MARIETTA, PA.

SATURDAY, APRIL 2, 1864.

A GREAT CHANGE.—On Monday the 19th regiment of colored troops, under the command of Colonel Henry G. Thomas, marched from Camp Birney, and after parading through the principal streets of our city, stacked arms in front of the Holiday Street Theatre, upon the very ground where, on the 20th and 21st of April, 1861, the secessionists of Baltimore, under the guidance of ex-Marshal Kane, gathered to carry out their nefarious plots. The various movements of this body of men evidenced the high state of discipline to which the men have been brought by their officers, and which favorably impressed all loyal men.—Baltimore American.

Joseph Moore, whose trial for the shooting of Jordan Marbourg, at Johnstown, took place during the past week, has been found guilty of murder in the second degree. It will be remembered that Moore was a soldier, and that during his absence in the army, his wife and Marbourg were on too intimate terms—hence the murder. Both parties belonged to the most respectable classes of society, in Johnstown, Cambria county. Moore has been sentenced to six years imprisonment in the Western Penitentiary.

Gen. Prim, the celebrated Spanish officer, says: In my opinion, if the importance of nations is to be measured by the number of soldiers that they can put in the field—when these are well led, armed and equipped—the United States is the first nation of the world; because I do not know of another nation which can maintain for the long period of four years a million and a half of men under arms, expending in all that appertains to war about four millions of dollars a day, without, up to this hour, calling for a foreign loan.

A Western paper notices a curious specimen of the handwork of a Southern lady—a pair of knit pantaloons in crocheted work. The work was firm and neatly done, and the maker was Mrs. W. H. Mackie, of Columbia, Arkansas. During the blockade in that region her husband needed a pair of pantaloons, and as there was no cloth to be had, she took her crocheted needle, and, with plenty of home-spun yarn, got up an article equal to anything a merchant tailor could turn out—handsome in appearance, and good for "three years or the war."

The estimation put upon Mr. Jeff. Davis in North Carolina, is shown by this observation in the late speech of Governor Vance. He said: "If every man in this county (Wilkes) who had used abusive language toward Jeff. Davis and the Confederate Government were to be put in jail, he would have to address his entire audience through the prison bars."

The wife of the rebel Senator Henry S. Foote arrived within our lines, and had an interview with General Sullivan. Mrs. F. says she is disgusted with the Confederacy, cannot live there, and has come within our lines to take the oath and go North. Mrs. F. had her child and a nurse with her. She was, however, sent back again into Dixie.

President Lincoln is the recipient of a pair of Woolen socks, knit by Miss Addie Brokaw, of Newburyport, Mass. On the bottom of each was knit the Secession flag; and near the top the glorious Stars and Stripes of our Union, so that when worn by the President he will always have the flag of the rebellion under his feet.

At Parkersburg, Va., oil wells have been struck yielding from six hundred to one thousand barrels per day. The excitement is very great in consequence; and every man in the place thinks he has an oil well in his cellar.

One of the most curious farming customs in the heights of Thibot is that of stuffing quantities of hay among the higher branches of trees; the snow in winter lying five or six yards deep, and the sheep, which abound in these districts, being then able to get at the hay.

Hon. Jere. Clemens, of Huntsville, Ala., formerly United States Senator, presided over and addressed a large Union meeting at that place on the 5th instant. Highly loyal resolutions were passed, and another convention was called. This is a good sign.—Mr. C. is a man of influence in his State.

Five thousand men are called for by advertisement in the Wisconsin papers, to work saw-mills and navigate lumber rafts the coming season.

A NEW LEAGUE PROPOSED.—The Boston Messenger wants to see organized Grand Ladies' Loyal League, composed of women who are willing to pledge themselves, while this war lasts, a decent economy in their attire. A league that eschews costly apparel and other kinds of extravagance will be confined to a select few. Extravagance and expenditure rule the day and have their causes in the necessities of the war.—Nothing but compulsion, which the rapid consumption of wealth by the war must eventually bring about, can prevent their operation. When men build marble stables for the accommodation of their horses, and pull down hundred thousand dollar houses to raise more expensive ones, extravagance has reached a point that cannot be resisted effectually by any voluntary association of self-denying women.

General Meade claims that it was his intention to have turned Lee's right flank at Gettysburg, and to have placed his own army between the Confederates and the Potomac before giving general battle. He says that he was perfectly confident of his ability to defeat Lee, and could then have captured him bag and baggage, but that General Sickles, by disobeying orders, advanced his corps too far, got it involved, and it then became necessary to engage the whole army in order to save Sickles. Meade says that it cost three thousand men to repair the blunder of which General Sickles was guilty; and in this view General Halleck, otherwise hostile to Meade, fully sustains him.

