**THE NEW FRACTIONAL CURRENCY.**—The statement that the new fractional currency is to be withdrawn, is incorrect. On the contrary, the issue which has already begun will continue as fast as the notes can be prepared. Some of the objections which have been made to it are unfounded; and although it may be admitted that it is not handsome, it is believed that it offers special security against counterfeiting, particularly by the dangerous processes of photography. The bronze ring or seal on the face of the fractional notes, which has been criticised as an unsuccessful attempt at ornament, is put on with no view to that design, but solely to prevent counterfeiting by photography. It is the mark of a yellow mordant which bites into the very substance of the note, afterwards bronzed, but always yellow, and which, like all yellows, must inevitably appear as black in a photograph.

The same effect will be produced even after the bronze is worn off, when the yellow basis of the ring will appear. The denomination of each note is printed with a similar mordant, in outline letters, furnishing an additional protection against counterfeiting. The faces of all the notes are printed in black, and the backs in different colors, according to the denomination. The fifty cent pieces have red back, the twenty-fives purple, the tens green and the fives tan color. The paper is of a peculiar manufacture, remarkably heavy, and it is believed that it will be readily distinguished from other paper by the touch.

The Governor has appointed Hon. Lawrence L. McGiffin, of Lawrence county, President Judge of the Seventeenth Judicial District, to fill the vacancy occasioned by the election of Judge Agnew to the Supreme Bench. The agent of the State in the Department of the Southwest having been compelled to return home in consequence of ill health, the Governor has despatched Hon. Wm. M. Francis, of Lawrence county, to Chattanooga, to look after the sick and wounded Pennsylvanians. He will be followed on Monday by Surgeon General King. Agents of the State will also shortly be sent to Morris Island, Key West and North Carolina, to look after the welfare of Pennsylvania troops on the southern coast.

A Chattanooga correspondent, writing on the 3rd, says: "A rebel deserter came in yesterday, and reports that our dead are still buried on the battle-field of Chickamauga. He was one of those appointed to gather up the arms, balls, clothes, and other debris of the fight, but was compelled to abandon the work on account of the unbearable stench arising from the decomposing bodies of our fallen brothers and sons. He saw several lying where the wagon hourly passed over them."

Miss E. M. Goldborough, Miss Nannie, Miss Virginia and Miss Julia Legum, of Baltimore, were arrested on Saturday, in that city, by the military authorities, charged with being disloyal, and sent to Fortress Monroe, whence they will be taken inside of the rebel lines, not to return North during the war, on pain of being tried as rebel spies.

A few days since, a lot of negroes collected at the Richmond gas-works for religious purposes. They were captured by the police, who took forty-three into custody, and after a hearing before Judge Obandler, each man received ten lashes. This item may be commended to the attention of Bishop Hopkins, the apologist of slavery.

The new fractional notes have upon the face a faint oval ring of bronze encircling the vignette. Upon being asked its use, Mr. Chase said: "It was a faint attempt on the part of Mr. Clark to give the new currency a metallic ring."

Mrs. Jane M. Pierce, wife of ex-President Pierce, died in Andover, Mass., on Wednesday last. She had been in very feeble health for several years.

Four bears were killed last week, in Blair county. They were discovered taking a walk along the turnpike, in the vicinity of a dwelling house.

It is affirmed that no less than five attempts at negro insurrection have been made in Georgia since the month of July last.

It is stated that the venerable father of General Grant is the owner of several thousand acres of land.

General Banks has taken Brownsville, Corpus Christi and Brazos Island, Texas. The work goes bravely on.

**PROFITABLE INVESTMENTS.**—The Philadelphia North American gives some excellent advice to those who wish to invest money. It is well for all who are in funds to heed the counsel:—"Though money has been temporarily scarce, capital continues abundant; and the recent tumble in the stock market has brought capitalists to a realizing sense of the unreliable character of many of the securities dealt in. It is greatly to the credit of the Government that its loans, of all the securities daily dealt in on the market, have maintained their integrity of price better than almost anything else. Its Five-Twenty year of six per cent. loan, the interest on which is promptly paid in gold, has been subscribed to all through the pressure in the money market, at an average of more than two millions per day. And what is not the least gratifying fact in connection with the daily large subscriptions to this popular loan, scarcely any of it is returned to the market for sale. It is taken for investment, and is held with unflinching confidence in its reliability. And why should it not be? It is seen that the Government now, after two years of the most gigantic war that the world has ever known, experiences no difficulty in commanding the necessary means to prosecute it, or in paying regularly the interest in gold as it falls due. If this can be done while the war is being waged, who can anticipate any difficulty in readily accomplishing it when the war shall be ended? What better investment then, for capital, than the 'Five-Twenty' Government loan? But if any doubt, let him refer to the statistics furnished by the census tables of the various nations of the world. The facts which they present will prove the most satisfactory mode of dispelling the numberless gloomy apprehensions which are being continually conjured up by those who are disposed to exaggerate the extent of the calamity occasioned by our rebellion. A reference to the state of most of the prosperous nations of the old world clearly disproves such a position, and shows that the highest conditions of national advancement have not been materially affected by the extended wars in which those nations have been immemorably engaged, and that a heavy national indebtedness has not proved an unmitigated evil."

