MARIETTA, PA: SATURDAY, DECEMBER 26, 1863.

A letter received from an officer of the blockading-fleet off Charleston, says that the shells from Gilmore's batteries on Morris Island are thrown into the western suburbs of Charleston, and, by the ard of a glass, the locality and effect of their explosion are easily discerned. Deserters say that the city is almostiabandoned, but few persons except soldiers remaining in the place.-The stores are all closed and the goods removed. The Mills House, one of the principal hotels there, has already been struck three times by our shells. The house, io consequence, has been closed. Divine service in the churches was suspended some weeks since. The poorer classes, who have been driven out of their homes by our fire, have erected temporary habitations three or four miles back of the city, to escape its coming doom. Destitation prevails .-Half-rations are issued daily to the poor by the robel commissaries.

Hon. Reverdy Johnson, of Maryland, in a speech to the U. S. Senate on Tuesday of last week, took decided Anti-Slavery grounds. In the course of his remarks be said :

"It would be disgraceful if, after the employment of colored men to defend its existence, this Government should permit them to return to slavery. He thanked God they never could be reenslaved. It gave him pleasure to remember that when he formerly had the holor of occupying a seat on this floor. in 1847, he declared in a debate upon the subject of slavery, that it was wrong especially economically, slavery was inwere rapidly becoming wiser on this suffect."

When a Senator representing a Slave State speaks thus, is it not a scandal and a shame to see the accursed institution backed up by Northern Copperhe THE THE CASE

The latest from Washington is that the whole subject of the exchange of prisoners has been placed in the hands of Major General Butler, and that he exploits to presume the exchange, man forman until the fifteen thousand Union soldiers now held in captivity are giwh up. attax said that we now hold fortgefive thousand rebel prisoners in our possession, and will have a large turplus, after all the Union prisoners have lieds exchanged, which will be retained: Was agree with the Philadelphis Bulletin that in making these exchangemour Government will insist uponathe rebels delivering up colored soldiemund the white officers of colored regiments, now in their hands, the same at other troops. The best results are anticipated from this arrangement, and it is expected to deliver thousands of our prisoners from the horrors of rebel dungeongs rerusific test

Senator Bayard, of Delaware, never having taken the anti-rebellion oath required by the last session, was informally reminded of that fact by the Vice President on Monday, and requested to say whether he was prepared to take it. He replied in the negative, adding that if the Senate, by a formal vote, required him to take it, he should The question will probably be brought up, and there is no doubt that if he keeps his promise free Delaware will have a more fitting representative for the next six years than he.

On Thursday two hundred and six makel prisoners confined in the Old Capitol were sent to Philadelphia to take the wath of all egiance and be discharged. On Saturday morning two hundred and twelve more were sent to that city for the same purpose. There arecsome one hundred rebel deserters in the Old Capitol at the present time, who will probably take the oath of allegian co. 3. The prisons -Old Capitol and Catrolle-contain, at the present time nearly bne thousand prisoners of war.

During the month of November there were coined at the U.S. Mint at Philadelphia four millions three hunhred and twenty thousand, five hundred and fifty-three pieces. In the face of this fact, and the notorious scarcity of cents, in circulation, the question may be well asked, "where are all the cents?" Being depreciated below their nominal value they are not exported; and conside in what a nuisance their abundaste will before the suspension of speciersayments, and their immense coinagedeince, if is a general wonder where theough can be hid.

The Virginia Legislature was in session at Alexandria, and passed a bill calling a Convention, for the abolition of slavery in the State. It is to assemble on the 13th of July next.

EUROPEAN AFFAIRS .- The affairs of 1 Europe are becoming complicated .to be heir-presumptive,-though the Danish Legislature took two years to consent to the nomination. FEMALE SMUGGLERS: - The provost marshall of Memphis, Tennessee, some days since, had in custody several ladies, some of apparent respectability, suspected of having been engaged in | jar, from Shanghae, two thousand years smuggling goods into the Confederacy. Some strange developments were made. One had on a bolt of the finest linen, adjusted to answer the purpose of a bustle, her corset was filled with pieces of gold coin, quilted in, to the amount printing was introduced into England, of \$1,200. Another had her form well rounded out with padding made of the best dress silks, worth five dollars and upwards per yard. Her hose were found to conceal a quantity of gentlemen's cravats, which were swathed carefully about her legs. The third lady's ample as a system. Morally, politically, and hoops were found to cover a number of lady would wear here, and are laced yards of broadcloth. Her bust was defensible. The people of this country filled out by a museum of articles, consisting mainly of jewelry, silk thread, needles, and medicines. The fair smugglers were detained for trial.

