SATURDAY, JANUARY 2, 1864.

Or Monday evening next, at Temperance Hall, we are to have the to the hair. Manufactured by J. CRISTADORO, opening of a course of lectures, by Prof. Walter Wells, on the "Working World." These lectures—three in number—are to be delivered under the auspices of the "Ladies' Patriotic Circle of Marietta." Prof. W. comes to us highly recommended as an able lecturer. The Teachers' Institute of Lancaster County secured his services about a year since, and at their late sessions had him again. The Daily Inquirer, of Laucaster, speaking of his lectures, says :-"The argument was original in its general conception, was rich in illustration. and was couched in appropriate and of. It is perfectly innecent to take internally, and ten in most eloquent language." The Evening Express, speaking of the same gentleman, says: "Great as was expectation, Prof. Wells surprised and delighted his auditory beyond their expectation."

Congress having fuiled to amend the Conscription act previous to the adjournment for the holidays, the draft will probably be postponed till the 1st of February, in order to give Congress time to amend the law. If this supposition should prove correct, and we think it will, a vigorous effort should be cine at once. Beware of Counterfeits. made to have the quota of this county filled before the draft is ordered.

The saving of garments will alone pay a large per centage on its cost. We think the machine much more than pays for itself every year in the saving of garments! There are several kinds, nearly alike in general construction, but we consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank shaft slip and tear the clothes, or the rubber break loose from the shaft. "General Subscription Agent," will continue to supply the public.

The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, absorb the balance.—Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millious daily, and as it is well known that the Secretary of the Treasury has ample and unfajling resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, the Interest and Principal of which are PAYABLE IN GOLD.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounica to over a Quarter of a Milhon of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.
