The Cheapest and most durable Roofing in use. IT IS FIRE AND WATER PROOF.

It can be applied to new and old roofs of all kinds, steep or flat, and to Shingle Roofs without removing the Shingles.

The Cost is only about One-Third that of Tin, and it is TWICE as durable.

This article has been thoroughly tested in New York City and all parts of the United States, Canada, West Indies, and Central and South America.

It is the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect a Fire, Water, Weather and Time Proof covering for roofs of all kinds.

This is the only material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTTA PERCHA and INDIA RUBBER.

No heat is required in making application. The expense of applying it is trifling, as an ordinary Roof, can be covered and finished the same day.

It can be applied by any one, and when finished forms a perfectly Fire Proof surface with an elastic joint which cannot be injured by Heat, Cold or Storm.

Shrinking of Roof Boards, nor any external action whatever.

LIQUID GUTTA PERCHA CEMENT. For Coating Metals of all kinds when exposed to the Action of the Weather, and for Preserving and Repairing Metal Roofs of all kinds.

This is the only Composition known which will successfully resist extreme changes of all climates, for any length of time, when applied to metal, to which it adheres firmly, forming a body equal to three coats of ordinary paint, costs much less, and will last three times as long; and from its elasticity is not injured by the contraction and expansion of tin and other metal roofs, consequent upon sudden change of the weather.

It will not CRACK in cold or RUN in warm weather, and is NOT WASTED.

Leaky tin and other metal roofs can be repaired with Gutta Percha Cement, and prevented from further corrosion and leaking, thereby ensuring a perfectly water tight roof for many years.

This Cement is peculiarly adapted for the preservation of Iron Railings, Stoves, Ranges, Safes, Agricultural Implements, &c., also for general manufacturing use.

Gutta Percha Cement. For preserving and repairing Tin and other METAL ROOFS of every description, from its great elasticity, it is not injured by the contraction and expansion of Metals, and will not CRACK in cold or RUN in warm weather.

These materials are adapted to all climates, and we are prepared to supply orders from any part of the country, at short notice, for GUTTA PERCHA ROOFING in rolls, ready prepared for use, and Gutta Percha Cement in barrels, with full printed directions for application. AGENTS WANTED.

We will make liberal and satisfactory arrangements with responsible parties who would like to establish themselves in a lucrative and permanent business.

Our Terms are Cash. We can give abundant proof of all we claim in favor of our Improved Roofing Materials, having applied them to several thousand Roofs in New York City and vicinity.

At his request, and impelled by a desire to extend a knowledge of this remedy to the public, we have had his communication printed in pamphlet form for free distribution. GREAT IMPROVEMENT IN SEWING MACHINES.

Empire Shuttle Machine.

Patented February 14th, 1860.

Salesroom, 510 Broadway, New York.

This machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be Simplicity and Perfection Combined.

The following are the principal objections against Sewing Machines:— 1.—Excessive fatigue to the operator. 2.—Liability to get out of order. 3.—Expense, trouble and loss of time in repairing. 4.—Incapacity to sew every description of material. 5.—Disagreeable noise while in operation.

The Empire Sewing Machine is exempt from all these objections. It has a straight needle perpendicular action, makes a lock stitch, sews on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook Muslin, with cotton, linen silk thread, from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is EMPHATICALLY A noiseless MACHINE! It is superior to any other Sewing Machine to drive it than any other Machine in the market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and wonderful simplicity of construction, render it almost impossible to get out of order, and is guaranteed by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to call and examine this unrivaled Machine.

But in a more special manner do we solicit the patronage of Merchant Tailors, Dress Makers, Coat Makers, Vest Makers, Gaiter Fitters, Shirt and Bosom Makers, Hoop Skirt Manufacturers, &c. &c. Religious and Charitable Institutions will be liberally dealt with.

Price of MACHINES, Complete: No. 1, or Family Machine, \$45.00. No. 2, Small sized Manufacturing, \$60.00. No. 3, Large size Manufacturing, \$75.00.
