

The Mariettian.

MARIETTA, PA.

SATURDAY, MARCH 26, 1864.

The 46th, 50th, and 93d Pennsylvania Regiments are now in quarters at Harrisburg. The 45th, 46th, 50th, and 53d were reviewed on the 17th inst. by Generals Burnside and Hancock, in company with Gov. Curtin.

Lieutenant General Grant has issued an order from Nashville, Tenn., formally assuming command of the armies of the United States. His Headquarters will be in the field, and until further orders, with the army of the Potomac, from which it is to be inferred that he will command in person the latter army.

Hereafter deserters from the rebel army, and coming within our lines, are not to be committed to prison if they prove to be bona fide deserters, but will be dismissed upon taking the oath of allegiance, furnished with transportation to the North, or employed in the various fortifications. Within the past week some three or four hundred prisoners have been released from the Old Capitol, and sent to Philadelphia and New York.

Dr. Franklin Bachie, the oldest grandson of Benjamin Franklin, and a distinguished member of the Medical profession, died at his residence in Philadelphia on Saturday afternoon after a short illness. Dr. Bachie was born in Philadelphia on the 25th of October, 1792, and was the oldest son of the oldest grandchild of Benjamin Franklin.

The Washington correspondent of the New York Times states that a letter has been received from General Grant's army, saying that nine-tenths of the soldiers are in favor of Mr. Lincoln's re-election, and will vote for him if they have the opportunity. On the 22d of February votes were taken in several brigades and divisions, and out of nearly 13,000 ballots polled only 582 were cast against him.

Mr. Seward, in 1856, ventured to predict that slavery would disappear from this Continent, and that the men of this generation would live to see it. The prophecy only excited attention at the time on account of its apparent improbability; but it is now being realized with every assurance that it will be completely fulfilled within ten years from the time his words fell on the ears of an unwilling people.

The Legislature of the State of Wisconsin has ordered the Governor's message to be printed in English, German, Norwegian, Irish, Welsh, Dutch, French and Bohemian, for the benefit of the various nationalities represented among the citizens of the State. The men who worked on the tower of Babel appear to have emigrated to the Badger State in a body.

Isaac Fishel, confined at Carlisle barracks, and under sentence to be shot for desertion and piloting the rebels in their last raid into this State, was unconditionally pardoned by the President on the 10th inst. The pardon was procured through the exertions of Mr. Phang and other gentlemen of York county, who it is said, procured evidence of the man's insanity, and through the assistance of Hon. Joseph Bailey.

The Pennsylvania R. R. C. have issued large placards in which they warn all persons to procure tickets before entering the cars. Conductors are required to charge passengers neglecting to do so an excess. Under 30 miles 10 cents. Between 30 and 50 miles 25 cents. Between 50 and 150 miles 50 cents. Over 150 miles 1.00.

The reorganization of the Army of the Potomac, now in progress, reduces the number of corps to three—the 1st and 3d being absorbed into the 2d, 5th, and 6th—to be commanded respectively by Major-General Hancock, Warren, and Sedgwick. This will make three very strong corps.

The Bounty Bill has passed both of the legislatures and now only the signature of the Governor to the law.

The death of Sir William Brown, the senior of the old and eminent banking firms of Brown, Shipley & Co., of Liverpool, and Brown, Brothers & Co., of New York, and Brown & Bowen, of Philadelphia, at the ripe age of 81 years, is announced in England. Sir William was an able and successful merchant, for many years a useful Member of Parliament for Lancashire, and always a staunch and influential friend in England of the United States and their Government. He was a native of the North of Ireland, born before the emigration of his father, Alexander Brown, of Baltimore, to this country. The present brothers are now James Brown, of New York, and John A. Brown, of Philadelphia. The first named succeeds to the titles and estate, which latter is said to be about seven million pounds sterling. Sir William Brown generously gave a half million of dollars for the establishment of a library for the working men of Liverpool.

