PROFESSOR DEGRATH'S ELECTRIC OIL.

Wonderful Cures on Man and Beast

A VALUABLE MEDICINE!
PROPOSE to cure, almost instantaneously,
individuals afflicted with Deafness, Head-

ache, Neuralgia, Chill Fever, Ague, Rheumatism, and all Sores and Pains,
I prepose to check and effectually dissipate more ache and pain, and to accomplish nearer and more perfect equilibrium of all the circulation of the property of the complex of the circulation of the property of the circulation of the circulatio

and more perfect equilibrium of all the circulating fluids in the human system, than can be
effected by any other or all other methods of
medical aid in the same space of time, the
masses themselves being judges.

I do not propose to cure every disease, but
all such as are curable by any combination of
medical uppliances. My Electric Oil operates
on chemical and electric principles, and is,
therefore, applicable to the cure or natural
restoration of any organic derangement, arising from an improper circulation of Nervous

ing from an improper circulation of Nervous vital uid.

I want the masses to join in this matter—the well as the sick, because if these things are so, all are alike interested.

N. B. Please inform me of any case of failure to cure, in from half hour to three weeks, as I wish to cure or charge nothing.

The Columbus Sun iemarks: On Saturday, an old gentleman named Wm. C. Osborne, well known in our city, who, from rheumatic affections, has not been able to walk or use his hands sufficient to feed himself, for morthen ten years, was brought to Prof. De Grath's Electric Oil to one arm and shoulder. He was immediately enabled to raise his hand to his head and scratch it, a thing he said he hae not done before in twelve years.

The New Hampshire Patriot says: During the present week, no less than six of our friends, who have been induced to try Prof. De Grath's Electric Oil for Rheumatism and Deafness, in consequence of having seen this prearation advertised in our colemns, have called upon us to state the result of experiments.

"General Subscription Agent," will continue to supply the public:
The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country will in tion by National Banking Associations now organizing in all parts of the country, will, in a very short period, abrorb the balance.—Sales have lately ranged from ten to fitteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Trea sury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, the Interest and Principal of which are PAYABLE IN GOLD.

Prudence and self-interest must force the minds of those contemplating the formation of

Prudence and self-interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be subscribed for at par. er be subscribed for at par.

It is a Six Per Cent. Loan, the Interest and Principal payable in Coin, thus yielding over Nine per Cent. per annum at the present rate of premium on coin.

The Government requires all duties on im-

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the aurplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.
Subscribers can have Coupon Bonds, which are payable to bearer, and are \$50, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition, \$5,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered

Bonds are preferable.
These 5-20's cannot be taxed by States, cities, towns or counties, and the Government tax on them is only one-and-a-half per cent, on the amount of income, when the income etc., must pay from three to five per cent tax on the income. Banks and Bankers throughout the Country

will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attend-

The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the demand being so great; but as interest com-mences from the day of subscription, no loss is occasioned, and every effort is being made to liminish the delay. _____ JAY COOKE, diminish the delay.

A Fortune for All!

EITHER MEN OR WOMEN!! NO HUMBUG, but an ENTIRELY NEW thing. Only three months in this country! No clap-trap operation to gull the public, but a genuine money-making thing! Read the Circular of instruction once only, and you will understand it perfectly. A Lady has just written to me that she is making as high as TWENTY DOLLARS SOME DAYS! giving instructions in this art. Thousands of Soldiers are making money rapidly at it. No person has to be urged to patronize it. It is a thing that takes better than anything ever before hysician to the Troy Lung and Hygienic Institute, and Physician for Diseases of the Heart, Throat and Lungs, 96 Fifth Street, Troy, N. Y.

that takes better than anything ever before offered. You can make money with it home or abroad—on steamboats or railroad cars, and in the country or city. You will be pleased or abroad-on steamboats or railroad cars, and in pursuing it, not only because it will yield a handsome income, but also in consequence of the general admiration which it elicits. It is pretty much all profit. A mere trifle is necessary to start with.

There is scarcely one person out of thousands who ever pays any attention to advertisements of this kind, thinking they are humbugs. Consequently those who do send for instructions will have a broad field to make money in. There is a class of persons in this world who think because they have been humbugged out of a dollar or so, that everything that is advertised is a humbug. Consequently they try no more. The person who succeeds is the one that keeps on trying until he hits something that pays him.

This art cost me one thousand dollars, and l expect to make money out of it-and all who purchase the art from me will do the same.~ One Dollar sent to me will insure the prompt return of a cardiof instructions in the art,-The money will be returned to those who are not satisfied.

The Branches taught are, Book-keeping, as applicable to the various departments of trade; Pennmanship, both plain and ornamental; Commercial Law, Mathematics, Navigation, Civil Engineering, Drawing, Phonography, and Matery Lawsey

and Modern Languages.
The System of Instruction is peculiar; no classes or set lessons are made use of, but each student is taught individually, so that he may commence at any time, and attend at whatever hours are most convenient. Catalogues are issued annually after the 15th

of April, containing names of the students for the year, and full particulars of terms, &c., and may be obtained at any time by address-ing the Priminel. ing the Principal.
In extensive accommodations, wide-spread In extensive accommodations, wide-spread reputation, and the lengthy experience of the Principal, this Institution offers facilities surperior to any other in the country, for young men wishing to prepare for business, and to obtain A DIPLOMA, which will prove a recommendation for them to any Mercautile House.

**Extra Crittenden's Series of Treatises on Book-Keeping, now more widely circulated than any other work on the subject, are for sale at the College.