Captain L. B. Peyton, one of John Morgan's men who was last week transferred from the penitentiary at Allegheny city to Point Lookout, Md., was shot and killed at the latter place on the 18th ult. It is stated that a guard of colored soldiers were placed over the prisoners, which offended Peyton, and induced him to abuse the white sergeant in charge. The sergeant, who belongs to a New Hampshire regiment, and whose name is Young, cautioned him as to his conduct, but Peyton, it is alleged, continued his abuse, and shook his fist in the face of the officer. The latter then drew his revolver and fired.

Brigadier General David B. Birney, United States Volunteers, has been confirmed as a Major General in the Volunteer service, his commission to date from May 20th, 1863. Birney is an Alabamian by birth, and the son of Jas. G. Birney, who, originally a planter of Alabama, liberated his slaves, removed to the West to educate his children, and was in 1840 made the Abolitionist candidate for the Presidency.—General Wm. Birney, in charge of the recruitment of black regiments in Maryland, is his brother.

A lady pianist has lately appeared in Holland who enjoys the singular advantage, to one in her profession, of having six fingers on each and, the supplementary finger adjoining the little finger, and resembling the thumb of another hand. She plays the piano with much brilliancy, making much use of the supplementary finger. Her six fingered gloves are manufactured expressly for the lady in Paris. She has also six toes on each foot.

A rebel woman writes to her husband in Price's Arkansas army (the letter having been intercepted) that "Parson Nolan is our serent rider now. He says that God has pleneely promised to be on our side and drive the Yankees from off our soil. Parson Nolan is a splendid preacher, but it don't look to me as if God was driven the Yanks any too much outen Arkansas just now."

An Act relating to foreign coins and the coinage of coins, was passed in the U. S. Senate on last Monday. It provides, among other things, that the weight of the cent shall be 48 grains and composed of 95 per cent. of copper and 5 per cent. of zinc or tin. It also provides for the coinage of two cent pieces of the same composition.

Provost Marshal Fry publishes the decision of Solicitor Whiting, last year, that any man who leaves his residence and is drafted during his absence, if the notice be left at his last place of residence, can be arrested and shot as a deserter. The Government overruled this decision last year, but it seems to be revived now.

Postmaster Wakeman, of New York city, proposes to take into the post office a number of boys of the age of about sixteen years, whose fathers have lost their lives in the service of their country, thus aiding their widowed mothers, and introducing them into active and industrious employment. A most excellent idea.

Neal Dow remained long enough in Richmond to see the rebel Legislature pass an act to seal up every groshop in Richmond, and perhaps in Virginia, on the 1st day of May. General Lee asked for the law, and it was conceded.

Hon. Wm. F. Johnston, of Pittsburg, has been appointed by Governor Curtin to represent Pennsylvania in the movement lately inaugurated by the Louisville Board of Trade, for the improvement of the Ohio river.

General News Items.

John William Wallace, of Philadelphia, has been appointed reporter of the decisions of the United States Supreme Court, in the place of Judge Black, resigned.

A London Surgeon put a dog to sleep with chloroform, and, taking out a piece of his skull, has inserted a watch crystal, through which he can see the changes in the brain produced by sleep.

The returns thus far of the vote of New York, on the Amendment to the Constitution allowing soldiers to vote, foot up a majority of one hundred and sixty-one thousand in favor.

A cotemporary says that the New York Herald has changed its programme, and now goes for Grant on Mondays instead of Tuesdays—reserving the latter for its McClellan day—Thursday is still its Fremont day.

Prisoners from Richmond do not hesitate to assert as their belief that the Rebels have already secretly executed a number of officers attached to colored regiments. Several have disappeared mysteriously from the Libby, it is said.

A man named Phelps, who died at Salem, Ct., recently, by his own agreement sold his body to a surgeon in Boston for \$1,000, the money to be appropriated to the use of his widowed mother, and his body to purposes of scientific investigation. His death was produced by an enormous tumor upon his back.

A man named Orson Jones recently brought a suit against the town of Andover, for damages for injuries in consequence of a defect in the highway.—He lost his case, as the accident occurred on a Sunday evening, while he was engaged in taking meat from South Reading to Lawrence.

The London Morning Post announces with much formality that the infant prince will be called by his Christian name, with the prefix of Prince, until it may please the Crown to confer a peerage upon him.

Captain Sawyer, recently released from the Libby Prison, has been promoted to the post of major in his regiment (the 1st New Jersey Cavalry) by Governor Parker. His new commission dates back to last October.

