FOR AUDITOR, JOHN STROHM, Jr., New-Providence.

Gen. Pope passed through Lancaster city on Monday last, en route for the west. He has been removed from his command on the Potomac at his own request, and returns to his old quarters in the west. A great many complaints are made against him for want of capacity and there is a general belief that he has been greatly over-rated. The Express says several hundred had collected at the depot and as the train drew in there was a general rush for the rear car, where it was understood that the General was to be found. He was seated on the rear platform of the conductor's car, and was immediately recognized by the crowd through his resemblance to the portraits which recently appeared in some of the illustrated papers. The crowd gave three cheers for the general, which soon brought him to his feet.—He spoke briefly as follows: Citizens of Lancaster: I thank you for your kind reception, and regret that I have no cheering news to tell you; but I still live in hope that Pennsylvania will not be invaded. The troops under my command fought well, and among them none fought better than the Pennsylvanians. We did all that men could do, but we were not supported as we should have been. The General bowed and retired, and the cars immediately started off amid much cheering by the crowd.

The report that the Government was short of arms is wholly groundless. The War Department with the providence and energy which marks its present management, has arms in readiness for all the troops which have so far been mustered into service; and its arrangements for the future ensure a full supply as more troops take the field. There is therefore no foundation for the reports that there is a scarcity of arms, and that the Department will therefore be forced to pay high prices.

Strange as it seems, it is no less true that Gen. McDowell, who lost the first battle of Bull Run, is charged with the loss of the second. It is said that he commenced the attack, not only with our orders, but against orders: and that it was owing to this premature movement that Gen. Pope's plans were disarranged, and his success frustrated. How true this is, actually, we know not; but such appears to be the conviction of the army.

Among the volunteers from the country who have tendered their services to Gen. Wallace for the defense of Cincinnati, is Jas. E. Mardoch, the actor, reader and elocutionist, who arrived armed and equipped, his son in arms and eager for the fray. Both of Mr. Mardoch's sons are in the army, and he feels qualified to serve his country by the occupancy of a rifle pit.

John C. Rives, the publisher of the Congressional Globe, has contributed \$14,000 to the raising and equipping of the first regiment of the District of Columbia. This looks like patriotism, to be imitated by rich all over the country. The President has appointed the Hon. Joseph Holt, of Kentucky, to be Provost Marshal of the United States, in accordance with the late act of Congress.

PEN, PASTE AND SCISSORS.

Gov. Thomas O. Moore, the chief magistrate of the State of Louisiana, made his appearance in Thibodaux, last week, on business. The moment the fact became known the people turned out to mob and murder him. Many people were armed. He begged for mercy; and but for four women, who surrounded him, he would have been shot. The people detest him on account of his cotton-burning and sugar-destroying order.

The Kentucky Central railroad has increased the rates of fare as follows: five cents per passenger on all fares of thirty cents and under two dollars, and ten cents per passenger on all fares of two dollars and over. The advance is made in accordance with the provisions of the general tax law, which authorizes railroad companies to increase their fare sufficient to include the tax levied.

II. Alexander, the color bearer of the Tenth N. Y. regiment, received three terrible wounds in the recent engagement, but clung to his colors with tenacious grasp. While being taken into the hospital he became insensible, and an attempt was made to take the flag away, but his unconscious hand held it more powerfully than before.

The St. Johnsbury Caledonian learns that as Dr. Bugbee, of Glover, was treating a person for diphtheria, and while in the act of eauterizing the throat of the patient, in the effort of coughing she threw up a piece of matter which lodged upon his hand. His hand soon became inflamed, the poison extended to his body, and he died in a few hours.

Archbishop Hughes, in his speech in Dublin, on the 23d of July, is reported to have said: "If the party that is, nominally called rebels—a term which I do not use in regard to them all—if that party shall triumph, then I shall transfer my allegiance to that party as the legitimate government of the United States."

The Provost Marshal General has emancipated two slaves belonging to John Hill, of Tennessee. The negroes had been employed by the Cumberland Iron Work Company, of which Mr. Hill is president.