"For instance, Great Britain, France and the Netherlands will undoubtedly be conceded to represent the highest prosperity that has been attained by any of the European nations. And yet no nations have been called upon to endure fiercer or more prolonged wars, domestic and foreign, than they. The effect has been, unquestionably, to incur an enormous national indebtedness; but neither their wars nor their indebtedness have had the effect to destroy their elasticity, nor to check the progress of their general prosperity. The result would have been different, probably, if these nations had been falling into decay, instead of being, as they really were, in a state of development; and in this respect their case resembles our own, with enormous advantages in our favor. These nations, while undergoing the trials of war, were oppressed by the evils of an immense exodus of their people, caused by the density of their population, the impossibility to provide occupation for them, the low price of labor, and the scarcity of territory. Compared with our own country, they possessed slight room for future development; they were settled in every part, and no vast territory lay invitingly open to encourage enterprise and settlement. Their great problem has ever been what to do with their surplus population, which, in its turn, has sought new fields for adventure and self-support in countries like our own, where an illimitable territory waits to be developed, and where incalculable resources invite industry and energy. The encouragement to be derived from these facts and comparisons of circumstances is very great, and to the mind of any dispassionate reasoner is conclusive that the course of this great country is onward and upward, and that its credit will live unimpaired to the end."

The tobacco crop of 1863 is larger than that of last year by nearly fifty millions of pounds, although the frost in the Western States was very injurious to it. But one-half of the crop there had been gathered before the frost of October 18th, and seventy-five per cent. more ground had been planted than in 1862.

A police officer of Louisville arrested two of Morgan's captains, R. Sheldon and R. B. Taylor, who escaped with him from Columbus. They were found about six miles east of Louisville and were placed in the county jail. Morgan himself is not in Canada as reported.

The Muscatine (Iowa) Journal says: "Cedar river is said to be literally swarming with wild geese. Cornfields are devastated, and people living in the bottoms declare that it is almost impossible to sleep, so annoying is their wild and discordant music."

Resolutions have been proposed in the Missouri Legislature to instruct Senators and Representatives to vote for an amendment to the Constitution forever prohibiting slavery in the United States.

## General News Items.

**Brigadier General Robert Anderson,** the hero of Sumter, has been placed upon the retiring list by the President of the United States, upon the recommendation of the Retiring Board. The retirement of Gen. Anderson is understood to be in entire concurrence with his wishes, as the health of the great soldier has long been such as to necessitate his seeking a condition of permanent repose.

The Washington Star announces that the difficulty about the exchange of prisoners grows almost wholly out of the refusal, on the part of the rebels, to exchange the negro soldiers and their officers, or to say whether they are still alive or have been murdered.

A tub of pickled feet (of Chinese ladies) has been received at the Hunterian Museum, London. They show the effects of the Chinese system of compression—in one case the outer toes are actually doubled under the sole, making the foot only four and a half inches long, and other strange deformities are seen in all the specimens.

It is stated by manufacturers of artificial wooden limbs, that they make eight left legs for soldiers to two right, and about the same proportion of right arms to left ones, showing that about four times as many lose their left legs as right, and four right arms to one left.

Mrs. Agnes B. Allen, widely celebrated as the relative of Ethan Allen, of revolutionary fame, and the possessor of the sword of the old hero—a sword with which the British commandant at Ticonderoga was menaced and compelled to surrender, "in the name of the Great Jehovah and the Continental Congress"—died suddenly at Lamont, Michigan, on Tuesday of last week.

The richest individual in England is the Marquis of Westminster, whose daily income is estimated at \$5,000. The Rothschilds, four of them, are the richest house in Europe, and their income is estimated at nine millions a year, or a thousand dollars an hour.

National Banks on Secretary Chase's plan, are starting all over the country. They are based on U. S. Stocks, so that if the banks break, the holders of notes are not swindled. The Copperheads are down on them, and pronounce them unconstitutional, but the masses of the people will sustain them nevertheless.

There are 2,800 men employed at the Springfield Arsenal, who complete 900 muskets daily. There are in the Arsenal 133,000 pieces stored, of which 40,000 are kept boxed ready to be sent away.

