The Local Mariettian.

MARIETTA CAR Hours. The several passenger trains will leave the "Upper-station Depot" as follows: Morning train, East, at ten minutes before 8; Mail train West, 12:11; Harrisburg Accommodation train, East, at 6:39 and the evenling train West, at 7:02.

Marietta, Saturday, May 14, 1864.

We are authorized to say that Mr. William W. Reitzel, the obliging mail agent, who passes through this borough every Tuesday, Thursday and Saturday in the noon train west and down the Harrisburg branch on the following days to Philadelphia, will carry, free of charge, anything any of our ladies may have to contribute to the great fair to be held in Philadelphia next month. We hope to hear of Marietta in Harrisburg in June. sustaining her character for liberality, in this, as upon all former patriotic occasions. Come now, and see if Mr. R. can say of us as he has of Lancaster, in a note to us: "I had a pretty good load from Lancaster yesterday."

The old brick cooper shop, near the Town Hall, has been torn down and the ground cleaned off preparatory to commencing a very handsome brick any shade of color desired, from a fine amber dwelling for Miss Margaret Franck .-When this building is completed the Town Hall vicinity will present quite a different appearance. The beautifying of the National Bank building, Mr. Christian Stibgen's handsome new dwelling and then Miss Franck's will modernize that corner very much. Mr. Musselman, of the Marietta Furnaces, has purchased the Susquehanna Institute building, recently the Linden House, and is vastly improving it, beautifying the grounds and making additions to it. for a private residence for himself and family. Thus it would seem that notwithstanding the cry of "high prices," our borough is not behind its neighbors in the march of improvement.

The residence of John Deppellar on Fairview street, near the Cemetery, was struck by lightning on Tuesday alternoon between 5 and 6 o'clock. It entered at the chimney-shattering one corner of it, and passed out at the eav of the roof and down into a rain barrel. demolishing it. John was standing at the front door at the time and received quite a shock.

The bodies of Christian White and Philip Krempel, both Mariettians, were found at Safe Harbor on Monday last. White was knocked from Conrad Marks' rait a short time since, and Krempel fell from a raft lying at the upper end of town, while gathering wood, on Saturday the 23d ultimo .-Both have families and some property and were well-to-do Germans.

The new National Bank of Columbia has gone into operation, with the following officers:

President, Ephraim Hersbey.

Cushier, S. S. Detwiler. Teller, Prof. T. R. Vickroy.

Directors .-- J. G. Hess, A. Bruner Sr., W. G. Case, E. Hershey, C. S. Kaussman, Washington Righter, J. B. Shuman, Justice Gray, Philip Gossler.

Whilst James D. Shank was bringing a skiff load of rivermen from "the point ferry," at the lower end of town, a few days since, the boat was capsized and a colored man drowned. The skiff was overloaded, containing sixteen men, a storm came up suddenly and hence the accident. Andy Seibert, another ferryman, observing the disaster, bastened in in his case. Those wishing to profit by his a skiff to their rescue.

Philip Troutwine, belonging to town, went to Baltimore a few weeks since and renlisted under a ficticious name, and whilst being transported to a man-of-war, fell overboard and was drowned. He leaves a wife, two children and a mother in this place. In consequence of enlisting under a false name his family are denied a pension.

We understand our friend Heckrothe, of the White Swan, has added to his Eating House arrangement, the seasonable luxury of Ice Cream. George is determined not only to keep one of the best hotels, but also to provide the "inner man" with every accessible luxury when in season. Try his cream.

U.S. 10-40 RONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this Act shall be EX-EMPT FROM TAXATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten months nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over one hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convetient for commercial uses.

Subscribers to this loan will have the option of having their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium) or receive them drawing interest from the date of subscription and deposit. As these Bonds are

Exempt from Municipal or State Taxatlon, their value is increased from one to three per cent. per annum, according to the rate of tax levies in various parts of the country.

At the present rate of premium on gold they pay

Over Fight Per Cent Interest in currency, and are of equal convenience as

permanent or temporary investment. It is believed that no securities offer so

great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or seperate ommunities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and interest in coin.

These bonds may be subscribed for in sums rom \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection hat the total Funded Dobt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,-000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far

at the rate of over \$100,000,000 per annum. It will be seen that even the present gold revenues of the Government are largely in excess of the wants of the Treasury for the payment of the gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.

Instructions to the National Banks acting as loan agents were not issued from the United State Treasury until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A

The Patent Conflex Reflector Lantern,

THIS is the most desirable Lantern in the market. It burns Coal Oil without a Chimney, emitting neither smoke nor smell. It gives a pure white light. It stands quick motions in any direction. The flame is regulated from the outside. It is neat and compact in form and size. It is free from solder in the upper parts, and is otherwise very substantial in its structure. It has the glass sides so arranged that break-age is less likely to occur than in other Lan-terns, and in the event of breakage can be ea-sily replaced. It has convex reflectors which increase greatly the force of the dame, serving at the same time the purpose of shades to the eyes, which is very desirable.

It is seld lower, with all these advantages than any Lantern in the market which admits of the flame bring regulated from the outside.
