Marietta, Saturday, May 28, 1864.

In taking a stroll along Fairview street, to the Cemetery, on Sunday last, we were struck with the fast filling-up of this "City of the Dead," and think that this "Oity of the Dead," and think that every family in this borough should have a lot in this beautiful spot. Removals from the other burial grounds are taking place almost every fine day. The Cemetery Company should, by all means, obtain that patch of ground which Mr. Goodman purchased at the Kelley Chariff and the property of the five and stomach, and as a natural consequence a clear head and good appeints. Sheriff sale and throw it into burial lots, for ere long the present grounds will be all taken up. Mr. G. would, no doubt, all taken up. Mr. G. would, no doubt, sell for so noble a purpose, at a very small advance. This had better be done at once, for Mr. G.'s enterprising spirit may soon induce him to build and then their purchase would involve a much greater expense. Directors of the Cemegreater expense. Directors of the Cemetery-seriously ponder over this and tarry not in Jerico.

We understand that Mr. James Duffy has purchased from Mr. Israel Goodman, for three thousand dollars, the old "Keesey-Glatz Ferry," immediately opposite this borough. There are divers rumors as to what purpose it is intended to be put. Some say it is to be fitted up for a summer watering place-others, a safe harbor for timber, &c. It would, unquestionably, be well calculated for either. Mr. Duffy's wellknown liberality and wealth will, no doubt, enable him to make something very fine, in some shape, out it.

A fire occurred on Wednesday forenoon, near the upper station. Mr. James Duffy had a frame building erected to kill-dry lumber for his new house, and, during the temporary absence of the man in attendance, the stove set fire to the surrounding lumber and be- ble Remedies. fore anything could be done to quench the flames the entire pile was in a blaze. Nothing was saved. We did not learn the amount of the loss. Fortunately there was nothing to burn near the place, the building being located on an unoccupied lot near the river bank.

The First National Bank of Columbia has got fairly under way and ready for business, as will be seen by referring to our advertising columns .-The board of directors is composed of leading business men of the place, and will, beyond peradventure, make the bank not only profitable to the shareholders, but be a great public convenience, in a financial way, something very much needed by our neighbors.

Hon. A. E. Roberts of Lancaster city, has been appointed Chairman of the Committee of Agriculture of this county for the Sanitary Fair to be held in Philadelphia in the first week of June. Mr. R. is authorized to appoint an active and influential county committee of five gentlemen and five ladies, of which he shall be Chairman, and this committee will in turn appoint a responsible and energetic committee in each township, to solicit therein contributions of the products of the farm, and of the farmer's house-hold, to be exhibited and disposed of at the Fair.

An informal meeting of the Farmer's and Gardener's Society of East Donegal will be held in Temperance Hall, on Tuesday evening next, at 8 o'clock. In consequence of the inclement condition of the weather no meeting was held on Thursday evening last. It is to be hoped there will be a good turn out, as steps will be taken to have a Strawberry exhibition soon.

We are requested by James M. Anderson, the newly appointed agent for the Adams' express company for this borough, to say that on word being left at his store, trunks, boxes, &c., will be taken to and from the railroad station The office has been removed to Mr. Anderson's store on Market street.

Godey for June is out, which completes its thirty-fourth year, over one third of a century. It stands unrivalled as a Lady's book. The present number, contains, as usual, a number of fine engravings and high-toned literary matter.

Tomorrow (Sunday) morning and evening the M. E. Sabbath School will repeat their quarterly singing which gave so much satisfaction on Sunday last. Sermon by Rev. J. Gregg, pastor.

The lumber business has again been brought to a close, almost the "last raft" having left us for the "lower markets." The season has been an unusual ly long and busy one.

The draft for this county will most positively, it is said, be commenced on next Thursday, June 2d.

Great Central Fair FOR THE

SANITARY COMMISSION.

fice of the Committee on Labor, Incomes und Revenues. No. 118 South 7th St., PHILADELPHIA, April 4, 1864.

The Committee on "Labor, Incomes and Revenues," invite co-orperation with them in the particular work fo which they have been appointed. As no portion of the people are more patriotic than the working men and women of the country, it is but just and proper that they should alike have an opportunity to contribute to the objects of the Fair. The most equable plan for accomplishing this, and, at the same time the easiest one, is to ask for the contribution of a single day's labor from all classes of the community. Many will contribute a day of their labor willingly, who would not subscribe their money. To reach every department of industry and art will be a work of great labor, but. if attained, will be productive of immense results.

The success of the plan will depend upon the hearty co-operation of every influence within our limits, and we invite all the guardians of the industrial interests, and all others, to take hold with us in furthering this great work of patriotism and humanity.

