have used them longest. Dr. William B. Hurd is an eminent Dentist of Brooklyn, Treasurer of the New York State Dentists' Association, and these preparations have been used in his private practice for years, and no leading citizen of Brooklyn or Williamsburg, questions their excellence, while eminent Dentists of New York recommend them as the best known to the profession.— Without the sid of advertising, dealers have

sold them by the gross.

The Editor of the Brooklyn Daily Times
says:—"We are happy to know that our friend Dr. Hurd, is succeeding beyond all expecta-tions with his Mouth Wash and Tooth Pow-der. The great secret of his success rests with the fact that his articles are precisely what they are represented to be, as we can testify from their long use."

The well known P. T. Barnum writes.

"I found your Tooth Powder se good that my family have used it all up. We find it the best Powder for the Teeth that we ever used. I shall seel obliged if you will send me another supply at the Museum at your convenience, with bill."

But their cost is so small that every one may test the matter for himself.

Beware of the ordinary Tooth Powders. Dr. Hurd's Tooth Powder contains no acid nor alkali, nor charcoal, and polishes withou wearing the enamel. Use no other.

What will Dr. Hurd's Remedies Effect? Dr. Hurd's Mouth Wash and Tooth Powder will give young ladies that finest charm in woman—a sweet breath and pearly teeth.—

What are the People Doing!

What are the Feople Doing?

The American people are intelligent enough to appreciate preparations that contribute so much to the happiness of those using them, and they want them. Every mail brings us letters, some ordering the Treatise on Teeth, some the Neuralgio Plaster, and not a few enclosing 37, capts for the Mouth Wash, to be sent by mail; that to these we are compelled to reply that it as impossible to send a half-pint bottle by mail; "The people want these Remedies. Great Improvement in Sewing Machines.

Empire Shuttle Machine. Patented February 14th, 1860.

THIS Machine is constructed on an entirely new principal of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection Combined.

The following are the principal objections

urged against Sewing Machines:—
1.—Excessive fatigue to the operator.

2.—Liability to get out of order.
3.—Expense, trouble and loss of time in re paring.
4.—Incapacity to sew every discription of material. 5.—Disagreeable noise while in operation. The Empire. Sewing Machine is exempt

from all these objections. It has a straight needle perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither rip nor ravel, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen with threed from the converset to the finest. silk thread, from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

EMPHATICALLY A noisless MACHINE' It requires fifty per cent. less power to drive it than any other Machine in the market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and wonderful simplicity of construction, render it almost impossible to get out of order, and is guaranteed by the company

to give entire satisfaction.
