G FOR THE TIMES!! Great Improvement in Sewing Machines. Empire Shuttle Machine.

Patented February 14th, 1860.

Salesroom, 510 Broadway, New York. HIS Machine is constructed on an entirely new principal of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection Combined tion Combined. The following are the principal objections

irged against Sewing Machines

1.-Excessive fatigue to the operator. -Liability to get out of order 3.- Expense, frouble and loss of time in reparing.
4.—Incapacity to sew every discription of 5.—Disagreeable noise while in operation.

The Empire Sewing Machine is exempt from all these objections. It has a straight needle perpendicular action, makes the LOCK or SHUTTLE STITCH, which will neither rip not ravel, and is alike on both sides; perfoins perfect sewing on every description of material, from Leather to the innest Nansook Muslin, with cotton, linen silk thread, from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is EMPHATICALLY A noisless MACHINE!

It requires fifty per cent. less power to, drive it than any other Machine in the market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and wonderful simplicity of construction, render it almost impossible to get out of order, and is guaranteed by the company to give entire satisfaction.

We respectfully invite all those who may

desire to supply themselves with a superior article, to call and examine this unrivalled But in a more special manner do we solicit

PHILADELPHIA. This Institution, which was established in 1844, and is now consequently in the eight-eenth year of its existence, numbers among its graduates, hundreds of the most successful Merchants and Business Men in our Country.

The Object of the Institution is solely to

afford young men facilities for thorough preparations for business.

The Branches taught are, Book-keeping, as applicable to the various departments of trade; Pennmanship, both plain and ornamental; Commercial Low, Mathematics, Navigation, Civil Engineering, Drawing, Phonography, and Modern Languages.

The System of Instruction is peculiar; no

classes or set lessons are made use of, but each student is taught individually, so that he may commence at any time, and attend at whatever hours are most convenient.

Catalogues are issued annually after the 15th of April, containing names of the students for the year, and full particulars of terms, &c., and may be obtained at any time by addressing the District.
