From the Army of the Cumberland.

NEAR ANDERSON STATION, A. L., Camp Dawson, Sept. 1, 1863.

Editor Mariettian. Sir:—The silence of nearly three months is broken this morning by a letter from the 79th Pennsylvania Volunteers. After many days and nights of weary marching through heat and cold, snow and rain, mud and dust, we have encamped for the second time in Alabama. Having marched three times across each of the States of Kentucky and Tennessee. The Cumberland mountains, whose lofty summits remind us of the fatigue experienced in crossing them more than a year ago, when General Negley shelled Chattanooga, confront us on every side. This being near the terminus of the mountains they branch off in a number of spots forming many valleys and coves, having various local names. In one of these we are at present encamped called by the beautiful name of Crow Valley. Ten miles south of this point is Stevenson, at which place the Nashville and Chattanooga railroad intersects the Memphis and Charleston. The black ruins of what was once a splendid passenger house, used by both roads, and a few time-worn frame buildings constitute the remnant place, whose citizens before the war read the daily papers of three of the most noted Southern cities. An unfinished earth-work plainly shows the rebels intended in their retreat to make a stand here, but thinking discretion the better part of valor, retired to the south bank of the river. The greater part of the army is encamped near the Tennessee river, in the vicinity of Bridgeport and Stevenson. The rebels picket closely the south side of the river at Bridgeport, while our troops picket the north side. During the last few days they have been firing on each other.—The pontoons are on hand and army stores are accumulating, and if the rebels are not watchful they will wake up some morning and find the yankees among them. General Rosecrans is daily in the saddle, carefully and minutely inspecting every branch of the service. A few days ago he, and staff, in company with General McCook, had his pontoons experiment with a pontoon in a creek; after filling it with some seventy men he had them ply the oars, thus practically demonstrating the number of men they could carry and their facilities of speed. After being satisfied with the abilities of the pontoons, he had them put up and take down a portable bridge that can easily and quickly be thrown across a stream where pontoons are not required. These men are practiced daily in order that they may become expert when the time comes to use them in the face of the enemy. When any disturbance occurs in the picket line, Gen. Rosecrans goes himself, and neither has an aid nor an orderly to accompany him. He is all vigilance, and to his care and watchfulness do we attribute the success of this army. Gen. Rosecrans, after a year's perseverance, has obtained authority to raise a force of mounted men. These troops will be effective in penetrating rebeldom, and justly have they been called by General Rosecrans the eyes of the army. It is expected that two brigades of this division will be mounted. The true soldier delights in activity, and after two years weary marching on foot the boys are elated with the idea of being mounted.

General A. Baird, who has succeeded General Rousseau in command of the 1st Division, was born in Washington county, Pennsylvania. He ranks as Major in the regular army, and stands high in military circles, and is beloved by all who know him. He was professor of natural philosophy at the Military Academy at West Point, previous to the rebellion; he was with General Morgan at Cumberland Gap, and participated in that famous retreat to the Ohio river. S. E. W.

The Patriotic Circle will meet on Friday evening next, at Mrs. George Radbill's.

The object of the exhibition is to bring out choice varieties and specimens of the products of the earth, to consult on the best modes of cultivation, to distribute choice seeds, and to induce the rejection of such varieties as are unprofitable to the grower and undesirable to the consumer. The invitation to attend is a general one; efforts will be made by the members to make the Exhibition one worthy of public patronage. Essays will be read and discussions held on Subjects of interest to all.

An admission fee of five cents will be charged.

HOLLOWAY'S PILLS AND OINTMENT.—All who have Friends and Relatives in the Army or Navy, should take special care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

CURERS AND COLDS AFFECTING TROOPS. Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box. Sick Headache and want of Appetite Incident to Soldiers!

Those feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well.—The Pills, taking according to the printed directions, will quickly and safely produce a natural consequence a clear head and good appetite. Weakness and debility induced by over Fatigue, Will soon disappear by the use of these innoxious Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly excited upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acid humors from the system. This medicine gives tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

VOUNTEERS ATTENTION! Sores and Ulcers, Blisters and Swellings can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the cause from the system and leave the Patients in vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

For Wounds either occasioned by the Bayonet Sabre or the Bullet, Sores or Bruises, To which every Soldier and Sailor are liable there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment.—The worst wounded and almost dying sufferer might have his wounds dressed in the most judicious manner, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then cover it with a piece of linen from his Knapsack and cover with a handkerchief.—Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation. Every Soldier's Knapsack and Seaman's Chest should be provided with these invaluable Remedies.

IMPORTANT CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK and LONDON," are discernible as a Water-mark in every leaf of the book of directions, though each pot or box the same may be plainly seen by holding the leaf to the light.—A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and in Medicine throughout the civilized world, in pots, at 25c. 62c. and \$1 each. N.B.—Directions for the guidance of patients in every disorder are affixed to each pot. The price is so considerable saving by taking the larger sizes. [Dec 25-ly]