Deacon John Phillips, of Sturbridge, Mass., will be 104 years old on the 20th of June next, and has never been severely sick since he was 14 years of age. He was chosen deacon, in the place of his father, in 1790.

Mrs. Mumford, widow of the man who was hung by General Butler at New Orleans, for tramping on the American flag, passed through Columbus, S. C., a few days ago, on her way to Richmond.

Recently, in Salem, Mass., died Captain William Story, at the advanced age of 89 1/2 years. He was the oldest brother of the late Judge Story.

One of the agents of an insurance company in Hartford, in sending a small remittance of \$12,000 from the West, the other day, wrote upon the foot of the check, "Good for burns."

J. B. Gough has refused nine hundred invitations to lecture this season.

Mr. A. T. Stewart's (of N. Y.) sales during the past year have amounted to nearly the enormous sum of thirty-five millions of dollars! His net income has been given in to the proper authorities empowered to levy taxes, at four millions of dollars.

Widow McClintock, on Oil creek, was so severely burned, on the 18th ultimo, by the explosion of some oil she poured on the fire, that she died on Tuesday. Mrs. McC. was one of the original landholders there, previous to the discovery of the oil, and had become very wealthy from the production of her farm.

It is rumored in military circles that the entire organized militia of the North is to be called into active service for a period of six months, to hold certain strategical points during the campaign against Richmond, which is about to commence.

We have been informed that the commissioners of Chester county have resolved to pay \$350 county bounty to all recruits, to fill up the quota of the county for 200,000 men. Those who enlist in Chester county receive a bounty of \$750.

Diarrhoea and dysentery will decimate the volunteers far more than the bullets of the enemy, therefore let every man see to it that he carries with him a full supply of Holloway's Pills. Their use in India and the Crimea saved thousands of British soldiers. Only 30 cents per box.

A Mrs. Cornelia Hill, who died in Monroe, Connecticut, last week, was born, married, and died on the same day of the month, and the same month in the year. A remarkable coincidence.

It is announced in a dispatch from Washington, that the draft will take place in this State on the 15th of April. Hon. Owen Lovejoy, M. C., from Illinois, died in Brooklyn, New York, a few days since.

INVESTIGATION INTO MORGAN'S ESCAPE.

The Committee of the Ohio House of Representatives, investigating the escape of Morgan from the Ohio Penitentiary, charged the occurrence to the carelessness and impropriety of Lieut. Judkin's upon Gen. Mason's staff, who had officers of the prisoners. The rebel officers flattered the vanity of this young man by consulting him on all matters, and asking his opinion of the proper wording of their petitions, &c. He allowed orders to pass from the rebel prisoners to Gen. Mason, requesting him to deliver to Lieutenant Judkin sundry articles, such as medicines, gutta percha buttons, wine, a vice, files and two dozen watchmakers' or diamond saws! The saws were on two separate orders. One of these Orders was signed by Basil Duke. These packages, as well as the prisoners' mail, were taken in and out of the prison without going through the hands of the warden, and without his knowledge, and in some cases, against his express orders. The committee say of this vigilant Lieutenant, that he must have been destitute of that sense, discretion and firmness which constitute the good soldier, or wanting in that moral integrity without which no man can perform a true soldier's duty. And while we are of the former opinion, we think he should be discharged from the military service of the United States.—This will probably be Judkin's fate, if it has not been so already.

A proclamation from Kossuth is circulating among the Hungarians who form part of the Austrian Army in Venetia. The ex-dictator prays his countrymen to desert the Austrian flag, declaring that the Hungarians about to be freed by an alliance with Italy. The proclamation adds that the King, who has merited the title of "gallant man" from his people, is preparing to lead his brave army against Austria, and that all Hungarians who desire the emancipation of their country from Austrian tyranny should rally round his flag.—Kossuth tells them, in conclusion, that there is a Hungarian Legion being formed in Italy, and it is of pressing necessity to fill its ranks with devoted patriots.

The Princeton Standard says that on Wednesday night last a large organized corps of college students sallied out into our streets, making a ferocious assault on domestic peace and private property. Almost every gate, large and small, that could be got off was carried away; in some instances iron as well as wooden gates were badly broken and injured. On the previous night some person or persons performed the hazardous feat of ascending the cupola of the college, on the outside, to the bell, and robbing that time-honored mouthpiece of Nassau Hall of its tongue.

The New York Herald's readings of the sacred book are original and curious. In defending the practice of raffling it refers to Scripture examples, and mentions that, after the death of Christ, the friends of the Saviour cast lots for his garments. It so happens that the lots were cast by the executioners, to whom the garments of the victims belonged by the usage of the times.—Exchange.

