PROFESSOR DEGRATH'S ELECTRIC OIL.

Wonderful Cures on Man and Beast

A VALUABLE MEDICINE! PROPOSE to cure, almost instantaneously, individuals afflicted with Deafness, Headache, Neuralgia, Chill Fever, Ague, Rheumatism, and all Sores and Pains,
I propose to check and effectually dissipate more ache and pain, and to accomplish nearer and more perfect equilibrium of all the circulation of the control of the co

ting fluids in the human system, than can be effected by any other or all other methods of medical aid in the same space of time, the

medical aid in the same space of time, the masses themselves being judges.

I do not propose to cure every disease, but all such as are curable by any combination of medical appliances. My Electric Oil operates on chemical and electric principles, and is, therefore, applicable to the cure or natural restoration of any organic derangement, arising from an improper circulation of Nervous vital uid.

ng from an improper circulation of Nervous vital uid.

I want the masses to join in this matter—the well as the sick, because if these things are so, all are alike interested.

N. B. Please inform me of any case of failure to cure, in from half hour to three weeks, as I wish to cure or charge nothing.

The Columbus Sun Iemarks: On Saturday, an old gentleman named Wm. C. Osborne, well known in our city, who, from rheumatic affections, has not been able to walk or use his hands sufficient to feed himself, for morthen ten years, was brought to Prof. De Grathon the street, where in the presence of a large assemblage of people, he applied De Grath's Electric Oil to one arm and shoulder. He was immediately enabled to raise his hand to his bead and scratch it, a thing he said he has not done before in twelve years.

The New Hampshire Patriot says: During the present week, no less than six of our friends, who have been induced to try Prof. De Grath's Electric Oil for Rheumatism and Deafness, in consequence of having seen this presention advertised in our colemns, have called upon us to state the result of experiments. These persons assure us that their Rueumatic pains have been entirely cured by a few applications of De Grath's Electric Oil, and they recommend its use to all who are afflicted with any of the diseases which it is designed to cure.

s Five Hundred Millions of Dollars. Nearly is five Hundred Millions of Bollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the rapidly increasing mand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, absorb the balance.— Sales have lately ranged from ten to ditteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary, for a long time to come, to find it necessary, for a long time to come, to seek a market for any other long or permanent Loans, the Interest and Principal of which are PAYABLE IN GOLD.

PAYABLE IN GOLD.

Prudence and self-interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be subscribed for at par.

It is a Six Per Cent. Loan, the Interest und Principul payable in Coin, thus yielding over Nine per Cent. per annum at the present rate of premium on coin.

of premium on coin.

Nine per Cent. per annum at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst fine Bonds may run for 20 years, yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are \$50, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition, \$5,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered Benders professible

vestments of Trust-monies the Registered Bonds are preferable.

These 5-20's cannot be taxed by States, ci-

ties, towns or counties, and the Government tax on them is only one-and-a-half per cent, on the amount of income, when the income of the holder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per cent tax Banks and Bankers throughout the Country

will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attend-The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the
