STANTON'S PAY .- According to Mr. Chase's report to the Senate, Mr. E. M. Staton, the present Secretary of War, was paid \$30,715 for investigating certain government land titles in California. Of this large aum \$25,000 was paid him simply as a retaining fee.-This proves either that Mr. Stanton is a very great lawyer-greater than Webster, or Clay, or Choate-or else that he has had some very good friends at court whom his reputed honesty did not World.

To the above paragraph the Louisville Journal adds that it might very naturally be supposed, from the World's manner of stating the case, that the responsibility for this transaction rested upon the present administration. But twas all an affair of the Buchanan administration. Mr. Stanton was not at fault. He demanded \$25,000, as he had a right to do, as a retaining fee for going to California to attend to the Government business, and Buchanan & Co. paid or contracted to pay the money.

GEN. BUTLER'S ADMINISTRATION .- All sorts of reports come from New Orleans as to alleged malpractices under Gen. Butler's administration. One is that Gen. Banks had ordered the arrest of Gen. Butler's brother, who is said to have operated largely in behalf of himself and "Brother Ben" in New Orleans. Another statement is that Gen. Banks has seized on some bank accounts stand. officials, while he also grasped with a firm hand the evidence lying in various private hands which may lead to a great empt from the effects of the emancipawhich have been so freely circulated as of having their request granted. to improper financial transactions in General Butler's department. These rumors have, perhaps, had more to do with his removal than dissatisfaction at his energetic manner of dealing with the

WEST VIRGINIA .- President Lincoln has signed the bill admitting the new State West Virginia into the Union. There are now, therefore, thirty-five States in the Union, twenty-four of which are loyal. In each of the disloyal there is a large Union force, and their whole coast is blockaded by our fleets. The population of West Virginia is is about 350,000, of whom not more than 10,000 are slaves. These latter will un. doubtedly be emancipated before a great while, on the plan recommended by the President, and at a cost to the United States Treasury of not more than two or three millions of dollars. The old State of Virginia contains about 1,250,000 inhabitants, of whom about 450,000 are slaves and 50,000 free negroes.

A word of solemn conscientious advice to

those who will reflect. A class of maladies prevail to a fearful extent in the community, dooming at least 100, 000 youth of both sexes annually, to an early grave. Those diseases are very imperfectly understood. Their external manifestation, or symptoms are Nervous Debility Relaxation and Exhaustion; Marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on consumption of the tissues of the Whole Dody; shortness of breathing or hurried breathing on ascending a hill or flight of stairs; great palpitation of the Heart; Asthma, Bronchitis and sore Throat; shaking of the Hands and Limbs; aversion to society and to business or study; dimness of eyesight, loss of Memory, dizziness of the Head, Neuralgia, Pain in various parts of the body; Pains in the back or limbs, Lumbago, Dyspepsia or Indigestion, irregularity of the bowels, deranged secretions of the Kidneys and other glands of the body, as Leuchorrhær of Fleur Albus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now in ninety-nine cases out of every one hundred, all the above named disorders, and a host of others not named, as Consumption of the Lungs and that most insidious and wily form of Consumption of the Spinal Nerves, known as Tabes Dorsales, and Tabes mesenterica, have their seat and origin in diseases of the Pelvic Viscera. Hence the want of success on the part of old school practice in treating symptoms only.
