World! and its novelettes, or continued stores, for 1862, will be the most splendid To these, too, the magic pencil of the greatest of American Artists, Mr. Felix O. C. Darley, of American Artists, Mr. Feitx O. C. Darley, will lend the sid of pictorial art. Our story, initiary of the New Year, is a splendid national Romance, commencing in the New York Mercury of Saturday, January 4th, 1862, and entitled
