DEGENERACY OF

A TREATISE on the causes of early Physical decline of American people: The cause of Nervous Debility, Consumption and Marasmus. A word of solemn conscientious advice to

those who will reflect. A class of maladies prevail to a fearful ex-tent in the community, dooming at least 100,-200 youth of both sexes annually, to an early grave. Those diseases are very imperfectly understood. Their external manifestation, or symptoms are Nervous Debility Relaxation symptoms are Nervous Debility Relaxation and Exhaustion; Marasmus or wasting and consumption of the tissues of the whole body; shortness of breathing or hurried breathing on ascending a kill or flight of stairs; great palpitation of the Heart; Asthma, Bronchitis and sore Throat; shaking of the Hands and Limbs; aversion to society and to business or study; dimuess of eyesigh, loss of Memory, dizziness of the Head, Neuralgis, Pain in various parts of the body; Pains in the back or limbs, Lumbago, Dysnensia or Indigestion, prespikative of

Now in ninety-nine cases out of every one hundred, all the above named disorders, and a host of others not named, as Consumption of the Lungs and that most insidious and wily form of Consumption of the Spinal Nerves, known as Tabes Dorsales, and Tabes mesenterica, have their seat and origin in diseases of the Pelvic Viscera. Hence the want of success on the part of old school practices in treating symptoms only.

Dr. Andrew Stone, Physician to the Troy Lung and Hygienic Institution, is now engaged in treating this class of modern maladies with the most astonished success. The treatment adopted by the institution is new; it is based upon scientific principles, with new discovered remedies, without minerals or poisons. The facilities of cure are such that patients can be cured at their homes, in any part of the country. Form accurate descriptions of
