

PROFESSOR DEGRATH'S ELECTRIC OIL. Wonderful Cures on Man and Beast. A VALUABLE MEDICINE!

I PROPOSE to cure, almost instantaneously, individuals afflicted with Deafness, Headache, Neuralgia, Chill Fever, Ague, Rheumatism, and all sores and Pains.

I propose to check and effectually dissipate more sores and pain, and to accomplish nearer and more perfect equilibrium of all the circulating fluids in the human system, than can be effected by any other or all other methods of medical aid in the same space of time, the masses themselves being judges.

I do not propose to cure every disease, but all such as are curable by any combination of medical appliances: My Electric Oil operates on chemical and electric principles, and is, therefore, applicable to all cases of nervous restoration of any organic derangement, arising from an improper circulation of Nervous vital fluid.

I want the masses to join in this matter—the well as the sick, because if these things are so, all are interested.

N. B. Please inform me of any case of failure to cure, in from half hour to three weeks, as I wish to cure or charge nothing.

The Columbus Star remarks: On Saturday, an old gentleman named Wm. C. Oberon, well known in our city, who, from rheumatic affections, has not been able to walk or use his hands sufficient to feed himself, for more than ten years, was brought to Prof. De Grath on the street, where in the presence of a large assemblage of people, he applied De Grath's Electric Oil to one arm and shoulder.

He was immediately enabled to raise his hand to his head and scratch it, a thing he said he had not done before in twelve years.

The New Hampshire Patriot says: During the present week, no less than six of our friends, who have been induced to try Prof. De Grath's Electric Oil for Rheumatism and Deafness, in consequence of having seen this preparation advertised in our columns, have called upon us to state the result of experiments. These persons assure us that their Rheumatic pains have been entirely cured by a few applications of De Grath's Electric Oil, and they recommend its use to all who are afflicted with any of the diseases which it is designed to cure.

It seems that Rheumatism, Deafness, Neuralgia, Swollen, and stiff Joints, and other Complaints to which we are all subject, have lost their terrors, and that De Grath's Electric Oil is warranted to relieve any case in a short space of time, and with a trifling expense. It always cures Scratches, Sprains, Galls, and Splints on horses.

Prep. CHARLES DE GRATH, Philadelphia, Pa. No. 906 genuine without signature of Prof. C. DE GRATH. Labels signed in writing. Principal Depot No. 317 South Eighth St., Philadelphia. Country dealers everywhere can be supplied wholesale and retail. Price 25 cents, 50 cents, and \$1 per bottle.

Try everything else, give this one simple trial.

CAUTION—Be careful to ask for and get De Grath's Electric Oil, as worthless imitations abound.

There are numerous imitations sprung up on the reputation my article has acquired. The public must beware. They are worthless.

U. S. 5-20'S.

The Secretary of the Treasury has not yet given notice of any intention to withdraw this popular Loan from Sale at Par, and until ten days notice is given, the undersigned, as "General Subscription Agent," will continue to supply the public.

The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Four Hundred Millions have been already subscribed for and paid into the Treasury, in the last seven months. The large demand from abroad, and the rapidly increasing home demand for use as the basis for circulation by National Banking Associations now organizing in all parts of the country, will in a very short period, absorb the balance.

Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and unfailing resources in the Duties on Imports and Internal Revenues, and in the issue of the Interest-bearing Legal Tender Treasury Notes, it is almost a certainty that he will not find it necessary for a long time to come, to seek a market for any other long or permanent Loans, the interest and principal of which are PAYABLE IN GOLD.

Prudence and self-interest must form the basis of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing to this popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven Thirty" Loan, when it was all sold and could no longer be subscribed for.

It is a Six Per Cent. Loan, the Interest and Principal payable in Coin, thus yielding over Nine per Cent. per annum at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's, and other permanent Loans. So that it is hoped that the surplus Coin in the Treasury, at no distant day, will enable the United States to resume specie payments upon all liabilities.

The Loan is paid 5-20 from the fact that whilst the Bonds may run for 30 years, yet the Government has a right to pay them off in Gold at par, at any time after 5 years.

The interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds, which are payable to bearer, and are \$50, \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition, \$5,000, and \$10,000. For Banking purposes and for investment of Trust monies the Registered Bonds are preferable.

These 5-20's cannot be taxed by States, cities, towns or counties, and the Government tax on them is only one and a half per cent. of the amount of income when they are held by the holder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgages, Railroad Stock and Bonds, etc., must pay from three to five per cent tax on the income.

Banks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attended to.