A party in Portland, Me., have patented an invention by which they can burn kerosene oil in lanterns without any chimney. They can apply the apparatus to any lantern. It is simple and effective, and a good light is afforded at the usual cost.

Colonel Mulligan was released by Major General Wool, at New Creek, Va., August 27th. His temporary arrest was in consequence of non-compliance with orders which never reached him, and of which he knew nothing.

The Boston Traveler thinks that as "Philadelphia has raised a military fund of one million dollars, she loves her soldiers to some purpose, as becomes her name."

In consequence of the raise in raw material, the chandlers have advanced the price of rosin soap to six cents, and castile soap to eleven cents per pound also, mould and dipt candles to eleven cents per pound.

Governor Andrew and Governor Sprague have united in a request to the War Department that credit should be given their respective States in the draft for seaman who have enlisted in the naval service.

There are three different kinds of lint wanted for our wounded soldiers; one the common scraped lint, another of ravelings about three or four inches long laid smoothly together, and the third of ravelings cut into much shorter pieces.

The persons employed in the New York Methodist Book Concern have associated together to aid those of their number who may be drafted. Over twenty men have enlisted from the establishment since the war commenced.

Among the privates in the ranks of the 17th Connecticut regiments, is Elias Howe, Jr., the well known inventor of the sewing machine needle whose patent yields the princely income of a quarter of a million dollars annually.

A woman, with progeny numbering 505, has just died in England. Her name was Mrs. Jane Pinder, and she resided at Rudston. She was aged 95 and was mother of 12 children, and has left 71 grand children, 119 grand-grandchildren and 3 great-grand children.

There are 14,000 Indians in Minnesota, 3000 of which are Sioux. These only have been engaged in the late massacres, and their warriors do not probably exceed 80.

Hon. Jos. Holt has been appointed by the President Judge Advocate General of the army, with the rank of Col. He will enter upon his post without delay.

Miss Jane H. Shaw, of Bath, Maine, has been nominated by the Republicans of Sagadahoc, for Register of deeds.

The harness makers of Newark, N. J., employed on government work, have struck for higher wages.

Rosin, which a year ago brought one dollar and a half a barrel, is now selling for twenty dollars a barrel.

GENERAL McCLELLAN.—A correspondent of The Press, writing from Washington, says: "Major-General McClellan is making every preparation for a speedy resumption of hostilities. He has issued orders to the troops to prepare themselves for an instant advance upon the enemy, and, if we may judge by the signs and preparations around us, the few weeks to come will be as fruitful as any great, and I trust, more happy events than those just passed.— We have a great army—an army of veterans—disciplined, experienced, and eager to avenge the recent discomfiture to their arms. We have another great army in reserve, now coming from the North, and although not yet acquainted with the duties of the camp and the field, as brave and as earnest as their brothers who have fought on the Chickahominy, the Rapidan and the Rappahannock.— At all events, whatever the policy may be, rest assured that there will be no delay, no tardiness, no unnecessary waiting, no trifling with our enemy, or with the spirit of our people. Whatever McClellan may have done, even admitting that all the criticisms made upon him are just, he is again at the head of our armies. He has been placed there by the Administration and the chosen general of the Administration. He possesses the confidence of the soldiers. He is anxious to do his duty and retrieve his fame. Let us be silent and confiding. Let us hope and pray that he may re-do the past by making the future a bright and glorious page in the history of a regenerated and victorious Republic."

On Wednesday last eleven hundred paroled Union prisoners taken in the late battles, reached Washington. They say that our dead were stripped of their shirts before burial; also that the enemy at the time were so hungry that they rushed for the haversacks of our killed and wounded and devoured the contents with the greatest voracity. The rebel officers say they forbade the men to strip our dead but they disregarded the orders. Not a shoe was to be found on the Bull Run battle field after the battle. Naked bodies feet and all, was the first sight on going to the field.

