Great Central Fair, FOR THE SANITARY COMMISSION. Office of the Committee on Labor, Incomes and Revenues, No. 118 South 7th St., Philadelphia, April 4, 1864.

The Committee on "Labor, Incomes and Revenues" invite co-operation with them in the particular work for which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the objects of the Fair. The most equitable plan for accomplishing this, and at the same time the easiest one, is to ask for all classes of the community. Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be the success of the plan will depend upon the hearty co-operation of every element of influence within our limits, and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of patriotism and humanity. The Committee is charged with the following duty: to wit: To obtain the contribution of "one day's labor" of earnings from every artisan and laborer, farmer, mechanic, operative and employee; president, cashier, teller and clerk of every incorporated or unincorporated company, railroad or express company, employing firm, bank, manufacturer, iron works, oil works, gas works, and public office, from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, finisher and artist; publisher, printer and mechanic; from every government officer, contractor and employee; and grier;

butcher, baker and dealer; farmer, horticulturist and pro-ducer; from every manufacturer, milliner and furniture operator; every baker, dividing engaged in tending the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pennsylvania, New Jersey and Delaware. SECOND.—To obtain the contribution of one day's "Recreation" from all the great employing establishments, firms, corporations, companies, railroads and works. THIRD.—To obtain the contribution of one day's income from every retired person, and person of fortune—male and female—living upon their means, and from all clergymen, lawyers, physicians, dentists, editors, authors and professors; all other persons engaged in the learned or other professions. Much of this work must be performed by the personal aid and efforts of ladies and gentlemen associated, or to be associated with the Committee in carrying out this plan. The Committee feel the responsibility of the work they have undertaken, which, to be successful, will require a very judicious selection of their plan, and they therefore call upon all earnest people, to assemble themselves together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing districts, the coal and oil regions, and in the agricultural districts, especially, let these be organizations in the large towns, so that young people may have an opportunity thus to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this Committee may be prosecuted where no other effort can be made for the Fair, as in the mines of the coal regions.—A day's earnings of the miners and a day's product of the mines, can be obtained, where no portable article could be procured for transportation. Indeed there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to reach them. The Committee cannot close without urging upon all Proprietors of Establishments, the duty of taking prompt and energetic action to secure the benefit of THE DAY OF LABOR from all within the control of their establishments. The Committee deem it unnecessary to do more than this to present the subject to the people of the three States named. In the coming campaign of our armies, the labor of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men will be operating in the field. So large a force, scattered over regions to which the men are unaccustomed, must necessarily carry along with it a large amount of sickness, suffering and death, to say nothing of the gathered horrors of the battle-field. These sufferings, it is our bounden duty, as men and Christians, to relieve. A great and enlightened people, enjoying the blessings of a government of their own choice, cannot refuse assistance to men suffering to maintain their authority, and we will not believe that the "GREAT CENTRAL FAIR," drawing its products from the three States of Pennsylvania, New Jersey and Delaware, so affluent in all interests, agricultural and industrial wealth, shall ill befriend any similar effort which has yet been made for the relief of the Nation's children.

As it is desirable not to multiply circulars, no further authority than that of the President is necessary for an employing firm, or company, or any respectable committee of ladies and gentlemen, to proceed at once, in the work of this Committee; and it is hoped that under its organization will spring up in all the towns and the busy regions of the States of Pennsylvania, New Jersey and Delaware. Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia, and it is very desirable that they commence soon, as each fresh acknowledgment will stimulate effort in other localities. All societies should be addressed to JOHN W. CLARKE, Treasurer, office of the "Committee on Labor, Incomes and Revenues," No. 118 South Seventh Street, Philadelphia. All needed letters to Great Central Fair will be forwarded to parties applying for them. Direct to the Chairman of the Committee as above.

Committee for a Day's Labor. GREAT CENTRAL SANITARY FAIR. Committee on "Labor Incomes & Revenues." Office No. 118 S. Seventh Street. JOHN W. CLARKE, Treasurer.

This Committee has a special work, to wit: to obtain a day's "labor," a day's "income," a day's "recreation" from every citizen of the three States of Pennsylvania, New Jersey and Delaware, for the benefit of our sick and wounded soldiers.

The Committee is now fully organized at the above address, and for the co-operation of all classes in the community. We want to show what the industrial classes can do for their soldiers! What the people can do in their separate trades!

What Pennsylvania can do! What New Jersey can do! What Delaware can do! What each county can do! What each city and town can do! What each profession can do! What each trade can do! What each occupation can do! What each manufactory can do! What each bank, insurance company and railroad can do! What each mine can do! What each workshop can do! What each family can do! What each woman can do! What each boy and girl can do! We want to show to the world that American freemen are ready to do for their soldiers! This is a great work and the time short. Organize to do it! Organize in your families!

Let the men organize. Let the women organize. Let the trades organize. Organize everywhere. Let the workmen give with their employers, the employers with their workmen. It is easily done. If the workmen will authorize their employers to deduct one day from their week's or month's earnings, and the employers will add to it a day of their profits, the whole sum will be acknowledged together to the credit of the establishment. We say to all, go to work at once with us in this great work. Hurry forward your contributions.—Every acknowledgment will stimulate others to follow your example. Circulars with full instructions will be sent upon application, by mail or otherwise, to the undersigned. To work to work! L. MONTGOMERY BOND, Chairman. Mrs. E. W. HUTTER, Secretary. JOHN W. CLARKE, Treasurer. M. J. MITCHELL, Secretary.