The rebels say they have almost nothing wherewith to feed the Union prisoners at Richmond, yet the Common Council of that city have just voted \$60,000 to buy a house for Gen. Lee.

An old lady named Mrs. Miller, aged between eighty and ninety years, died last week, in Pottsgrove township, Montgomery county, in whose bed was found, carefully sewed up, one hundred dollars in gold, and a considerable quantity of silver.

Mrs. Dow, widow of the famous Lorenzo, died a few days ago at Montville, Conn., leaving this singular will: "She leaves the whole of her estate (\$6,000) to the town of Montville, for the purpose of building four stone arch bridges in specified places in the town." The town, in public meeting, has refused to accept the gift, and the amount goes to her heirs-at-law.

On Wednesday night, the 18th ult., an old gentleman named Ira Gay, in returning home through the streets of Keene, N. H., stumbled head downward into a post hole, dug by the side of the street where premises were undergoing repairs. Unable to extricate himself, he was not discovered until daylight, when he was quite dead.

A pure white deer was recently shot in Minnesota. It is a pure milk white, with pink eyes and hoofs, and has not a spot of any other color on its hide. It weighs seventy-five pounds, and is about a year old.

Whisky in Richmond is a dollar and fifty cents a drink. A man is as proud of being drunk there as ever an old fellow was of having the gout.

A coal operator in Carbon has sold his lease on some lands there, with the machinery thereon, for seven hundred thousand dollars. A few years ago the same operator was bankrupt.

A \$3000 sword, designed for General Hooker, is on exhibition in New York. It is the gift of his California friends, and is resplendent with gold and jewels.

Private advices from New Orleans state that, up to Nov. 15, half a million dollars had been subscribed toward the capital of a National bank.

In 1862, 30,000 pounds of opium were imported into this country. Opium eating is fearfully on the increase.

It is said that the new and mean post is not to be recalled, but that issues are daily going on.

Major General Schenck has resigned in the army, to take a seat in Congress.

**IDENTITY ASCERTAINED.**—The identity of the dead soldier who was found on the bloody field of Gettysburg, with the picture of his three pretty little children tightly clasped in his hands, has been ascertained within a day or two. The wide publicity given to the touching circumstance through the medium of the press produced the desired result. The name of the deceased was Hummerton, and his widow and three children reside at Portville, Cattergna county, New York. Large numbers of photographic copies of the picture upon which the dying eyes of the warrior-father closed, have been sold, and the profits realized from their sale will be appropriated to the benefit of the children. It is hoped that a sufficient sum may be realized in this way and by future sales to aid materially in the education of the little ones who were made orphans at Gettysburg.

**NEW DEPOT.**—The freight depot for the Pennsylvania Railroad Company, which is being erected at Sixteenth and Market streets, Philadelphia, will be one of the largest of the kind in the country. It will have a front on Market street of 214 feet, and a depth on Sixteenth street of 306 feet, extending to Filbert street. The Market street front will be ornamented with iron columns, and the structure will be of the most substantial character. Six tracks will enter the depot from Market street, two single and two double ones. The cellars will be used for the storage of goods. The work is now progressing, and will be finished, if the weather will admit of it, in a few months.

**FATAL SPORT.**—Early in last September a party of six men, with whom Michael Donovan was drinking, in Baltimore, secretly poured some Croton oil in a bottle of porter, which Donovan drank. From that time the man suffered severely from the effects of the oil, and died on Saturday. All the men concerned in drugging the porter were arrested on Tuesday, and committed to await the action of the Grand Jury. In "playing a trick" on a companion, they have caused his death, and exposed themselves to a trial for homicide. Such fun the law will probably punish as crime.

The St. Paul Press says: "Eighteen boxes containing specimens of animals, collected by some naturalist in the Red River country, passed through the city yesterday, directed to the Smithsonian Institute. In the same lot was a moose-head and horns, weighing 56 pounds, a most elegant specimen; also a buffalo head, weight, 35 pounds; two elk (or red deer) heads and antlers, weight, 38 pounds. They were directed to the 'King of Italy,' and sent to him thro' the American Express Company."

The United States authorities seem to be determined to put an end to the frauds committed upon the soldiers. They have just had a coffee contractor tried for delivering an article inferior to his contract, and sent him, after sentence, to the Albany Penitentiary for five years. The Shoddyites had better take the hint, and be satisfied with honest gains. A few lessons like this may tend to convince them that honesty is the best policy.

