MARIETTA, PA.

SATURDAY, NOVEMBER 28, 1863.

Horrible Accident:—A fatal accident occurred at Gettysburg, on Friday, which should prove a warning against the handling of dangerous missiles.

The letter of the Hon. John Minor Botts, published in a Richmond paper, has at length made its appearance North. It is a startling protest against the iniquity and tyranny of the rebellion.

The Washington Chronicle, in alluding to the fact that President Lincoln rides in a two-horse carriage, while General Washington always used four horses ordinarily and six horses when he visited the capitol on business, adds what would people say, did President Lincoln do the same?

The pageant and display at Gettysburg, at the dedication of the National Cemetery was said to have been supremely grand. Mr. Everett's address was fine; the President made a short and pertinent speech; and the weather was beautiful; the military display was grand; the number of distinguished visitors large, and upon the whole, the affair was very fine.

Richard Busted, Esq., of New York, has been appointed by the President, United States Judge for the Southern District of Alabama. New Yorkers express great satisfaction with this appointment, as a deserved compliment to a Democrat who from the very commencement of our domestic troubles has zealously supported the Government.

Hon. Schuyler Colfax, of Indiana, is the prominent candidate for Speaker of the House of Representatives, and will doubtless be chosen. His known ability as a parliamentarian, and his universal urbanity upon the floor and in the Chair, have made all who know him his warm friends.

Mr. T. Smithson, a banker of Washington, has been convicted by a court-martial of having communicated information to the rebels, and has been sentenced to five years' imprisonment in the Albany, N. Y., penitentiary. The sentence has been approved by the President.

A despatch reports that General Butler, on being told that the rebel General Fitzhugh Lee enjoyed the liberty of Old Point, sharply expressed his disapproval of such a reprehensible courtesy. The next day Lee made a voyage to Fort Lafayette.

The notorious Andrews, one of the ringleaders in the New York riots, who was taken charge of by the General Government, and has been lodged at Fort Lafayette, has been handed over for trial to the State authorities.

The amount of the new fractional currency already issued amounts to more than \$100,000. The largest daily issue is \$10,000. There is no confirmation of the report that this currency, so sharply criticized in numerous quarters, will be withdrawn and a better article substituted.

It is said that some of the women who visit the camps wear gutta-percha breasts full of Old Bourbon. We guess they find the soldiers a sort of big babies not easily weaned.

Judge Agnew takes his seat on the bench of the Supreme Court of Pennsylvania, on the first Monday in December.

Gettysburg:—The circumstances attending the Dedication of the Great National Cemetery, at Gettysburg, took place, as previously announced, on Thursday of last week. The day was all that could have been desired. The ceremonies were opened in the morning by a grand military and civic display, under the command of Major-General Couch. The line of march was taken up at 10 o'clock, and the procession marched through the principal streets to the cemetery, where the military formed in line and saluted the President of the United States. At a quarter past 11 the head of the procession arrived at the main stand. The President and members of the Cabinet, together with the military and civic dignitaries, took positions on the stand. The President seated himself between Mr. Seward and Mr. Everett, after a reception marked with the respect and perfect silence due to the solemnity of the occasion, every man in the immense gathering uncovering on his appearance.

The military then formed in line, extending around the stand, area between the stand and military being occupied by civilians, comprising about fifteen thousand people, including men, women, and children. The attendance of ladies was quite large. The military escort comprised one squadron of cavalry, two batteries of artillery, and a regiment of infantry, which constitutes the regular funeral escort of honor for the highest officer in the service.

After the performance of a funeral dirge by the band, an eloquent prayer was delivered by Rev. Mr. Stockton.

Mr. Everett then commenced the delivery of his oration, which was an effort of great power and eloquence, and was listened to with marked attention throughout.

The stand was located on the highest point of ground on which the battle was fought. A long line of military surrounded the position taken by the immense multitude of people. So quiet were the people that every word uttered by the orator of the day, must have been heard by them all, notwithstanding the immensity of the concourse.

Among the distinguished persons on the platform were the following: Governors Bradford of Maryland, Curtin of Pennsylvania, Morton of Indiana, Seymour, of New York, Parker of New Jersey, and Tod of Ohio; ex-Governor Dennison, of Ohio; John Brough, Governor elect of Ohio; Charles Anderson, lieutenant governor of Ohio; Major-Generals Schenck, Stahl, Doubleday, and Couch; Brigadier General Gibbon, and Provost-Marshal General Fry.

SCANDAL IN ENGLAND:—The English journals are all excited over a divorce case which figures in their courts, the petitioner for the divorce being a clergyman, and the alleged offender against his domestic happiness the English premier, Lord Palmerston. As the "gay Lothario" is only 79 years of age—having been born in 1784—the discussions have a physical as well as a moral significance. It is due to his Lordship to say that he firmly denies the soft impeachment, and declares that it is only an attempt to extort money, which his plucky lordship will resist, as his father-in-law, Lord Melbourne, did in a similar case, which gained the then Attorney-General, Sir John, afterward Lord Campbell, great renown—the case of Norton vs. Melbourne.

A LIVING WOLF:—The English schooner Theodore, which arrived at Havre a few days since from Newcastle, picked up at sea, about ten miles from the English coast, a fine Newfoundland dog, which was standing on a piece of timber about two yards long, forming part of the wreck of some vessel, other portions of which were seen floating near. When the dog, which is a very fine animal, saw the schooner's boat approaching, it jumped into the water and swam to meet its deliverers. It has since evinced the greatest attachment to the captain.

