I do not propose to cure every disease, but all such as are curable by any combination of medical appliances. Osborne, well known in our city, who, from theumatic affections, has not been able to walk or use his hands sufficient to feed himself, for mor-then ten years, was brought to Prof. De Grath on the street, where in the presence of a large assemblage of people, he applied De Grath's Electric Oil to one arm and shoulder. The New Hampshire Patriot says: During the present week, no less than six of our friends, who have been induced to try Prof. De Grath's Electric Oil for Rheumatism and Desfness; in consequence of having seen this prearation advertised in our colerans, have called upon us to state the result of experi-ments. These persons assure us that their Rueumstie plins have been entirely cured by a few applications of De Grath's Electric Oil, and they recommend its use to all who are afflicted with any of the diseases which it is designed to cure. It seens that Rheumatism, Deafness, Neu-ralhia, Swollen and Stiff Joints, and other Complaints to which we are all subject, have lost their terrors. Hence the want of success on the part of old school practices in treating symptoms only. Dr. Andrew Stone, Physician to the Troy Lung and Hygienic Insitution, is now en-gaged in treating this class of modern mala-dies with the most astonished success. #### A Fortune for All!

EITHER MEN OR WOMEN !! NO HUMBUG, but an ENTIRELY NEW thing. Only three months in this country No clap-trav operation to gull the public, but a genuine money-making thing! Read the Circular of instruction once only, and you will understand it perfectly. A Lady has just written to me that she is making as high as TWENTY DOLLARS SOME DAYS! giving instructions in this art. Thousands of Soldiers are making money rapidly at it. No person has to be urged to patronize it. It is a thing that takes better than anything ever before offered. You can make money with it home or abroad-on steamboats or railroad cars, and in the country or city. You will be pleased in pursuing it, not only because it will yield a handsome income, but also in consequence of the general admiration which it elicits.' It is pretty much all profit. A mere trifle is necessary to start with.

There is scarcely one person out of thou sands who ever pays any attention to advertisements of this kind, thinking they are humbugs. Consequently those who do send for instructions will have a broad field to make money in. There is a class of persons in this world who think because the, have been humbugged out of a dollar or so, that every thing that is advertised is a humbug. Consequently they try no more. The person who succeeds is the one that keeps on trying until he hits something that pays him.

This art cost me one thousand dollars, and 1 expect to make money out of it-and all who purchase the art from me will do the same .--One Dollar sent to me will insure the prompt return of a card of instructions in the art .---The money will be returned to those who are not satisfied.