The inconvenience of a few days delay in the delivery of the Bonds is unavailing, as the demand being so great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay.

A Fortune for All! NO HUMBLED, but an ENTIRELY NEW thing. Only three months in this country! No clap-net operation to gull the public, but a genuine money-making thing! Read the Circular of instruction only, and you will see that the money-making thing has just written to me that she is making as high as TWENTY DOLLARS SOME DAYS! giving instructions in this art. Thousands of Soldiers are making money rapidly at it. No person need be ignorant of anything. It is a thing that takes better than anything ever before offered. You can make money with it home or abroad—on steamboats or railroad cars, and in the country or city. You will be pleased in pursuing it, and only because it will yield a handsome income, but also in consequence of the general admiration which it excites. It is pretty much all profit. A mere trifle is necessary to start with.

There is scarcely one person out of thousands who do not think because they see advertisements of this kind, thinking they are humbugs. Consequently those who do send for instructions will have a broad field to make money in. There is a class of persons in this world who think because they have been humbugged out of a dollar or two, that everything that is advertised is a humbug. Consequently they try no more. The person who succeeds is the one that keeps on trying until he has something that "pays" him.

This art cost me one thousand dollars, and I expect to make money out of it—and all who purchase the art from me will do the same.—One Dollar sent to me will insure the prompt return of a card of instructions in the art.—The money will be returned to those who are not satisfied.

HOSTETTER'S CELEBRATED STOMACH BITTERS.

A PURE AND POWERFUL TONIC, Corrective and alternative of wonderful efficacy in diseases of the Stomach, Liver and Bowels; cures Dyspepsia, Liver Complaint, Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Cramps and Spasms, and all complaints of either sex, arising from bodily weakness, whether inherent in the system or produced by special causes.

Nothing that is not wholesome, genial and restorative in its nature enters into the composition of Hostetter's Bitters. This singular preparation contains no minerals of any kind, no deadly botanical element; no fiery excitant, but it is a combination of the extracts of rare balsamic herbs and plants with the purest and mildest of all diffusive stimulants.

It is well to be forearmed against disease, and so far as the human system can be protected by human means against maladies engendered by an unwholesome atmosphere, impure water and other external causes.

HOSTETTER'S BITTERS may be relied on as a safeguard.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irremediable as a remedy, and thousands who resort to it for the relief of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine. Fever and Ague patients, after being pined with quinine for months in vain, until fairly saturated with that dangerous alkaloid, are not infrequently restored to health within a few days by the use of Hostetter's Bitters.

The weak stomach rapidly invigorated and the appetite restored by this agreeable tonic, and hence it works wonders in cases of Dyspepsia and in less confirmed forms of Indigestion. Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the constipation produced by irregular action of the digestive and secretive organs. Persons of feeble habit, liable to nervous attacks, loss of spirits and fits of languor, find prompt and permanent relief from Hostetter's Bitters, and at this point is most conclusive, and from both sexes.

The agony of Bilious Colic is immediately assuaged by a single dose of the stimulant, and by occasionally resorting to it, the return of the complaint may be prevented.

Last, but not least, it is The Only Safe Stimulant, being manufactured from sound and innocuous materials, and entirely free from the acid elements present in most of the artificial tonics and stomachics of the day.

Not infrequently medicine has been so universally used, and it may be truly said, deservedly popular with the intelligent portion of the community, as HOSTETTER'S BITTERS.

A word of solemn conscientious advice to those who will reflect.

A class of maladies prevail to a fearful extent in the community, amounting to at least 100,000 youth of both sexes annually, to an early grave. These diseases are very imperceptibly understood. Their external manifestations are Nervous Debility, Relaxation and Exhaustion; Marasmus or wasting and consumption of the tissues of the whole body; and the various forms of insanity, especially delirium, mania, melancholia, and the various forms of the Heart; Asthma, Bronchitis and sore Throat; shaking of the Hands and Limbs; aversion to society and to business or study; and, in some cases, loss of Memory, dizziness, irregularity of the Menstrual parts of the body; Pains in the back or limbs, Lumbar, Dyspepsia or Indigestion, irregularity of the bowels, deranged secretions of the Kidneys and other glands of the body, as Leucorrhoea of the Uterus, &c. Likewise Epilepsy, Hysteria and Nervous Spasms.

Now in ninety-nine cases out of every one hundred, all the above named disorders, and a host of others not named, as Consumption of the Lungs and that most insidious and wily form of Consumption of the Lungs, known as Tubercles, and all cases of mania, hysteria, and other diseases of the Pel