That staunch, independent, high-toned old family journal, the German-town Telegraph, speaking of the recent decision of the Supreme Court of this State on the Conscripton law, says:—Judge Thompson has had his opinion printed in the Conscripton law case. It may be disposed of in a few words by saying that it is a very undignified paper false in principle and false in statement and assumption. It is simply the effect of a demagogue, who has no business to a seat upon the bench of the highest court of judicature in the State.

Henry Ward Beecher, who has just returned from a most successful visit to England, where he was received with the greatest enthusiasm in his great speeches in explanation of the Union cause at home has been invited by the Loyal National League to meet the citizens of New York, at the earliest practicable time, to give an address on topics of immediate interest connected with his European tour.

There are forty thousand negroes armed and in the service of the Government, and more are daily being added. Who dreamed five years ago that colored men and in such numbers, should ever be in the field as soldiers, fighting for Union and Liberty.

General News Items.

The Baltimore American warns the slaveholders of Maryland that their negroes, now of little use to them, will soon be of less, and advises them to club together to induce foreign emigrants to come into that State.

A Paris book-binder lately found twenty-six bank notes of one thousand francs each, between the leaves of a book left with him for repairs. The owner bought the book at a book stall for three sous, and did not know of the treasure.

At the late election at Springfield, Illinois, the home of President Lincoln, this hitherto stronghold of the Copperheads, was carried by the Union men with a Republican gain of 347 votes.

The rebel authorities in correspondence with our own at Fortress Monroe, deny that they are treating Captains Flynn and Sawyer in any way differently from any other Union prisoners held in Richmond, except that they are kept separate from their companions.

Mrs. Todd, of Kentucky, the mother of Mrs. Lincoln, arrived in Richmond on the 19th inst., from City Point, on the way to Georgia, on a visit to her daughter, Mrs. General Helm. The telegraph has announced the departure of that lady for Kentucky, through the Federal lines, by permission of General Grant.

At a factory in Portland Maine, nearly 1,000 bushels of potatoes are "concentrated" for the army every day. All the water is absorbed, leaving about five pounds of nutriment to the sixty pounds which a bushel of potatoes averages, and that concentration is ground up, giving it the appearance of Indian meal.

The War Department has ordered that printed lists of persons enrolled in each Congressional District shall be made and posted where the people can see them, for the purpose of insuring an accurate register. Exempts who find their name in the list may apply at once for relief.

It is stated that the Hon. Thomas Guthrie, Ex-Secretary of the Treasury, will be elected United States Senator from Kentucky to succeed L. W. Powell, the present incumbent. The election occurs this winter.

Stephen Whistmore, Esq., of Perryburg, Ohio, an old man of 72, was on his death-bed at the time of the late election, but was earnest to vote once more for the Union cause. On learning this, the judges of the election, took the ballot box to his bedside, and for the last time he voted for the Union and for freedom.

The famous New York Excelsior Brigade, now commanded by Colonel Wm. R. Brewster, has offered to re-enlist for three years, after the expiration of its present term, on condition of being allowed the privilege of re-organizing as mounted infantry, and returning to New York for the period of sixty days to recruit.

The first public free school for colored children was opened in Washington city on Monday last.

The Soldiers True Friend Always Ready.

HOLLOWAY'S OINTMENT.—Long marches, sore and stiff joints, blistered and inflamed feet, all these the Soldiers must endure. Mothers, REMEMBER THIS, when your sons are grasping their muskets to meet danger, think what relief a single pot of the GREAT HEALING & CURE THE GREAT SALVE will do to you one you love who far away from home and friends. It hardens and makes tough the feet so that they can endure great fatigue. It soothes and relieves the inflamed and stiffened joints, leaving them supple, strong and vigorous. You cannot put into the Knapsacks of your husbands and brothers, a more valuable or more necessary gift than a supply of this.

Extraordinary Military Salve. The lonely sentry walking in the rain and chilled at night, is often seized with most violent RHEUMATISM, Cough and suffocating Hoarseness, first symptoms of quick consumption. But if supplied with Holloway's Pills and Ointment, all danger is averted, and the Ointment will rubbed twice a day over the throat and chest will remove the severest pains and stop the most distressing or dangerous cough. Therefore we say to the whole Army

SOLDIERS ATTENTION!

See to your own health, do not trust to the Army supplies, although most valuable. These Pills and Ointment have been thoroughly tested, they are the only remedies in the European Camps and Barracks, for over forty years Doctor Holloway has supplied all the Armies in Europe, and during the Crimean Campaign he established a depot at Balaklava, for the exclusive sale of these Great Remedies. Many a time his special Agent there has sold over a ton in weight of the Ointment in a single day. These terrible and fatal enemies of the SOLDIER IN CAMP.

Do not let these brave men perish by disease place in their hands these Precious Remedies that will enable them to resist the dangerous exposures, the Fevers, the Cholera and the wounds which they cannot avoid, and what is more, cannot frequently get succor in the moment of need, whereas if our brave men have only to put their hands into their Knapsacks and find there the sure remedy for all the casualties of the battle field. How many thousands of lives would this be saved who would otherwise perish before relief could be obtained.

IMPORTANT CAUTION!—None are genuine unless the words "Holloway, New York and London," are discernible as a Water-mark in every leaf of the book of directions around each pot and box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any individual who sends information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
