Few could have expected, very truthfully says Forney's Press, two short months ago, when the Merrimac committed such frightful havoc among our wooded vessels in Hampton Roads, and when Northern cities were threatened by her exultant officers, that in a brief period she would be destroyed by her own crew to prevent from falling into the possession of a fleet to which she was no longer an object of dread. In nothing has the superior power of the North been this monster of the deep to shrink from a test of her boasted invincibility.

Lovejoy's bill to secure Freedom which passed Congress a few days since, is as follows: "That Slavery, or involuntary servitude, in all cases whatsoever except in punishment for crime, (where of the person shall be duly convicted,) shall henceforth cease, and be prohibited forever, in all the territories of the United States now exhisting, or hereafter to be formed or acquired in any way.

Gen. Hunter and Commodere Dupont, it is now evident, are about to pay their respects to the city of Charleston before the year grows much older. The capture of Buil's Bay, to the north of Charleston, and the taking of batteries. just below that city, which took place the other day, are signific ant of what is about to be done. THE SLAVES OF PREJUDICE.—There are queer people in the world; people with the most absurd, unreasonable, and indefensible prejudices. For example, we have met with individuals who had a morbid antipathy to anything that was extensively advertised, no matter what might be its actual claims to the confidence of the public. These eccentrics looked with especial disfavor on advertised medicines.