The Vallandigham family entertain feelings of admiration, not to say love, for the negro race in general, the female sex in particular, that is incredible. The race has furnished the stock in trade and the speech-inspiring theme of the Ohio martyr for a number of years. But the younger members outstrip him in their affections for the "down-trodden African." Perley Vallandigham, "a youth to fortune and to fame unknown," but nevertheless nephew of the great Ohio martyr, is married to and lives with a negro woman in this city. His brother, living on the opposite side of the river, is also married to a negress.—Muscatine Journal.

The Washington Republican of Monday says:—It is known that Connecticut and Indiana, through their Representatives, have protested against the decision of the Provost Marshal General that the draft under the present call should be enforced in districts which had not filled their quotas although the State might have done so.

The matter was referred by the Secretary of War to Mr. Solicitor Whiting for advisement. We learn that the opinion of the Solicitor will reverse the decision of the Provost Marshal General, and that therefore no draft will take place in States which have filled their quotas.

A day or two before the adjournment of the Maryland Legislature, a proposition was introduced to tax bachelors above 25 years of age not less than \$20 a head per annum, because the war is destructive of the male population, while the number of females is greatly in excess to that of the opposite sex, and it is the duty of every lover of his country to promote by every means the elements that constitute her strength—said tax to be applied to the support and education of the children of Maryland soldiers slain in battle. The proposition was amended by doubling the tax upon bachelors over 45 years of age.

General Sigel, who has just assumed command of the Department of West Virginia, had a narrow escape from capture by the rebels a few days since. While in Martinsburg he rode outside his picket lines for some reason, and just at that moment a force of two hundred rebels rode between the General and his lines. Had they known of his presence they could have captured him with ease.

It was denied, some time since, that Mrs. Douglas was officiating as a clerk in the Treasury Department. The Washington correspondent of the Wisconsin says, however, that "passing through the Treasury Department the other day, I met Mrs. Stephen A. Douglas, who is filling the duties of a twelve hundred dollar clerkship in that department."

Governor Smith, of Rhode Island, saw a culprit fleeing from an officer the other day, joined in the chase, caught the rascal just as he was getting over a fence, delivered him up to the officer, and then proceeded to his duties at the State House as if nothing had happened.

Labor is so scarce in Missouri that good farms are offered, in eligible locations, at five dollars, ten dollars, and fifteen dollars an acre, their owners being glad to dispose of property which they cannot make available at almost any price.

General Grant is expected shortly to take active command of the Army of the Potomac, thus following the practical example set by Napoleon—at one time with his army in Italy, and at another with his army in Germany.

Letters from Europe report that all kinds of nobility are to be conferred by Maximilian on the Secessionists, who in large numbers will attend him from Paris to Mexico. Dr. Gwin is to be a Duke.

Intelligence from Strawberry Plains is to the effect that the rebels are in large force at Bull's Gap, and that there is a general belief that they intend to make a sudden move into Kentucky.

Advices from the Army of the Potomac say that great preparations are being made for a grand review by Lieut. Gen. Grant.

General News Items.

James Buchanan will never appreciate the merits of "Ayer's Pills." In Dr. Ayer's Almanac for the present year, in the column of "miscellaneous events," the following "scrap of history" is found: "Traitor Buchanan, born April 21st, 1791."

Charlotte Cushman, since her return to Rome, her adopted home, has been continuing her efforts, so liberally and efficiently commenced in her native land, in behalf of the United States Sanitary Commission.

The rebel Bragg is a brother-in-law of Jefferson Davis, which accounts for his position. "He that provideth not for his own household is worse than an infidel." Davis is acting on scriptural authority.

Gen. Scott has nearly completed his autobiography, tracing his personal history downward from the earliest period to the latest public acts of his eminently useful life.

Joshua Marsh, a venerable citizen of Uniontown, died in that borough a few days since from the effects of that mysterious disease to which so many of those stopping at the National Hotel, at the time of Buchanan's inauguration, have fallen victims.

