> UNION STATE NOMINATIONS. FOR AUDITOR GENERAL, THOMAS E. COCHRAN. OF YORK COUNTY. FOR SURVEYOR GENERAL, WM. S. ROSS, OF LUZERNE COUNTY.

- General Thomas Jefferson (Stonewall) Jackson was a classmate of Mc-Clellan at West Point, and commanded a regiment of volunteers in the Mexican war with credit. After the war he accepted the portfolio of professor at the Virginin Military Institute at Lexington around which place he recruited many of his troops. He is younger even than McClellan, and, in consequence of his youth, has not been made a full Major General, although he commands over thirty thousand men.
- In France, where conscription has been largely resorted to in different wars, the practice now is for the government to accept money from the drafted men instead of substitutes. The price required in such cases is \$480. We see it stated that it is also the practice of of the French Government to pay a bounty of \$440 to volunteers; but we presume this is in lieu of all other pay. The enlistmets are for seven years.
- Some milliner girls at work in a frame building raised upon blocks, at Danbury, Conn., were recently tumbled into a confused heap and lively screams elicited, by the struggles of an enraged cow. The animal got stuck under the building, and in her struggle to escape she tilted up the edifice and its contents first one way and then the other.
- Recruiting is going on more briskly than ever in every portion of the land and it is confidently believed that no general system of drafting will be necessary in many of the Northern States, if a little time is given or can be spared by the government. The people want to save the disadvantages of a draft if possible.
- A secret society of traitors has just been discovered in Indians. The United States Grand Jury of that district have the papers, and will lose no time in indicting these Knights of the Golden Circle, and meting out proper punishment to the scoundrals.
- Governor Sprague, of Rhode Island, has called for a regiment of loyal at the beginning of the year 1863, should blacks, which he promises to lead to the be eight hundred millions of dollars, it field. He conjures the blacks by the memory of the deeds of the black regiment in the Revolution, which was commanded by Washington.

- The Chicago Tribune comes out with seven columns and a half of names of absentees, from the Illinois regiments alone. The whole number we should estimate at about three thousand-about equal to three full regiments.
- At Philadelphia, on Wednesday, from 400 to 500 Rebel prisoners confined at Fort Delaware took the oath of allegiance. The Louisiana Tigers seemed especially anxicus to take the

The thing having been agreed upon, the Count came to America, enlisted himself in the service of the North, fought under Gen. McClellan, and gave up service Italy because the time appointed for their nuptials had come.
- It has often been asserted that the proportion of males to females born in time of war is considerably greater than during "the piping times of peace." This appears to be confirmed by the statistles of Providence, Rhode Island, in 1861, the number of masculines born having been 936, against 789 females-a difference of fully eighteen per cent.
- Capt. Spencer, United States army, son of Wm. A. Spencer, Esq., of Baltimore, has been arrested by General McClellan and sent to Fort Lafavette He threw down his sword and refused to do duty as soon as he heard of the arrest of his uncle, Judge Carmichael, of Maryland. - At the urgent request of the Goernor of Iowa, in order to reach evildisposed traitors who are discouraging enlistment, he was authorized by the Se. cretary of War to make a draft whenever he should think proper. Similar applications have been made by other Governors, and will probably be granted.

- On the 15th ultimo, late at night John Cochran, from Jefferson county, Pa., landed at the wharf at Gallapolis, on the Ohio, from a raft, his object beonly when pressed by his bride to go to | ing to obtain a newspaper. Not finding any at the wharf-boat, he passed up town to the news depot, and on his return was ordered to halt by the guard on duty at the square. It seemed Mr. Cochran was not aware of soldiers being located there, nor that he was the person addressed. Passing on without heeding the order, the guard fired, and the ball took effect just above the knee, severing the main artery. Every exertion was made by Captain Moulton and those present to save his life. Arrangements were made for his removal to the hospital, but before reaching it he died from loss of blood.
  - It is not certain that Beauregard is insane, and is at a watering place in Alabama. General Joe Johnston was wounded by a minie ball at the battle of Seven Pines very severely. The ball passed through the left breast, near the shoulder, going through the body, and running down the spine, lodging, and causing a terrible wound. Johnston is now suffering from the wound, and is not expected to recover. Magruder and Huger have both been releived of command, and the demigods of the Southern army are Lee, Hill, and Jackson. Gen. Lee was the favorite cavalry staff officer of Gen. Scott, who considered him the ablest afficer in our army at one time. He is a distinguished engineer, and, from this fact alone, it has been thought he would never be great as a
  - The Alton (Illinois) Telegraph states that thirty-five rebel prisoners who were confined at that place escaped on the night of the 25th. They had been carelessly watched for some time. Two or three have since been retaken.
  - The work on the new Monitors is progressing with more rapidity than the public are aware, and it will not be many days before another "cheese box" will be affoat. The great source of annoy. ance to those on board the Monitor now affoat is a lack of proper and sufficient ventilation, but in those now being built the difficulty will be ovorcome, and life will be more tolerable than in the

Mrs. Charles J. Faulkner, wife of the late United States Minister to France is one of the most dangerous and vicious Secessionists within our lines. She is bold, ambitious, and intrigning.