The Chicago Tribune says that Mr. Hoes, a public-spirited jeweller of that city, offered a prize of a \$50 gold watch to the largest contributor to the great Sanitary Fair. It turns out that President Lincoln was the largest contributor, his proclamation having bro't \$3000 for the benefit of the fair. Accordingly, Mr. Hoes has decided that the prize belongs to the President, and sent on the watch, but not a \$50 watch, but a magnificent one worth \$150, with this inscription upon it: "Presented to Abraham Lincoln as a memorial from the Northwestern Sanitary Fair, in consideration of his being the largest contributor to that enterprise." A letter accompanies it, explaining the mat-1 13 . 15 %

A peculiar and noteworthy feature of the times in New York is the large number of families who are breaking up housekeeping and "going to board."-Landlords and landlord's agents say the movement threatens to throw upon their hands many dwellings which had been rented until the first of May. The parties could be held to their contracts, of gotiate the exchange of our prisoners course; but in most cases, it has been now languishing in Richmond. It is thought better to let them go than to incur to expense and vexation of going to law. What effect this is to have on rents remains to be seen. Motives of economy, of course, are the incentives to the changes alluded to.

Sepator Wilson, of Massachu setts, is averse to any alteration of the Conscription act, but the Provost Marshal General Fry will recommend the repeal of the three hundred dollars' commutation clause, which makes each drafted man go or find a substitute, -There will be strenuous opposition to this, as the Secretary of War and others believe that high bounties will bring men, and volunteers are worth more than conscripts.

Yet the lady paid forty dollars for them, and refused to sell them for fifty.

Our readers will recollect with what venom the Copperhead papers, a few months since, attacked the Conscription act, and particularly that section providing for commutation in the sum of \$300. No journal was more bitter in this regard than the Chicago Times. In Thursday's issue, however, in noticing the introduction in Congress, by Mr. Arnold, a Union member from Chicago, of a bill to repeal the obnoxious clause, it cries out that he is attempting to compel the "poor white men to fight without the possibility of tutes run up so high that none but the self-contradiction is unnecessary.

By a recent legislation of Congress, the Supreme Court of the United States has been enlarged, and its Circuits reorganized. The Court of Claims, which has also been reorganized, is now in session at Washington. By an Act of Congress of March last, the number of Judges was increased to five, of whom one, Hon. Joseph Casey, of Pennsylvania, has been appointed Chief Justice. by the President. The other Judges are Hughes, of Indiana; Loring, of Massachusetts; Wilmot, of Pennsylvania, and Peck, of Illinois. Members of Congress are not allowed to practice in this Court.

A robber recently broke into a house at Debreczin, Hungary, there being only the daughter, age 17, of the occupier at home, except an old man, whom he killed on entering. He demanded her father's property, and told her she must die, lest she should cause his arrest. Seeing that he was in earnest, she begged to be allowed to die by a swift poison, to which he consented. She took a bottle from a shelf, uncorked it, raised it to her lips, and then suddenly dashed the contents into his face and eves. He fell howling to the floor and next day died. The bottle contained oil of vitriol.

An effort is being made to give to General Butler full authority to neunderstood that he has expressed his ment. It may encourage other defaultwillingness to undertake it, and his confidence in his ability to effect it. It is, moreover, understood that he will be acceptable to the Richmond authorities as a negotiator, and that they will be disposed to treat on the basis of considering all our captured negro soldiers not claimed as slaves by their owners on the same footing as our white soldiers.

Richmond paper, December 11, the bodies of six deceased Yankee prisoners were deposited in the dead-house of the hospital to await the coming of the undertaker with coffins. Yesterday morning one of the bodies was gone, and the plank knocked from the house showed the way the ghost went. THE CONSCRIPTION LAW. - In regard to the proposed amendments to the conscription law, the Washington correspondence of the New York Post says there is to be a good deal of debate in reference to the abolition of the \$300 clause. The Provost Marshal General recommends its abolition; the Secretary of War is non-commital upon the subject, and it is not yet certain how Congress will decide it. The House be unanimously in favor of the proposed to carry through the proposed amendments before the next draft is made, but it is impossible, unless the President postpones the draft for a month.