The Committee is charged with the follow-

ing duty, to wit:

First.—To obtain the contribution of "one day's labor," or earnings, from every artisan and laborer, foreman, operative and employee; president, cashier, teller and clerk of every inorporated or unincorporated company, road or express company, employing firm, bank, manufactory, iron works, oil works, mill, mine and public office; from every private banker and broker, importer, auctioneer and merchant; clerk, agent and salesman; designer, finisher and artist; publisher, printers and merchant; from elegative printers and merchants. er and mechanic; from every government officer, contractor and employee; grocer, butcher, baker and dealer; farmer, horticulturnst and pro lucer; from every mantua ma-ker, milliner and female operative; every in-dividual engaged in turning the soil, tending the loom, or in any way earning a livelihood, or building a fortune within the States of Pennsylvania, New Jersey and Delaware. SECOND .- To obtain the contribution of one

day's "Revenue," from all the great employ-ing establishments, firms, corporations, companies, railroads and works.
Third.—To obtain the contribution of one day's income from every retired person, and person of fortune—male and female—living upon their means, and from all clergymens

lawyers, physicians, dentists, editors, author, and professors; all other persons engaged in the learned or other professions.

Much of this work must be performed by the personal influence and efforts of ludies and gentlemen associated, or to be associated with the Committee in carrying out this plan.

The Committee feel the responsibility of the work they have undertaken, which, to be sucwork they have undertaken, which, to be successful, will require a very perfect ramification of their plan, and they therefore call upon ail earnest people, to assemble themseives together in every town, township, and county, and form organizations of ladies and gentlemen to co-operate with them in this great work and labor of love. In the manufacturing counties, the coal and oil regions, and in the agricultural districts,—especially, let there be organizations in the large towns, so that young people may have an opportunity thus to render assistance to their relatives and to render assistance to their relatives and friends fighting the battles of their country in the armies of the nation.

The work of this Committee may be prose cuted where no other effort can be made for the Fair, as in the mines of the coal regions.— A day's earnings of the miners, and a day's product of the mines, can be obtained, where to portable article could be procured for transportation. Indeed there is no part or section of these States where the day's labor may not be obtained, if organizations can be formed to

The Committee cannot close without urging upon all Proprietors of Establishments, the luty of taking prompt and energetic action to secure the benefit of THE DAY OF LABOR from all within their control.

The Committee deem it unnecessary to do

more, than thus to present the subject to the people of the three States named. In the coming campaigns of our armies, the labors of the "Sanitary Commission" will be greatly augmented. By the first of June 700,000 men—one of the lagest armies of modern times—will be energating at the field. So leave of the state of the lagest armies of modern times—will be energating at the field. So leave of the state of the lagest armies of modern times will be operating in the field. So large a force, scattered over regions to which the men are anacclimated, must necessarily carry along with it a large amount of sickness, suffering and death, to say nothing of the gathered hor-

As it is desirable not to multiply circulars; no further authority than this circular will be necessary for any employing firm or company, or any respectable committee of ladies and getlemen, to proceed at once, in the work of this Committee; and it is hoped that under it, organizations will spring up in all the towns and the busy regions of the States of Pennsyl-vania, New Jersey and Delaware.

Subscriptions will be thankfully acknowledged in the newspapers of Philadelphia; and it is very desirable that they commence soon, as each fresh acknowledgment will stimulate effort in other localities.

All subscriptions should be addressed to

Putnam Manufacturing Co: GENTLEMEN: Iknow from practical experience that iron well galvanized with zinc will not oxidize or rust one particle. I can safely say, after several years' experience in the manufacture of chain for chain-pumps and waterdrawers, in which I have tested the affinity of iron and zine, that if the process be conducted properly, it is a perfect weld of the

two.
Nearly one year ago my family commenced using one of your Wringers. It now performs all of its functions as well as it did the first time it was used, and has become an in-dispensible article with us. I have close-ly observed several other kinds of clothes wringers, the modus operandi being different wringers, the modus operandi being different, trying to produce the same results as the Putnam Wringer, but in my judgment they have failed. The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use.

Subscription to these Bonds are received in United State notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than ten months nor more than forty years from their date, and until their redemption FIVE PER CENT. INTEREST WILL BE PAID IN COIN, on Bonds of not over our hundred dollars annually and on all other Bonds semi-annually. The interest is payable on the first days of March and September in each year.

Subscribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U. S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the op. ion of having their Bonds draw interest from March 1st, by paying the accrued interest in coin—(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium) or receive them drawing interest from the date of subscription and deposit. As these Bonds are

Exempt from Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax

levies in various parts of the country. At the present rate of premium on gold they pay

Over Eight Per Cent Interest in currency, and are of equal convenience as a permanent or temporary investment.

It is believed that no securities offer so great inducements to lenders as the various descriptions of U. S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or seperate communities only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both principal and in-

These bonds may be subscribed for in sums from \$50 up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which interest is payable in gold, on the 3d day of March, 1864, was \$768,965,-000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been so far at the rate of over \$100,000,000 per annum.

It will be seen that even the present gold revenues of the Government are excess of the wants of the Treasury for the payment of the gold interest, while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per