Gen. Leslie Coombs, of Kentucky, having insinuated in a recent communication to the Louisville Journal, that "General Carl Shurz, and his 'gang of freedom-shriekers,' fled at Chancellorsville." Gen. Shurz, in a letter to the same paper says that Gen. Coombs lies, and challenges him to a contest of personal bravery on the next battle-field against the Rebels. This would be much better than a hand-to-hand conflict between the two belligerents.

Dick Basteek, of New York, who has been appointed to succeed Judge Lane as Judge of the Alabama District, has led an eventful life. He was originally a journeyman printer, then studied law, then became corporation counsel, then a Brigadier-General, and now assumes the ermine. Those who know Mr. Basteek best say that a very good compositor was lost when he left the case.

The Russian Admiral and his fleet have gone to Fortress Monroe to put into winter quarters. The Admiral declined the use of the Brooklyn Navy Yard, on the ground that the anchorage at Monroe will be safer and better, and he will be able to keep his officers on shipboard, which is now impossible.

The Cecil Democrat says that several farmers in Queen Anne county, Maryland, having lost their slaves, have sent to Germany for a ship load of emigrants. The number of free negroes in the neighborhood is too small to make good the loss in slaves.

The resignation of Chief Justice Taney and Secretary Chase are stated by a Copperhead newspaper to be in the hands of the President, the present Secretary of the Treasury to become Chief Justice after the assembling of Congress.

A speech delivered by Robert Toombs before the Georgia Legislature attacks the rebel Administration in its ruinous currency system, and its tyrannous impressments.

A telegram announces the arrival of the escaped Gen. Morgan in Toronto, Canada. The circumstances of his escape, by cutting and digging under the prison, have the usual character of adventure which belongs to this somewhat romantic outlaw. A letter left by the brickmason of Morgan's fugitive party, states that it took sixteen days, with a couple of small knives, and three hours' work per day, for the band to effect their escape.

## Friends &amp; Relatives of the Soldiers &amp; Sailors.

**HOLLOWAY'S PILLS AND OINTMENT.**—All who have Friends and Relatives in the Army or Navy, should take special care that they be supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

**COUGHS AND COLDS AFFECTING TROOPS.** Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

**Sick Headache and want of Appetite Incident to Soldiers!** Those feelings which so sadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever comes to hand, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well. The Pills, taken according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite. **Weakness and debility induced by over Fatigue.** Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either constipated or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acid humors from the system. This medicine will give tone and vigor to the whole system, however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the bowels so sure as this famous medicine.

**VOLUNTEERS' ATTENTION!** Sores and Ulcers, Blotches and Swellings can with certainty be radically cured if the Pills are taken, night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the former from the system and leave the Patients in vigorous and healthy man. It will require a little perseverance in bad cases to insure a cure.

**For Wounds either occasioned by the Bayonet, Sabre or the Bullet, Sores or Bruises.** To which every Soldier and Sailor are liable there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment. The poor wounded and almost dying sufferer must have by holding the leaf to his chest, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then cover it with a piece of linen from his knapsack, and compressed with a handkerchief. Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation.

Every Soldier's Knapsack and Seaman's Chest should be provided with these invaluable Remedies. **IMPORTANT CAUTION!**—None are genuine unless the words "HOLLOWAY, NEW YORK and LONDON," are discernible as a Water-mark in every leaf of the book of directions, around each pot or box; the same may be proved by holding the leaf to the light. A handsome reward will be given to any person rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

\*Sold at the Manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots at 25c, 50c, and \$1 each. **N.B.**—Directions for the guidance of patients in every disorder are affixed to each pot. **There is considerable saving by taking the larger sizes.** (Dec 20-ly) **For Sent in my well known medicines can have SHOW CARDS, CIRCULARS, &c., sent them, FREE OF EXPENSE, by addressing** THOMAS HOLLOWAY, 80 Maiden Lane, New-York.

Have been sold in its native town, and not a single instance of its failure is known. We have, in our possession, any quantity of certificates, some of them from eminent physicians, who have used it in their practice, and given it the pre-eminence over any other compound. It does not dry up a Cough, but loosens it, so as to enable the patient

## TO EXPECTORATE FREELY.

Two or three doses will invariably cure tickling in the throat.

A Half Bottle has often completely cured the

MOST STUBBORN COUGH,

and yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste and may be administered to children of any age. In cases of Croup use with guarantee a cure, if taken in season. **NO FAMILY should be without it.** It is within the reach of all, the

PRICE BEING ONLY 25 CENTS.

And if an investment and a thorough trial does not "back up" the above statement, the money will be refunded. We say this knowing its merits and feeling confident that one trial will secure for it a home in every household. **DO NOT waste away with Coughing,** when so small an investment will cure you. It may be had of any respectable druggist, who will furnish you with a circular of genuine certificates of cures if it is made.
