The most simple, durable, convenient and economical article ever invented for the purpose.

Will do the washing of an ordinary family before before breakfast, not only saving time By strictly following the printed directions, By strictly following the printed directions, which are simple and easy, it will wash, at one time, six shirts, or two dozen small atticles, in about six or seven minutes, or their equivalent. By all the ordinary methods of cleaning ine fabrics, such as lares, &c., the greatest care is required, while with this machine the most delicate, articles can be washed without

the possibility of damage.

These results are produced by the constant reaction of the suds while the machine is in l'amilies, laundries, hotels, boarding houses.

Families, laundries, hotels, boarding houses, hospitals, asylums, boarding schools, on ships and on steamers, and in the army, who have machines in use, have sent in their testimonials voluntarily; and the enconiums of the press are yery numerous, some of which I have published in a neat pampher form.

All I ask of the publicies a careful examination of this machine before purchasing of others. General Depot, 419 Broadway, corner of Canal street. New York.