A workman in the Commune of Le Jarue has succeeded in making barrels without hoops as solid as the best hooped barrels in the world. So at least asserts a French paper, and the alleged discovery, which has been a desideratum for some three thousand years, is now undergoing examination before the Academy of Le Rochelle.

The Chicago people are building an observatory. It is to have a telescope twenty-three feet long, which will weigh about six tons, or twice as much as the great equatorial at Cambridge, Mass. Its cost is estimated at eighteen thousand dollars. Mr. James Dull, of Harrisburg, is one of the contractors for the erection of the immense work.

The Supreme Court of California has decided the statute constitutional which requires attorneys to take the new oath of allegiance before they are permitted to continue practice in the California courts, and some lawyers of rebel proclivities are removing to Nevada Territory, where test oaths of loyalty are not required.

The autograph sale of the Cincinnati Sanitary Fair took place last week. General James Clinton's original Order Book sold for \$16; a manuscript speech of William H. Harrison for \$10; B. B. French's "Last Words of John Brown" for \$10; Elizabeth Barrett Browning's autograph for \$6; Washington Irving's, \$5 50; Jeff. Davis', \$5 25; John Adams', \$5; Buchanan's, with a letter of Baron Humboldt, bought for the sake of the latter, \$5.

Official advices received from Arkansas state that there is a steady return there of citizens to their allegiance, many prominent rebel officers being among the number. Gen. Albert Pike has, it is averred, made overtures for an amnesty.

Lady Don has returned to Australia, where her husband, Sir William, the long man, died about two years ago.

SPECIAL NOTICES.

Hosetter's Celebrated Stomach Bitters is one of the greatest strengthening preparations extant. It is especially adapted to those who are afflicted with the fever and ague, or any other disease arising from a disordered condition of the digestive organs. For the fever and ague there is perhaps no medicine in the world equal to it, as it enters, purifies and replenishes the blood, which is so important to bring about healthy action in diseases of this nature. The Bitters are now among the most popular, and at the same time, valuable specifics in the medicine world. In recommending it to the public, we are fully conscious of doing them a great service, knowing, as we do, their many excellent qualities, and sure and speedy action in all cases where the disease is caused by irregularity of the digestive organs. A trial will suffice for the most skeptical.

Friends and Relatives of the brave SOLDIERS & SAILORS.

HOLLOWAY'S PILLS & OINTMENT

ALL WHO HAVE FRIENDS AND Relatives in the Army or Navy, should take special care, that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their friends. They have been proved to be the Soldier's never-failing friend in the hour of need.

Coughs and Colds affecting Troops

Will be speedily relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box. Sick Headache and want of Appetite Incident to Soldiers!

Those feelings which soadden us, usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthy action of the liver and stomach. These organs must be relieved, if you desire to do well.—The Pills, taking according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and as a natural consequence a clear head and good appetite.

Weakness and Debility induced by OVER FATIGUE.

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the bowels be either confined or unduly acted upon. It may seem strange that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach and thus remove all the acid humors from the system. This medicine will give tone and vigor to the whole organic system however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

VOLUNTEERS ATTENTION!

Sores and Ulcers, Blotches and Swellings can be cured by the radically cured if the Pills are taken night and morning, and the Ointment be freely used as stated in the printed instructions. If treated in any other manner they dry up in one part to break out in another. Where this Ointment will remove the humors from the system and give tone and vigor to the whole man. It will require a little perseverance in bad cases to insure a LASTING CURE.

For Wounds either occasioned by the Bayonet Sabre or the Bullet, Sores or Bruises,

To which every Soldier and Sailor are liable there are no medicines so safe, sure and convenient as Holloway's Pills and Ointment.—The poor wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all around it, then cover it with a piece of linen from his Knapsack and compressed with a handkerchief.—Tacking night and morning 6 or 8 Pills, to cool the system and prevent inflammation.

Every Soldier's Knapsack and Seaman's Chest should be provided with these invaluable Remedies.

CAUTION!—None are genuine unless the words "HOLLOWAY'S" New York and London" are discernible as a Water-mark in every leaf of the book of directions, around each pot or box; the same may be plainly seen by holding the leaf to the light.—A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the civilized world, in pots or boxes, at 30c. 70c. and \$1.10 each.

N.B.—Directions for the guidance of patients in every disorder are affixed to each pot.—Dealers in my well known medicines can have SHOW CARDS, CIRCULARS, &c., sent them, FREE OF EXPENSE, by addressing THOMAS HOLLOWAY, 80 Maiden Lane, New York.

There is considerable saving in taking the larger sizes. [Dec 26-ly]