Gen. McClellan having been charged by the President with the command of the fortifications and the army for the defence of Washington; he has assumed the chief command under Gen. Halleck. General McClellan having had constructed, under his own eye, most of the fortifications, and possessing superior engineering abilities, as well as a perfect knowledge of the topography of the district occupied by the rebel forces, is, in consequence, peculiarly adapted for this position.

The Bellows Falls Times states that a sad and distressing affair took place in Springfield, Vt., on Monday evening of last week, at Gould's Mills, some two miles below the village. The wife of Mr. Jackson Gould took her two children, a boy aged six years and little girl aged four years, and drowned herself and children. In the house on a stand was found a note, saying that herself and children would be found in the river.

The grog ration in the Navy agreeably to act of Congress, has been discontinued, and a money substitute awarded. How this will work is to be seen. We know the measure is decidedly disapproved by the high grade naval officers. They say that this ration never did the least injury, while it was always received with the greatest satisfaction by the sailors.

The pay of the volunteer militia called into State service will be the same pay and rations as the volunteers in the United States army while in active service, the pay, however, dating back only two days before they march.

John Ridgway, son of the late Jacob Ridgway of Philadelphia, now living in Paris, has sent one thousand dollars to the hospitals in Philadelphia.

Col. A. K. McClure has been appointed by President Assistant Adjutant General for special duty in Pennsylvania. He has the rank of Major.

Ex-U.S. Senator Polk has had his property, amounting to \$100,000, confiscated to the Federal Government. He has long since sided with the rebels.

It is said that in consideration of the number of volunteers furnished already by Kansas, the government will not order a draft in that State.

The board of assessors of St. Louis have determined to assess the secess officeholders of that city to the full amount of their salaries.

Ex-Governor Lowe has been appointed by Jeff Davis Provisional Governor of Maryland. Quere,—how long will it last?

A free negro regiment has been raised by Gen. Butler and is now encamped in Carrollton adjoining New Orleans.

Anthony Burns, of Fugitive Slave Law notoriety, died at St. Catharines, C. W., July 27th.

The rebels openly boast of being able to march to Baltimore, and thence to Harrisburg and Philadelphia, sweeping all before them. They say they have left enough behind them to look after McClellan and his army. They never want to rest until they have reached the Monumental city, and they then think they will be joined by enough sympathizers there to strengthen their army that it will be invincible.

The horrors of War can be greatly mitigated by that sovereign remedy, Holloway's Pills and Ointment, as it will cure any wound, however desperate, if it be well rubbed around the wounded parts, and they be kept thoroughly covered with it. A Pot of ointment should be in every man's knapsack. Only 25 cents per Pot.

In Baltimore, on Sunday the war news caused considerable excitement and the Police Board increased their police forces of the city by the addition of four hundred men. The military Provost Marshal also required all places where liquor was sold to be closed during the excitement.

RELATIVES OF THE BRAVE SOLDIERS & SAILORS. HOLLOWAY'S PILLS AND OINTMENT.—All who have Friends and Relatives in the Army or Navy, should take special care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better gift can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds affecting Troops. Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

Sick Headache and Want of Appetite Incidental to Soldiers.

These feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is wholesome, the disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well.—The Pills, taking according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness or Debility Induced by over Fatigue.

Will soon disappear by the use of these invaluable Pills, which will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and other morbid discharges, but it is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the acid humors from the system. This medicine will give tone and vigor to the whole organic system however debilitated, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

Volunteers Attention! Indiscretion of Youth.

Sores and Ulcers, Blisters and Swellings can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the former from the system and leave the Patients in vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

For Wounds either occasioned by the Bayonet, Sabre or the Bullet.

Sores or Bruises.

To which every Soldier and Sailor are liable, there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment.—The poor wounded Soldier, who is suffering might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then cover with a piece of linen from his knapsack and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation. Every Soldier's Knapsack and Seaman's Chest should be provided with these valuable Remedies.

IMPORTANT CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK and LONDON," are discernible as a Watermark in every leaf of the book of directions, and round each Pot or Box, the name may be plainly seen by holding the leaf to the light.—A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in Pots, at 25c. 62c. and \$1 each.

There is considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are on each Pot.