The Whisky Bill, as it has at length passed both Houses of Congress, places a tax of sixty cents on all spirits to be manufactured until the first of July, and for the time thereafter, future legislation must provide. A tax of forty cents on foreign liquors is, however, added; but there is no tax of the stock on hand of domestic liquors.

Some of the oldest-established banks in the Atlantic cities, which have in years past realized large profits from Government business, are quite indignant about the creation of the new National Banks, and are waging a petty warfare upon them, by "throwing out" their notes and checks upon them.

The Committee of Ways and Means in the House, at Harrisburg, have agreed to increase the salaries of the judges of the courts, and have also decided to recommend increasing the pay of members of the Legislature to \$1,000 per session.

Eleven hundred officers are in six rooms in Libby Prison.

"Old Abe" refuses any more of his autographs or photographs.

The King of Bavaria is at the point of death.

DANGEROUS COUNTERFEIT.—A well executed twenty dollar Treasury note has made its appearance. It is fac simile of the genuine, and but that the green on the face is a little pale, it would be difficult to distinguish it from the genuine note. The signature of Mr. Skinner, which looks as though it was proof against being counterfeited, is very well imitated, and scarcely distinguishable from the original. Upon a good judge, it would of course be folly to attempt passing one of these notes, but they might easily be taken by persons not used to handling money, and for this reason, the public should be on their guard against them.

Among the inscriptions on the tombstones in the rebel graveyard at Bealton Station, Virginia, is the following: "A coward, 9th Regiment Louisiana Volunteers, died Dec. 4, 1863."

SPECIAL NOTICES.

Hostetter's Celebrated Stomach Bitters is one of the greatest strengthening preparations extant. It is especially adapted to those who are afflicted with the fever and ague, or any other disease arising from a disordered condition of the digestive organs. For the fever and ague there is perhaps no medicine in the world equal to it, as it enters, purifies and replenishes the blood, which is so important to bring about healthy action in diseases of this nature. The Bitters are now among the most popular, and at the same time, valuable specifics in the medicine world. In recommending it to the public, we are fully conscious of doing them a great service, knowing, as we do, their many excellent qualities, and sure and speedy action in all cases where the disease is caused by irregularity of the digestive organs. A trial will suffice for the most skeptical. See advertisement. For sale by Druggists and dealers generally, everywhere. [1m]

HOLLOWAY'S PILLS & OINTMENT. ALL WHO HAVE FRIENDS AND Relatives in the Army or Navy, should take special care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds affecting Troops. Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box. Sick Headache and want of Appetite Incident to Soldiers!

Those feelings which so sadden us, usually arise from eating and drinking, obstructed preparation, or too late and drinking, whatever is wholesome, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well.—The Pills, taken according to the Directions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness and Debility induced by OVER FATIGUE. Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation of the bowels, is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acid humors from the system. This medicine will give tone and vigor to the whole organic system, however damaged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the bowels so sure as this famous medicine.

VOLUNTEERS ATTENTION! Sores and Ulcers, Blotches and Swellings can with certainty be radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed Instructions. If treated in any other manner they dry up in one part to break out in another. Whereas this Ointment will remove the humors from the system and leave the patient a vigorous and healthy man. It will require a little perseverance in its use, but it will insure a LASTING CURE.

For Wounds either occasioned by the Bayonet Sabre or the Bullet, Sores or Bruises, To which every Soldier and Sailor are liable there are no medicines so safe, so simple and convenient as Holloway's Pills and Ointment.—The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round the cover it with a piece of linen from his Knapsack and compressed with a handkerchief.—Taking night and morning 6 or 8 Pills, to cool the system and prevent inflammation. Every Soldier's Knapsack and Seaman's Chest should be provided with these invaluable Remedies.

IMPORTANT CAUTION.—None are genuine unless the words "HOLLOWAY'S, NEW YORK, and LONDON," are discernible as a Watermark in every leaf of the book, and stamped around each pot or box; the same may be plainly seen by holding the leaf to the light.—A handsome reward will be given to any one rendering such information as may lead to the detection of any party who counterfeits the medicines or vending the same, knowing them to be spurious.
